AN ACT INCREASING THE BID THRESHOLD FOR LOCAL GOVERNMENT CONSTRUCTION CONTRACTS PAID FOR WITH GASOLINE AND VEHICLE FUELS TAX REVENUE; AMENDING SECTION 15-70-101, MCA; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 15-70-101, MCA, is amended to read:

"15-70-101. Disposition of funds. (1) All taxes collected under this chapter must, in accordance with the provisions of 15-1-501, be placed in a highway revenue account in the state special revenue fund to the credit of the department of transportation. All interest and income earned on the account

must be deposited to the credit of the account and any unexpended balance in the account must remain in the account. Those funds allocated to cities, towns, counties, and consolidated city-county governments in this section must, in accordance with the provisions of 15-1-501, be paid by the department of transportation from the state special revenue fund to the cities, towns, counties, and consolidated city-county governments.

(2) The amount of $16,766,000 of the taxes collected under this chapter is statutorily appropriated, as provided in 17-7-502, to the department of transportation and must be allocated each fiscal year on a monthly basis to the counties, incorporated cities and towns, and consolidated city-county governments in Montana for construction, reconstruction, maintenance, and repair of rural roads and city or town streets and alleys, as provided in subsections (2)(a) through (2)(c):

(a) The amount of $100,000 must be designated for the purposes and functions of the Montana local technical assistance transportation program in Bozeman.

(b) The amount of $6,306,000 must be divided among the various counties in the following manner:

(i) 40% in the ratio that the rural road mileage in each county, exclusive of the national highway system and the primary system, bears to the total rural road mileage in the state, exclusive of the national highway system and the primary system;

(ii) 40% in the ratio that the rural population in each county outside incorporated cities and towns bears to the total rural population in the state outside incorporated cities and towns;

(iii) 20% in the ratio that the land area of each county bears to the total land area of the state.

(c) The amount of $10,360,000 must be divided among the incorporated cities and towns in the following manner:

(i) 50% of the sum in the ratio that the population within the corporate limits of the city or town bears to the total population within corporate limits of all the cities and towns in Montana;

(ii) 50% in the ratio that the city or town street and alley mileage, exclusive of the national highway system and the primary system, within corporate limits bears to the total street and alley mileage, exclusive of the national highway system and primary system, within the corporate limits of all cities and towns in Montana.

(3) (a) For the purpose of allocating the funds in subsections (2)(b) and (2)(c) to a consolidated city-county government, each entity must be considered to have separate city and county boundaries. The city limit boundaries are the last official city limit boundaries for the former city unless revised boundaries based on the location of the urban area have been approved by the department of transportation and must be used to determine city and county populations and road mileages in the following manner:

(i) Percentage factors must be calculated to determine separate populations for the city and rural county by using the last official decennial federal census population figures that recognized an incorporated city and the rural county. The factors must be based on the ratio of the city to the rural county population,

considering the total population in the county minus the population of any other incorporated city or town in the county.

(ii) The city and county populations must be calculated by multiplying the total county population, as determined by the latest official decennial census or the latest interim year population estimates from the Montana department of commerce as supplied by the United States bureau of the census, minus the population of any other incorporated city or town in that county, by the factors established in subsection (3)(a)(i).

(b) The amount allocated by this method for the city and the county must be combined, and single monthly payments must be made to the consolidated city-county government.

(4) All funds allocated by this section to counties, cities, towns, and consolidated city-county governments must be used for the construction, reconstruction, maintenance, and repair of rural roads or city or town streets and alleys or for the share that the city, town, county, or consolidated city-county government might otherwise expend for proportionate matching of federal funds allocated for the construction of roads or streets that are part of the primary or secondary highway system or urban extensions to those systems. The governing body of a town or third-class city, as defined in 7-1-4111, may each year expend no more than 25% of the funds allocated to that town or third-class city for the purchase of capital equipment and supplies to be used for the maintenance and repair of town or third-class city streets and alleys.

(5) All funds allocated by this section to counties, cities, towns, and consolidated city-county governments must be disbursed to the lowest responsible bidder according to applicable bidding procedures ~~followed in all cases in which the contract~~ *followed in all cases in which the contract* for construction, reconstruction, maintenance, or repair ~~is in excess of $4,000~~ *is in excess of $25,000*.

(6) For the purposes of this section in which distribution of funds is made on a basis related to population, the population must be determined annually for counties and biennially for cities according to the latest official decennial census or the latest interim year population estimates from the Montana department of commerce as supplied by the United States bureau of the census.

(7) For the purposes of this section in which determination of mileage is necessary for distribution of funds, it is the responsibility of the cities, towns, counties, and consolidated city-county governments to furnish to the department of transportation a yearly certified statement indicating the total mileage within their respective areas applicable to this chapter. All mileage submitted is subject to review and approval by the department of transportation.

(8) Except by a town or third-class city as provided in subsection (4), the funds authorized by this section may not be used for the purchase of capital equipment.

(9) Funds authorized by this section must be used for construction and maintenance programs."

WHEREAS, the primary recreational uses of state school trust land are hunting and fishing; and

WHEREAS, the Department of Natural Resources and Conservation and the Department of Fish, Wildlife, and Parks wish to provide a more efficient system for authorizing public recreational use for hunting, fishing, and trapping on state trust land and concurrently provide greater benefit to the institutional beneficiaries of the trust; and

WHEREAS, the Department of Fish, Wildlife, and Parks has the discretionary authority in section 87-1-209, MCA, to enter into an agreement to compensate state trust land beneficiaries for the use and impacts associated with hunting, fishing, and trapping on legally accessible state trust land as defined by department of natural resources and conservation rule; and

WHEREAS, the Department of Natural Resources and Conservation and the Department of Fish, Wildlife, and Parks have reached an agreement that, given the legislative authority, they intend to enter into an agreement for the recreational use of school trust land parcels for hunting, fishing, and trapping purposes.

Be it enacted by the Legislature of the State of Montana:

Section 1. Recreational use agreement for hunting, fishing, and trapping on legally accessible state trust land. (1) The board is authorized to enter into an agreement with the department of fish, wildlife, and parks to compensate state trust land beneficiaries for the use and impacts associated with hunting, fishing, and trapping on legally accessible state trust land as defined in department rule. The department may impose restrictions it considers necessary to coordinate the uses of state trust land or to preserve the purposes of the various trust lands. Hunting, fishing, and trapping on state trust land must be conducted in accordance with rules and provisions provided in this part.

(2) An agreement may be issued to the department of fish, wildlife, and parks for a term of up to 10 years. Through this agreement, the board shall recover for the beneficiaries of the trust the full market value for the use and impacts associated with hunting, fishing, and trapping on legally accessible state trust land. Ten percent of the gross receipts from the agreement must be deposited in the state lands recreational use account established in 77-1-808. The remaining 90% must be apportioned on a pro rata basis to the land trusts, in proportion to the respective trust's percentage of acreage in the total acreage of all state land trusts.

(3) Any agreement entered into is subject to the following conditions:

(a) The department maintains sole discretion, throughout the term of the agreement, with regard to identifying legally accessible parcels, coordinating uses on state trust land, and any other necessary state trust land management decisions.

(b) An agreement between the department and the department of fish, wildlife, and parks may not convey any additional authority to the department of fish, wildlife, and parks.

(4) During any period that the department of fish, wildlife, and parks and the department have reached an agreement as provided in subsection (1), an individual recreational use license under 77-1-801 or 77-1-802 may not be required for a member of the public to hunt, fish, or trap upon legally accessible state trust land.

Section 2. Section 70-16-302, MCA, is amended to read:

"70-16-302. Restriction on liability of landowner. (1) A person who uses property, including property owned or leased by a public entity, for recreational purposes, with or without permission, does so without any assurance from the landowner that the property is safe for any purpose if the person does not give a valuable consideration to the landowner in exchange for the recreational use of the property. The landowner owes the person no duty of care with respect to the condition of the property, except that the landowner is liable to the person for any injury to person or property for an act or omission that constitutes willful or wanton misconduct. For purposes of this section, valuable consideration does not include the state land recreational use license fee imposed under 77-1-802 *or other funds provided under [section 1].*

Section 3. Section 77-1-106, MCA, is amended to read:

"77-1-106. Setting of rates or fees — rules. (1) In setting the lease rental rates, *agreement rates,* or fees for the use of state lands and cabin sites, the board shall consider the impact of the uses on the school trust asset, lessee expenses for management, water development, weed control, fire control, the term of the lease, the production capabilities, the conditions on the lease payment, and any other required expenses reasonably borne by the lessee. In setting cabin site lease rates, the board shall consider expenses that are commonly incurred by the lessees to preserve the value of the state land or to provide services commonly provided by private lessors in the area.

(2) All lease rental rates, *agreement rates,* and fees established by the board under 77-1-208, 77-1-802, *[section 1],* 77-6-202, 77-6-501, 77-6-502, and 77-6-507 must consider the trust asset and be in the best interests of the state with regard to the long-term productivity of the school trust lands, while optimizing the return to the school trust.

[SB 395]

AN ACT PROVIDING FOR THE SPORT HUNTING OF WILD BUFFALO OR BISON AS A MANAGEMENT TOOL THROUGH ESTABLISHMENT OF A SPECIAL WILD BUFFALO OR BISON LICENSE; ESTABLISHING REGULATIONS RELATED TO THE SPECIAL WILD BUFFALO OR BISON LICENSE AND SETTING A PRICE FOR THE LICENSE; CLARIFYING DUTIES OF THE DEPARTMENT OF FISH, WILDLIFE, AND PARKS IN ADMINISTERING THE SPECIAL WILD BUFFALO OR BISON LICENSE, INCLUDING CONSULTATION AND COOPERATION WITH THE DEPARTMENT OF LIVESTOCK IN DEVELOPING AND IMPLEMENTING RULES REGARDING THE SAFE HANDLING OF WILD BUFFALO OR BISON PARTS; AMENDING SECTIONS 81-2-120, 87-1-216, AND 87-2-701, MCA; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE.

WHEREAS, the Legislature intends that the provisions of the special wild buffalo or bison license be administered and implemented by the Department of Fish, Wildlife, and Parks, after consultation with the Department of Livestock, regarding the management of wild buffalo or bison that have been designated as a species in need of disease control.

Be it enacted by the Legislature of the State of Montana:

Section 1. Special wild buffalo license — regulation. (1) The public hunting of wild buffalo or bison that have been designated as a species in need of

disease control under 81-2-120 is permitted only when authorized by the department of livestock under the provisions set forth in 81-2-120.

(2) The department may issue special licenses to hunt wild buffalo or bison designated as a species in need of disease control when authorized by the department of livestock.

(3) The department shall adopt rules in cooperation with the department of livestock. The rules must provide for:

(a) license drawing procedures;

(b) drawing and application fees consistent with 87-2-113;

(c) notification of license recipients as to when and where they may hunt, but notification may not include information regarding the actual physical location of a wild buffalo or bison other than the prescribed hunting district where the animal may be taken;

(d) fair chase hunting of wild buffalo or bison, including requirements that hunting be conducted on foot and away from public roads and that there be no designation of specific wild buffalo or bison to be hunted;

(e) means of taking and handling of carcasses in the field, which must include provisions for public safety because of the potential for the spread of infectious disease;

(f) tagging requirements for carcasses, skulls, and hides;

(g) possession limits;

(h) requirements for transportation and exportation; and

(i) requirements and criteria for authorization by the state veterinarian and the department of livestock of any public hunting.

Section 2. Section 81-2-120, MCA, is amended to read:

"81-2-120. Management of wild buffalo or bison for disease control. (1) Whenever a publicly owned wild buffalo or bison from a herd that is infected with a dangerous disease enters the state of Montana on public or private land and the disease may spread to persons or livestock or whenever the presence of wild buffalo or bison may jeopardize Montana's compliance with other state-administered or federally administered livestock disease control programs, the department may, under a plan approved by the governor, use any feasible method in taking one or more of the following actions:

(a) The live wild buffalo or bison may be physically removed by the safest and most expeditious means from within the state boundaries, including but not limited to hazing and aversion tactics or capture, transportation, quarantine, or delivery to a department-approved slaughterhouse.

(b) The live wild buffalo or bison may be destroyed by the use of firearms. If a firearm cannot be used for reasons of public safety or regard for public or private property, the animal may be relocated to a place that is free from public or private hazards and destroyed by firearms or by a humane means of euthanasia.

(c) The live wild buffalo or bison may be taken through limited public hunts pursuant to [section 1] when authorized by the state veterinarian and the department.

~~(c)~~*(d)* The live wild buffalo or bison may be captured, tested, quarantined, and vaccinated. Wild buffalo or bison that are certified by the state veterinarian as brucellosis-free may be:

(i) sold to help defray the costs that the department incurs in building, maintaining, and operating necessary facilities related to the capture, testing, quarantine, or vaccination of the wild buffalo or bison; or

(ii) transferred to qualified tribal entities that participate in the disease control program provided for in this subsection ~~(1)(c)~~ *(1)(d)*. Acquisition of wild buffalo or bison by a qualified tribal entity must be done in a manner that does not jeopardize compliance with a state-administered or federally administered livestock disease control program. The department may adopt rules consistent with this section governing tribal participation in the program or enter into cooperative agreements with tribal organizations for the purposes of carrying out the disease control program.

~~(d)~~*(e)* Proceeds from the sale of live, brucellosis-free, vaccinated wild buffalo or bison must be deposited in the state special revenue fund to the credit of the department.

~~(e)~~*(f)* Any revenue generated in excess of the costs referred to in subsection ~~(1)(c)(i)~~ *(1)(d)(i)* must be deposited in the state special revenue fund provided for in 87-1-513(2).

(2) Whenever the department is responsible for the death of a wild buffalo or bison, either purposefully or unintentionally, the carcass of the animal must be disposed of by the most economical means, including but not limited to burying, incineration, rendering, or field dressing for donation or delivery to a department-approved slaughterhouse or slaughter destination.

(3) In disposing of the carcass, the department:

(a) as first priority, may donate a wild buffalo or bison carcass to a charity or to an Indian tribal organization; or

(b) may sell a wild buffalo or bison carcass to help defray expenses of the department. If the carcass is sold in this manner, the department shall deposit any revenue derived from the sale of the wild buffalo or bison carcass to the state special revenue fund to the credit of the department.

(4) The department may adopt rules with regard to management of publicly owned wild buffalo or bison that enter Montana on private or public land and that are from a herd that is infected with a contagious disease that may spread to persons or livestock and may jeopardize compliance with other state-administered or federally administered livestock disease control programs."

Section 3. Section 87-1-216, MCA, is amended to read:

"87-1-216. Wild buffalo or bison as species in need of management — policy — department duties. (1) The legislature finds that significant potential exists for the spread of contagious disease to persons or livestock in Montana and for damage to persons and property by wild buffalo or bison. It is the purpose of this section:

(a) to designate publicly owned wild buffalo or bison originating from Yellowstone national park as a species requiring disease control;

(b) to designate other wild buffalo or bison as a species in need of management; and

(c) to set out specific duties for the department for management of the species.

(2) The department:

(a) is responsible for the management, including but not limited to public hunting, of wild buffalo or bison in this state that have not been exposed to or infected with a dangerous or contagious disease but may threaten persons or property;

(b) shall consult and coordinate with the department of livestock on implementation of the provisions of subsection (2)(a) to the extent necessary to ensure that wild buffalo or bison remain disease free; and

(c) shall cooperate with the department of livestock in managing publicly owned wild buffalo or bison that enter the state on public or private land from a herd that is infected with a dangerous disease, as provided in 81-2-120, under a plan approved by the governor. The department of livestock is authorized under the provisions of 81-2-120 to regulate publicly owned wild buffalo or bison in this state that pose a threat to persons or livestock in Montana through the transmission of contagious disease. *The department may, after agreement and authorization by the department of livestock, authorize the public hunting of wild buffalo or bison that have been exposed to or infected with a contagious disease, pursuant to [section 1].*

~~(3) The department and the department of livestock are strongly urged to enter into an agreement with the national park service for the long-term management of the Yellowstone national park wild buffalo or bison herd. If the national park service does not proceed in good faith in a timely manner to enter a long-term management agreement that, in the determination of the department and the department of livestock, responds adequately to the needs of Montana, the departments are strongly urged to take appropriate court action. The department and the department of livestock shall prepare a joint report to the 55th legislature regarding the present state of wild buffalo or bison management in Montana and any progress on an agreement for the long-term management of the Yellowstone national park herd.~~

~~(4)~~*(3)* The department may adopt rules with regard to wild buffalo or bison that have not been exposed to or infected with a contagious disease but are in need of management because of potential damage to person or property.

(4) When adopting and implementing rules regarding the special wild buffalo or bison license issued pursuant to [section 1], the department shall consult and cooperate with the department of livestock regarding when and where public hunting may be allowed and the safe handling of wild buffalo or bison parts in order to minimize the potential for spreading any contagious disease to persons or to livestock."

Section 4. Section 87-2-701, MCA, is amended to read:

"87-2-701. (Temporary) Special licenses. (1) An applicant who is 12 years of age or older or who will turn 12 years old before or during the season for which the license is issued and is the holder of a resident wildlife conservation license or a nonresident wildlife conservation license may apply for a special license that, in the judgment of the department, is to be issued and shall pay the following fees:

Be it enacted by the Legislature of the State of Montana:

Section 1. Extended property tax assistance — phasein. (1) For the purpose of mitigating extraordinary market value increases during the revaluation cycle that ended December 31, 2002, the rate of taxation of class four residential dwellings and appurtenant land not to exceed 5 acres otherwise set in 15-6-134(2)(a) is adjusted in this section for properties with extraordinary increases in market value with owners that meet income requirements.

(2) An annual application on a form provided by the department is required to receive a tax rate adjustment under this section. The application must be signed under oath. A tax rate adjustment may be granted only for the current tax year and may not be granted for a previous year.

(3) A rate adjustment may not be granted for:

(a) any property that was sold or for which the ownership was changed after December 31, 2002, unless the change in ownership is between husband and wife or parent and child with only nominal actual consideration or the change is pursuant to a divorce decree;

(b) the value of new construction, including remodeling, on the property occurring after December 31, 2002, that is greater than 25% of the market value of the improvements; or

(c) a land use change occurring after December 31, 2002, that increases the market value of the land by more than 25%.

(4) For the purposes of determining the adjustment in the class four property tax rate in this section, the following provisions apply:

(a) The change in taxable value before reappraisal is the 2002 tax year value adjusted for any new construction or destruction that occurred in the 2002 tax year. The taxable value before reappraisal for the 2003 tax year and subsequent years is the same as the 2002 tax year value if no new construction, destruction, land splits, land use changes, land reclassifications, land productivity changes, improvement grade changes, or other changes are made to the property during 2002 or subsequent tax years.

(b) The percentage increase in taxable value is measured as the percentage change in taxable value before reappraisal to the taxable value after reappraisal. The taxable value before reappraisal is calculated by multiplying the value before reappraisal in 2003 times 0.69 times 0.0346. The taxable value after reappraisal is calculated by multiplying the 2003 market value after reappraisal times 0.66 times 0.0301.

(c) The dollar increase in tax liability is measured as the change in tax liability before reappraisal to the tax liability after reappraisal. The tax liability before reappraisal is calculated by multiplying the value before reappraisal in 2003 times 0.69 times 0.0346 times the tax year 2002 mill levy applied to the property. The tax liability after reappraisal is calculated by multiplying the 2003 market value after reappraisal times 0.66 times 0.0301 times the tax year 2002 mill levy applied to the property. The tax year 2002 mill levy is the total of all mills applied to the property for fiscal year 2003.

(d) Total household income is the sum of the income of all members of the household and all other persons who are owners of the property. Income, as used in this section, includes income from all sources, including net business income and otherwise tax-exempt income of all types but not including social security income paid directly to a nursing home. Net business income is gross income less ordinary expenses but before deducting depreciation or depletion allowance, or both. For an entity, as defined in subsection (8), income also includes the income of any natural person or entity that is a trustee of or controls 25% or more of the entity. A household is an association of persons who live in the same dwelling, sharing its furnishings, facilities, accommodations, and expenses. For single-family rental dwellings, total household income does not include the income of the tenant.

(e) The phase-in value is the valuation change made pursuant to 15-7-111(3) since the last reappraisal.

(5) (a) If total household income is $25,000 or less, the percentage increase in taxable value is greater than 24%, and the dollar increase in taxable liability is $250 or greater, then the property qualifies for an adjusted tax rate as follows:

(i) For tax year 2003, the tax rate is 0.03598 times the value before reappraisal divided by the 2003 phase-in value.

(ii) For tax year 2004, the tax rate is 0.03759 times the value before reappraisal divided by the 2004 phase-in value.

(iii) For tax year 2005, the tax rate is 0.03932 times the value before reappraisal divided by the 2005 phase-in value.

(iv) For tax year 2006, the tax rate is 0.04109 times the value before reappraisal divided by the 2006 phase-in value.

(v) For tax year 2007, the tax rate is 0.04289 times the value before reappraisal divided by the 2007 phase-in value.

(vi) For tax year 2008 and after, the tax rate is 0.04485 times the value before reappraisal divided by the 2008 phase-in value.

(b) If total household income is greater than $25,000 but less than or equal to $50,000, the percentage increase in taxable value is greater than 30%, and the dollar increase in taxable liability is $250 or greater, then the property qualifies for an adjusted tax rate as follows:

(i) For tax year 2003, the tax rate is 0.03633 times the value before reappraisal divided by the 2003 phase-in value.

(ii) For tax year 2004, the tax rate is 0.03828 times the value before reappraisal divided by the 2004 phase-in value.

(iii) For tax year 2005, the tax rate is 0.04038 times the value before reappraisal divided by the 2005 phase-in value.

(iv) For tax year 2006, the tax rate is 0.04251 times the value before reappraisal divided by the 2006 phase-in value.

(v) For tax year 2007, the tax rate is 0.04467 times the value before reappraisal divided by the 2007 phase-in value.

(vi) For tax year 2008 and after, the tax rate is 0.04702 times the value before reappraisal divided by the 2008 phase-in value.

(c) If total household income is greater than $50,000 but less than or equal to $75,000, the percentage increase in taxable value is greater than 36%, and the dollar increase in taxable liability is $250 or greater, then the property qualifies for an adjusted tax rate as follows:

(i) For tax year 2003, the tax rate is 0.03668 times the value before reappraisal divided by the 2003 phase-in value.

(ii) For tax year 2004, the tax rate is 0.03898 times the value before reappraisal divided by the 2004 phase-in value.

(iii) For tax year 2005, the tax rate is 0.04143 times the value before reappraisal divided by the 2005 phase-in value.

(iv) For tax year 2006, the tax rate is 0.04392 times the value before reappraisal divided by the 2006 phase-in value.

(v) For tax year 2007, the tax rate is 0.04646 times the value before reappraisal divided by the 2007 phase-in value.

(vi) For tax year 2008 and after, the tax rate is 0.04919 times the value before reappraisal divided by the 2008 phase-in value.

(d) The adjusted tax rate computed under this subsection (5) must be rounded to the nearest 1/100 of 1%.

(6) A person who applies for a tax rate adjustment under this section shall provide the department with documentation of total household income and other information that the department considers necessary to determine the person's eligibility for the tax rate adjustment. Documents provided to the department to determine eligibility for a tax rate adjustment are subject to the confidentiality provisions in 15-30-303.

(7) A person who applies for a tax rate adjustment and submits a false or fraudulent application for a tax rate adjustment is guilty of false swearing under 45-7-202.

(8) For the purposes of this section, "entity" means:

(a) a corporation, fiduciary, or pass-through entity, as those terms are defined in 15-30-101; and

(b) an association, joint-stock company, syndicate, trust or estate, or any other nonnatural person.

Section 2. Extended property tax assistance — phasein. (1) For the purpose of mitigating extraordinary market value increases during revaluation cycles that begin after December 31, 2008, the rate of taxation of class four residential dwellings and appurtenant land not to exceed 5 acres otherwise set

in 15-6-134(2)(a) is adjusted in this section for properties with extraordinary increases in market value with owners that meet income requirements.

(2) An annual application on a form provided by the department is required to receive a tax rate adjustment under this section. The application must be signed under oath. A tax rate adjustment may be granted only for the current tax year and may not be granted for a previous year.

(3) A rate adjustment may not be granted for:

(a) any property that was sold or for which the ownership was changed after December 31 of the last year of the previous revaluation cycle, unless the change in ownership is between husband and wife or parent and child with only nominal actual consideration or the change is pursuant to a divorce decree;

(b) the value of new construction, including remodeling, on the property occurring after December 31 of the last year of the previous revaluation cycle that is greater than 25% of the market value of the improvements; or

(c) a land use change occurring after December 31 of the last year of the previous revaluation cycle that increases the market value of the land by more than 25%.

(4) For the purposes of determining the adjustment in the class four property tax rate in this section, the following provisions apply for revaluation cycles beginning after December 31, 2008:

(a) (i) The percentage increase in taxable value is measured as the percentage change in taxable value before reappraisal to the taxable value after reappraisal. The taxable value before reappraisal is calculated by multiplying the value before reappraisal times the result of 1.00 minus the homestead exemption before reappraisal times the tax rate before reappraisal. The taxable value after reappraisal is calculated by multiplying the market value after reappraisal times the result of 1.00 minus the homestead exemption after reappraisal times the tax rate after reappraisal.

(ii) The tax rate before reappraisal is the tax rate that was in effect during the last year of the previous reappraisal cycle.

(iii) The tax rate after reappraisal is the tax rate that will be in effect during the last year of the current reappraisal cycle.

(iv) The homestead exemption before reappraisal is the homestead exemption that was in effect during the last year of the previous reappraisal cycle.

(v) The homestead exemption after reappraisal is the homestead exemption that will be in effect during the last year of the current reappraisal cycle.

(b) The dollar increase in tax liability is measured as the percentage change in tax liability before reappraisal to the tax liability after reappraisal. The tax liability before reappraisal is calculated by multiplying the value before reappraisal times the result of 1.00 minus the homestead exemption before reappraisal times the tax rate before reappraisal times the mill levy applied to the property before reappraisal. The tax liability after reappraisal is calculated by multiplying the market value after reappraisal times the result of 1.00 minus the homestead exemption after reappraisal times the tax rate after reappraisal times the mill levy applied to the property before reappraisal. The mill levy applied to property before reappraisal is the total of all mills applied to the property in the last year of the previous reappraisal cycle.

(c) Total household income is the sum of the income of all members of the household and all other persons who are owners of the property. Income, as used in this section, includes income from all sources, including net business income and otherwise tax-exempt income of all types but not including social security income paid directly to a nursing home. Net business income is gross income less ordinary expenses but before deducting depreciation or depletion allowance, or both. For an entity, as defined in subsection (8), income also includes the income of any natural person or entity that is a trustee of or controls 25% or more of the entity. A household is an association of persons who live in the same dwelling, sharing its furnishings, facilities, accommodations, and expenses. For single-family rental dwellings, total household income does not include the income of the tenant.

(d) The phase-in value is the valuation change made pursuant to 15-7-111(3) since the last reappraisal.

(5) (a) If total household income is $25,000 or less, the percentage increase in taxable value is greater than 24%, and the dollar increase in taxable liability is $250 or greater, then the property qualifies for an adjusted tax rate. The adjusted tax rate must be calculated such that the total increase in taxable value over the reappraisal cycle is 24% and such that the change in taxable value is phased in over the reappraisal cycle in equal increments.

(b) If total household income is greater than $25,000 but less than or equal to $50,000, the percentage increase in taxable value is greater than 30%, and the dollar increase in taxable liability is $250 or greater, then the property qualifies for an adjusted tax rate. The adjusted tax rate must be calculated such that the total increase in taxable value over the reappraisal cycle is 30% and such that the change in taxable value is phased in over the reappraisal cycle in equal increments.

(c) If total household income is greater than $50,000 but less than or equal to $75,000, the percentage increase in taxable value is greater than 30%, and the dollar increase in taxable liability is $250 or greater, then the property qualifies for an adjusted tax rate. The adjusted tax rate will be calculated such that the total increase in taxable value over the reappraisal cycle is 36% and such that the change in taxable value is phased in over the reappraisal cycle in equal increments.

(d) The adjusted tax rate computed under this subsection (5) must be rounded to the nearest 1/100 of 1%.

(6) A person who applies for a tax rate adjustment under this section shall provide the department with documentation of total household income and other information that the department considers necessary to determine the person's eligibility for the tax rate adjustment. Documents provided to the department to determine eligibility for a tax rate adjustment are subject to the confidentiality provisions in 15-30-303.

After export, any unprocessed milk must be further processed into other dairy products.

(b) $100,000 in the case of a multifamily residential dwelling or a nonresidential structure."

Section 5. Section 15-7-111, MCA, is amended to read:

"15-7-111. Periodic revaluation of certain taxable property. (1) The department shall administer and supervise a program for the revaluation of all taxable property within classes three, four, and ten. All other property must be revalued annually. ~~The revaluation of class three, four, and ten property is complete on December 31, 1996. The amount of the change in valuation from the 1996 base year for each property in classes three, four, and ten must be phased in each year at the rate of 25% of the change in valuation from December 31, 1998, to the appropriate percentage of taxable market value for each class.~~

(2) The department shall value and phase in the value of newly constructed, remodeled, or reclassified property in a manner consistent with the valuation within the same class and the values established pursuant to subsection (1). The resulting valuation changes must be phased in for each year until the next reappraisal. If a percentage of change for each year is not established, then the percentage of phasein for each year is 16.66%. ~~The department shall furnish a copy of the plan and all amendments to the plan to the board of county commissioners of each county.~~"

Section 6. Extension of 2003 deadlines relating to property taxation. As a result of the change in the phasein of reappraisal for class three, four, and ten property enacted by the 58th legislature, it may not be possible to comply with certain statutory deadlines relating to appraisals, assessments, reimbursements, budgets, and collection of property taxes. The state appraisal and assessment process may be delayed, which in turn may cause delays for the tax appeal boards and local government taxing jurisdiction budgeting and collection processes. Therefore, for tax year 2003, all deadlines are extended as necessary and reasonable, except that the time limits allowed for filing an appeal remain the same as provided by law in order to allow for the orderly and efficient assessment and collection of taxes.

(iv) examine alternative methods of taxation from existing sources, as well as new sources of revenue, and evaluate the alternative methods and new sources according to the criteria described in subsection (2)(d)(ii).

(7) The members of the committees created in this section must be appointed by July 1, 2003.

Section 8. Appropriation. (1) The committees created in [section 7] may receive gifts, grants, and donations. The money received must be used for fulfilling the duties of the committees, for reimbursing the expenses of committee members, or for providing staff for the committees. The money received must be placed in a special revenue fund account to the credit of the department of revenue.

(2) In addition to any money received pursuant to subsection (1), there is appropriated $60,000 from the general fund to the committees created in [section 7] for the biennium for the operating expenses and personnel expenses of the committees.

The legislative fiscal analyst shall provide a copy of the legislative fiscal analyst's review of the proposed reductions in spending to the budget director at least 5 days before the meeting of the legislative finance committee. The committee may make recommendations concerning the proposed reductions in spending. The governor shall consider each agency's analysis and the recommendations of the office of budget and program planning and the legislative finance committee in determining the agency's reduction in spending. Reductions in spending must be designed to have the least adverse impact on the provision of services determined to be most integral to the discharge of the agency's statutory responsibilities.

CHAPTER NO. 612

[HB 2]

AN ACT APPROPRIATING MONEY TO VARIOUS STATE AGENCIES FOR THE BIENNIUM ENDING JUNE 30, 2005; AND PROVIDING AN EFFECTIVE DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. Short title. [This act] may be cited as "The General Appropriations Act of 2003".

Section 2. First level expenditures. The agency and program appropriation tables in the legislative fiscal analyst narrative accompanying this bill, showing first level expenditures and funding for the 2005 biennium, are adopted as legislative intent.

Section 3. Severability. If any section, subsection, sentence, clause, or phrase of [this act] is for any reason held unconstitutional, the decision does not affect the validity of the remaining portions of [this act].

Section 4. Appropriation control. An appropriation item designated as "Biennial" may be spent in either year of the biennium. An appropriation item designated "Restricted" may be used during the biennium only for the purpose designated by its title and as presented to the legislature. An appropriation item designated "One Time Only" or "OTO" may not be included in the present law base for the 2007 biennium. The office of budget and program planning shall establish a separate appropriation on the statewide budgeting and accounting system for any item designated as "Biennial", "Restricted", "One Time Only", or "OTO". The designation of "Restricted" is subject to the provisions of [section 7]. The office of budget and program planning shall establish at least one appropriation on the statewide budgeting and accounting system for any appropriation that appears as a separate line item in [this act].

Section 5. Program definition. As used in [this act], "program" has the same meaning as defined in 17-7-102, is consistent with the management and accountability structure established on the statewide budgeting and accounting system, and is identified as a major subdivision of an agency ordinally numbered with an arabic numeral.

Section 6. Personal services funding — 2007 biennium. (1) Except as provided in subsection (2), present law and new proposal funding budget requests for the 2007 biennium submitted under Title 17, chapter 7, part 1, by each executive, judicial, and legislative branch agency must include funding of first level personal services separate from funding of other expenditures. The funding of first level personal services by accounting entity or equivalent for each fiscal year must be shown at the fourth reporting level or equivalent in the budget request for the 2007 biennium submitted by October 30 to the legislative fiscal analyst by the office of budget and program planning.

(2) The provisions of subsection (1) do not apply to the Montana university system.

Section 7. Approved original operating budget. In accordance with the provisions of 17-7-138, the approved original operating budget for each fiscal year of the 2005 biennium may include an amount not more than a prorated share by fund type of any across-the-board reductions or any undesignated reductions among all programs, as defined in [section 5], and among all appropriation items, as defined in [section 4], for the entire agency. This exception to legislative restrictions on appropriation items contained in [this act] is authorized only for preparation and approval of the original operating budget, which is due from all agencies by August 1 of each fiscal year, excluding the university system units.

Section 8. Contingent voidness. Because item 1b, item 4b, and item 12e in the department of public health and human services, item 2s in the office of public instruction, and item 4b and item 7n in the Montana university system appropriate coal severance tax permanent fund principal, Article IX, section 5, of the Montana constitution requires a three-fourths vote of the members of each house of the legislature for approval. If [this act] is not approved by a three-fourths vote of the members of each house of the legislature, then item 1b, item 4b, and item 12e in the department of public health and human services, item 2s in the office of public instruction, and item 4b and item 7n in the Montana university system are void.

Section 9. Statewide FTE reduction. Amounts identified as "statewide FTE reduction" in each agency may be reallocated between agencies at the discretion of the approving authority, as defined in 17-7-102(3).

Section 10. Contingent voidness. (1) The appropriations referred to in subsection (2) are void if Senate Bill No. 485 is passed and approved in a form that, together with other revenue deposited in a prevention and stabilization state special revenue account, will include sufficient revenue and biennial appropriations restricted for the following specified uses:

(a) mental health services and prescription drugs for programs established pursuant to 53-21-702(2) and (3), $6,500,000;

(b) child care, $2,000,000;

(c) the Montana initiative for the abatement of mortality in infants program, $1,100,000;

(d) independent living services, $457,532;

(e) extended employment services, $541,278;

(f) child support enforcement, $1,263,678;

(g) mental health medicaid service rates, $800,000;

(h) medicaid hospice services, $340,000;

(i) medicaid home health therapy services, $68,000;

(j) poison control, $77,908; and

(k) AIDS funding, $84,000.

(2) If Senate Bill No. 485 is passed and approved in a form that meets the conditions established in subsection (1), then the following items in the department of public health and human services are stricken from [this act]:

(a) items 1d, 4a, 6a, 6b, 6c, 9c, 9d, 10d, 11b, 11c, 12b, and 12c; and

(b) appropriation conditions related to the prevention and stabilization account.

Section 11. Totals not appropriations. The totals shown in [this act] are for informational purposes only and are not appropriations.

Section 12. Effective date. [This act] is effective July 1, 2003.

Section 13. Appropriations. The following money is appropriated for the respective fiscal years:

Liquor division proprietary funds necessary to maintain adequate inventories, pay freight charges, and transfer profits and taxes to appropriate accounts are appropriated from the liquor enterprise fund (06005) to the department in amounts not to exceed $67,588,169 in fiscal year 2004 and $70,782,541 in fiscal year 2005.

In the liquor division, upon a termination that requires a payout of accrued leave balances, liquor division proprietary funds are appropriated from the liquor enterprise fund (06005) to the department in the amount equal to the payout of the accrued leave balances, not to exceed $30,000 for each of fiscal years 2004 and 2005.

In the event that the department is unable to meet statutory service levels because of the increase in demand for liquor products, the department may hire additional temporary employees or pay overtime, whichever is determined to be the more cost-effective, to maintain required service levels to stores. In fiscal year 2004 and in fiscal year 2005, the department is appropriated not more than $40,000 each year for additional costs from the liquor enterprise fund.

The department shall present reports to the revenue and transportation interim committee that show the cost of tax compliance staff and the additional revenue generated from providing the associated tax compliance. The department shall identify the costs and revenue separately for the additional staff added during the August 2002 special legislative session. The revenue and transportation interim committee may determine the frequency for reporting by the department on compliance staff revenue.

Items 5a and 5b are contingent upon passage and approval of Senate Bill No. 461.

If budget reductions are enacted by emergency rule in the 2005 biennium, the legislature urges the department to provide a 30-day public notice and to conduct a public hearing prior to adoption of the emergency rules.

Item 1 includes $31,769,235 of federal funds in fiscal year 2004 and $31,769,235 of federal funds in fiscal year 2005 to fund cash assistance benefits provided under Montana's temporary assistance for needy families (TANF) grant. If caseloads decrease below this level of funding, resulting in a surplus of federal TANF funds, the following priorities may be funded:

(1) child-care subsidies:

	Fiscal 2004					Fiscal 2005				
General Fund	State Special Revenue	Federal Special Revenue	Proprietary	Other	Total	General Fund	State Special Revenue	Federal Special Revenue	Proprietary	Other	Total

(2) a "rainy day" fund of up to $4 million;

(3) training and education programs to achieve employment in higher wage jobs, including programs offered by tribal colleges; or

(4) supportive services needed for employment of TANF recipients.

Item 1 includes a reduction in general fund money of $1,245,030 in fiscal year 2004 and $1,245,030 in fiscal year 2005 for the statewide FTE reduction. The agency may allocate this reduction in funding among programs when developing 2005 biennium operating plans.

Items 1d, 4a, 6a through 6c, 9c, 9d, 10d, 11b, 11c, 12b, and 12c are contingent upon passage and approval of a bill or bills that establish a state special revenue account for prevention and stabilization of department programs that receives at least $13.7 million of estimated revenue in fiscal year 2004 and $16.5 million of estimated revenue in fiscal year 2005 from reallocation of tobacco settlement proceeds allocated by 17-6-606 (2) and other sources.

Funding in item 1c may be used only to provide child-care subsidies. In an effort to stabilize, decrease, or decrease the rate of growth in the TANF cash assistance caseload, the legislature has appropriated $25,600,000 for child-care services in fiscal year 2004. It is the legislature's intent that this funding is to be fully expended for child-care services in fiscal year 2004.

Items 1b, 4b, and 12e are appropriated from the coal severance tax permanent fund principal. These appropriations are subject to the provisions of [section 8].

Funds in item 1c may be used only to provide child-care subsidies to low-income families, except a portion of this funding may be used to support child-care quality activities at the minimum level required to maintain Montana's eligibility for the federal child-care development fund grant.

Item 2 includes $77,641 in general fund money in fiscal year 2004 and $77,641 in general fund money in fiscal year 2005 that may be used only to support the provision of domestic violence prevention services.

If Senate Bill No. 473 is not passed and approved, the funding in: item 3 is decreased by $6,250 in federal funds in fiscal year 2004; item 5 is decreased by $7,084 in state special revenue in fiscal year 2004 and by $7,084 in federal funds in fiscal year 2004 and by $28,333 in state special revenue in fiscal year 2005 and by $28,333 in federal funds in fiscal year 2005; and item 10 is decreased by $102,700 in state special revenue in fiscal year 2004 and by $278,984 in federal funds in fiscal year 2004 and by $2,069,728 in state special revenue in fiscal year 2005 and by $5,201,130 in federal funds in fiscal year 2005.

Personal services funding for 5 FTE in item 3a is considered a one-time appropriation.

Item 6 includes a biennial appropriation of $250,000 in federal funds for the purchase of radios for ambulances that serve critical access hospitals. The ambulance radios purchased must be modern digital radios that allow encrypted data and voice transmissions from the field unit using a single radio. The appropriations are made from federal bioterrorism and hospital preparedness grant funds.

	Fiscal 2004					Fiscal 2005				
General Fund	State Special Revenue	Federal Special Revenue	Proprietary	Other	Total	General Fund	State Special Revenue	Federal Special Revenue	Proprietary	Other	Total

If Senate Bill No. 464 is not passed and approved, the funding in item 6 is reduced by $161,925 in state special revenue in fiscal year 2004 and by $268,200 in state special revenue in fiscal year 2005.

Item 6d includes $80,000 each year for each federally recognized tribe within Montana in accordance with 17-6-602(3)(b)(ii) that submits and administers a tobacco prevention and control program that meets the conditions required of all community-based contractors. If tobacco prevention and control funds granted to a federally recognized tribe within Montana are not fully expended by the individual grantee within the contract period, these funds may be reallocated for other tobacco use prevention purposes.

If House Bill No. 727 is not passed and approved, funding in item 9 is increased by $1,915,198 of general fund money in fiscal year 2004 and by $1,915,952 of general fund money in fiscal year 2005, which includes funding for an additional 60.27 FTE in fiscal year 2004 and an additional 92.27 FTE in fiscal year 2005. If House Bill No. 727 is not passed and approved, general fund money in item 11 is reduced by $7,452 in fiscal year 2004 and by $7,488 in fiscal year 2005.

Funding in item 9 is decreased by $2,380,962 in federal funds in fiscal year 2004 and by $1,934,019 in federal funds in fiscal year 2005 if House Bill No. 452 is not passed and approved.

Funding in item 9e may be used only to provide donated dental services to individuals with disabilities.

Appropriations in items 9f, 10c, 10e, 11f, and 12d are contingent upon approval and passage of Senate Bill No. 407.

If Senate Bill No. 407 is not passed and approved, item 10 is reduced by $686,357 in general fund money and by $1,844,458 in federal funds in fiscal year 2004 and by $1,320,845 in general fund money and by $3,549,527 in federal funds in fiscal year 2005.

The department shall distribute funds in item 10b in a way that provides reasonable assurance that the funds are used solely for therapeutic out-of-home care for children. Rate increases may vary among types of providers. Funds appropriated in item 10b may be used only for rate increases for therapeutic out-of-home care for children. Funds in item 10b may not be used to fund other programs.

Funds in item 10f must be used to match donations, gifts, grants, or bequests received pursuant to 17-3-1001 and referenced in 17-6-203(5) to provide services for the children's health insurance program established in Title 53, chapter 4, part 10.

Funds in item 11a may be used only to make one-time payments to nursing homes based on the number of medicaid services provided. State special revenue in item 11a may be expended only after the office of budget and program planning has certified that the department has received $2 million each year from counties participating in the intergovernmental transfer program for nursing homes.

Items 11d and 11e are contingent upon passage and approval of House Bill No. 721.

The department shall distribute funds in item 11d in a way that provides reasonable assurance that the funds are used solely for direct-care wage and benefit increases. Not all providers or types of direct-care workers must receive the same rate increase for the biennium. Funds appropriated in item 11d may be used only for direct-care worker wage increases. Funds in item 11d may not be used to fund other programs.

Item 11g may be used only to operate Montana veterans' homes at a capacity to maximize collection of federal revenue and private payments.

Item 12a may be expended only for mental health services. The office of budget and program planning shall certify that the department has received a federal mental health block grant prior to allowing expenditures against the appropriation.

The department is to report to the natural resources and commerce appropriations subcommittee on the projects funded with federal Sikes Act money and state match money. The report is to include an analysis of the viability for continuance of the program and a list of projects funded with the money.

If the department receives additional federal special revenue for services comparable to those with general license revenue, the approving authority shall decrease the state special revenue appropriation by the amount of federal money received and establish the federal funds appropriation. All transfers between fund types must be fully explained and justified on budget documents submitted to the office of budget and program planning.

If the department is required to adjust personal services expenditure costs between state and federal accounts, the approving authority shall adjust the state special revenue appropriation and the federal appropriation by like amounts. All transfers between fund types must be fully explained and justified on budget documents submitted to the office of budget and program planning.

The department shall prepare a biennial report of the expenditure of funds under the nongame wildlife checkoff, which must be made available to the environmental quality council, prior to each regular legislative session.

Item 1 includes a reduction in general fund money of $41,862 in fiscal year 2004 and $41,862 in fiscal year 2005 for the statewide FTE reduction. The agency may allocate this reduction in funding among programs when developing 2005 biennium operating plans.

In item 5b, up to $2,500,000 of the $5,500,000 must be used to fund the account for perpetual water treatment at the Zortman and Landusky mines. The funds may be used for this purpose only if congress appropriates at least $10,000,000 for this same purpose during the biennium. If congress makes this appropriation, the amount of bond proceeds that must be allocated to this account is the amount that, when added to the amount appropriated by congress, equals $12,500,000.

The department is authorized to decrease federal special revenue money in the water pollution control and the drinking water revolving fund loan programs and to increase state special revenue money by a like amount within the special administration account when:

Item 1 includes a reduction in general fund money of $22,540 in fiscal year 2004 and $22,540 in fiscal year 2005 for the statewide FTE reduction. The agency may allocate this reduction in funding among programs when developing 2005 biennium operating plans.

General fund money and state and federal special revenue funds appropriated to the board of regents are included in items 1 through 10. All other public funds received by units of the Montana university system (other than plant funds appropriated in House Bill No. 5, relating to long-range building) are appropriated to the board of regents and may be expended under the provisions of 17-7-138(2). The board of regents shall allocate the appropriations to individual university system units, as defined in 17-7-102(13), according to board policy.

Items 1 through 3, 5 through 7a, 7k, 9, and 10 are a single biennial lump-sum appropriation.

In addition to the requirements in 17-1-102(4), all university system units, except the office of the commissioner of higher education, shall account for expenditures consistently within programs and funds across all units and shall use the standards of accounting and reporting, as described by the national association of college and university business officers, as a minimum for achieving consistency.

The Montana university system, except the office of the commissioner of higher education and the community colleges, shall provide the office of budget and program planning and the legislative fiscal division banner access to the entire university system's banner information system, except for information pertaining to individual students or individual employees that is protected by Article II, sections 9 and 10, of the Montana constitution, 20-25-515, or the Family Educational Rights and Privacy Act of 1974, 20 U.S.C. 1232g. The Montana university system shall provide the electronic data required for human resource data for the current unrestricted operating funds into the MBARS system. The salary and benefit data provided must reflect approved board of regents operating budgets.

Total audit costs of the office of the commissioner of higher education are estimated to be $28,217.

The budget amount for each full-time equivalent student at the community colleges, including Summitnet, is $5,706 each year of the 2005 biennium, before pay plan, if any. The general fund appropriation in item 4 provides 46% of the budget amount for each full-time equivalent student each year of the 2005 biennium. The remaining 54% of the budget amount for each full-time equivalent student must be paid from funds other than those appropriated in items 4 and 4a.

Total Summitnet costs are estimated to be $25,000 each year for the community colleges. Summitnet costs for each year may not exceed $8,000 each for Dawson and Miles community colleges and $9,000 for Flathead Valley community college.

Total audit costs are estimated to be $54,000 for the community colleges for the biennium. The general fund appropriation for each community college provides 53% of the total audit costs in the 2005 biennium. The remaining 47% of these costs must be paid from funds other than those appropriated in item 4a. Audit costs for the biennium may not exceed $16,000 each for Dawson and Miles community colleges and $22,000 for Flathead Valley community college.

MONTANA UNIVERSITY SYSTEM - 5100

Because certain employee benefit plans require a large number of individual premiums for a variety of benefit options, because the portion of these premiums paid by the state is statutorily established in 2-18-703, and because the employee-paid portion of these premiums must be adjusted from time to time to maintain employee group benefit plans on an actuarially sound basis, the legislature defines rates and fees for Montana university system employee benefit programs to mean the state contribution toward employee group benefits provided for in 2-18-703 and the employee contribution toward employee group benefits necessary to maintain the employee group benefit plans on an actuarially sound basis.

HOUSE JOINT RESOLUTION NO. 2

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA ESTABLISHING AN OFFICIAL ESTIMATE OF THE STATE'S ANTICIPATED GENERAL FUND REVENUE FOR EACH YEAR OF THE 2004-05 BIENNIUM FOR THE PURPOSE OF ACHIEVING A BALANCED GENERAL FUND BUDGET AS MANDATED BY ARTICLE VIII, SECTION 9, OF THE MONTANA CONSTITUTION; ACCEPTING A PRELIMINARY JUNE 30, 2002, UNRESERVED GENERAL FUND BALANCE THAT WAS ESTABLISHED BASED ON GENERALLY ACCEPTED ACCOUNTING PRINCIPLES; ESTABLISHING OFFICIAL ESTIMATES OF CERTAIN NONGENERAL FUND REVENUE; AND REQUESTING THAT THE GOVERNOR'S OFFICE OF BUDGET AND PROGRAM PLANNING USE THE REVENUE ESTIMATES CONTAINED IN THIS RESOLUTION AS OFFICIAL REVENUE ESTIMATES FOR FISCAL YEARS 2003, 2004, AND 2005.

WHEREAS, Article VI, section 9, of the Montana Constitution requires the Governor to submit to the Legislature a budget for the ensuing fiscal period, containing in detail for all operating funds the proposed expenditures and estimated revenue of the state; and

WHEREAS, Article VIII, section 9, of the Montana Constitution prohibits the Legislature from appropriating funds in excess of the anticipated revenue of the state; and

WHEREAS, section 5-18-107, MCA, requires the Revenue and Transportation Interim Committee to estimate the amount of revenue projected to be available for legislative appropriation and to introduce a resolution setting forth the Committee's current revenue estimate for the biennium; and

WHEREAS, section 5-18-107(2), MCA, expresses the Legislature's intent that its revenue estimates and the underlying assumptions used to derive those estimates be used by all agencies in the development of fiscal notes; and

WHEREAS, section 5-12-302(6), MCA, requires the Legislative Fiscal Analyst to assist the Revenue and Transportation Interim Committee in its revenue estimating duties; and

WHEREAS, to assist in its revenue estimating responsibilities, the Revenue and Transportation Interim Committee requested the expert assistance of the Legislative Fiscal Analyst, as allowed in section 5-18-107(3), MCA, to provide information on taxes, the economy, and revenue sources; and

WHEREAS, the Revenue and Transportation Interim Committee obtains the assistance of Executive Branch agencies in the development of the revenue estimates; and

WHEREAS, the Revenue and Transportation Interim Committee has adopted revenue estimates and the underlying assumptions used to derive those estimates for the general fund and for specific nongeneral fund sources that are significant in the development of the state budget for the 2005 biennium; and

WHEREAS, PPL-Montana has disputed the assessed value of its hydroelectric facilities in the state and has paid a portion of its property taxes under protest thereby reducing the amount of revenue available for the state general fund and the Montana University System 6-mill levy; and

WHEREAS, the amount of estimated revenue and the general fund balance affects policy decisions of the Executive Branch and the Legislative Branch; and

WHEREAS, the revenue estimates and the underlying assumptions contained in this resolution provide the basis for a comprehensive analysis of the state's revenue condition.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the state general fund revenue for fiscal years 2003, 2004, and 2005 be estimated to be $1,195,014,000, $1,241,443,000, and $1,296,456,000, respectively.

BE IT FURTHER RESOLVED, that the Legislature accept for budget purposes the preliminary unreserved fiscal year 2002 fund balance of $81,316,000 for the general fund, prepared according to generally accepted accounting principles.

BE IT FURTHER RESOLVED, that the Governor's Office of Budget and Program Planning use the revenue estimates and the underlying assumptions contained in this resolution as the official revenue estimates for fiscal years 2003, 2004, and 2005.

GENERAL FUND REVENUE

HOUSE JOINT RESOLUTION NO. 3

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA REQUESTING AN INTERIM COMMITTEE STUDY TO EXAMINE CHILD ABUSE AND NEGLECT PROCEEDINGS IN ORDER TO DETERMINE HOW TO PROVIDE REPRESENTATION FOR INDIGENT FAMILIES AND TO DETERMINE THE APPROPRIATE EARLIEST OPPORTUNITY.

WHEREAS, the Montana Family Policy Act states in section 41-7-102, MCA, that it is the policy of the State of Montana to support and preserve the family as the single most powerful influence for ensuring the healthy social development and mental and physical well-being of Montana's children; and

WHEREAS, in child protective services, it is also the policy of the State of Montana set out in section 41-3-101, MCA, to ensure that all youth are afforded an adequate physical and emotional environment to promote normal

development, to compel in proper cases the parent or guardian to perform the parent's or guardian's moral and legal obligations, to achieve these purposes in a family environment and to preserve the unity and welfare of the family whenever possible, to ensure that there is no forced removal of a child from a family based on unsubstantiated allegations, to provide for protection of children, and to require the interview of parents and an opportunity for parents to appear before a judge and have statements presented before a decision is rendered; and

WHEREAS, there is no statutory obligation to appoint legal counsel for indigent parents prior to a permanent custody proceeding, including termination of parental rights, but the Montana Supreme Court has also stated that "there are also no guidelines precluding or making inappropriate the appointment of counsel for indigent parents in child protective proceedings prior to termination proceedings" (In re A.F.-C., 2001 MT 283, 307 Mont. 358, 37 P.3d 724 (2001)); and

WHEREAS, there are significant due process, philosophical, and resource issues involved in the determination of at what point parents require counsel in proceedings involving child protection and potential termination of parental rights; and

WHEREAS, the Legislative Audit Division recently conducted a performance audit of child protective services and, although it did not make a specific recommendation in this area, found that there is statewide variation in whether indigent parents receive legal representation in child abuse and neglect proceedings prior to termination of parental rights (October 2002 report, page 53); and

WHEREAS, the Children, Families, Health, and Human Services Interim Committee recognizes these issues as worthy of study to determine whether legal counsel or other forms of advocacy or representation, such as family advocates or ombudsmen, should be appointed earlier in child protective services proceedings in order to provide guidance through a difficult process and to protect parents' rights.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Legislative Council be requested to designate an appropriate interim committee, pursuant to section 5-5-217, MCA, or direct sufficient staff resources to examine child abuse and neglect proceedings in order to determine how to best provide representation to families at an appropriate time in the child protective services proceedings to further the goals of balancing the best interests of the child, the rights of parents, and the possibility of reunification of the family and to provide prevention and early intervention strategies as early in the process as possible.

BE IT FURTHER RESOLVED, that the Legislature recognizes that the issue of representation of families in child abuse and neglect proceedings may also be relevant to other court proceedings that involve the intervention of one or more public agencies or require public services for children and families, such as Youth Court and civil mental health commitment proceedings.

BE IT FURTHER RESOLVED, that, if the study is assigned to staff, any findings or conclusions be presented to and reviewed by an appropriate committee designated by the Legislative Council.

BE IT FURTHER RESOLVED, that all aspects of the study, including presentation and review requirements, be concluded prior to September 15, 2004.

BE IT FURTHER RESOLVED, that the final results of the study, including any findings, conclusions, comments, or recommendations of the appropriate committee, be reported to the 59th Legislature.

HOUSE JOINT RESOLUTION NO. 4

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA REQUESTING AN INTERIM STUDY TO INVESTIGATE OPTIONS FOR IMPROVING THE SUPPLY AND DISTRIBUTION OF WATER IN MONTANA AND TO EVALUATE THE WATER STORAGE POLICY ESTABLISHED IN SECTION 85-1-703, MCA; AND REQUIRING THAT THE FINAL RESULTS OF THE STUDY BE REPORTED TO THE 59TH LEGISLATURE AND THE MONTANA CONGRESSIONAL DELEGATION.

WHEREAS, section 85-1-101, MCA, establishes the state's policies for water resources; and

WHEREAS, section 85-1-101(2), MCA, provides "The public policy of the state is to promote the conservation, development, and beneficial use of the state's water resources to secure maximum economic and social prosperity for its citizens"; and

WHEREAS, section 85-1-101(6), MCA, states "The public interest requires the construction, operation, and maintenance of a system of works for the conservation, development, storage, distribution, and utilization of water, which construction, operation, and maintenance is a single object and is in all respects for the welfare and benefit of the people of the state"; and

WHEREAS, Montana has experienced severe drought and significant floods; and

WHEREAS, the state has an opportunity and a responsibility to take proactive measures to mitigate the impacts of drought and floods by storing surplus water and promoting efficiency; and

WHEREAS, section 85-2-105, MCA, requires the Environmental Quality Council to advise the Legislature on the adequacy of the state's water policy.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Legislative Council be requested to designate an appropriate interim committee, pursuant to section 5-5-217, MCA, or direct sufficient staff resources to:

(1) evaluate the efficiency of water distribution systems;

(2) evaluate measures that promote the efficient use of water;

(3) evaluate return flow impacts;

(4) study water banking as a means to alleviate water shortages;

(5) investigate options for improving the supply and distribution of water in Montana, including the development of offstream storage facilities;

(6) evaluate the water storage policy established in section 85-1-703, MCA; and

(7) evaluate the effects of excessive fuel levels on federal and state timbered lands to determine the impacts of the use of available water by timber versus the amount of water release by a watershed into Montana watercourses.

BE IT FURTHER RESOLVED, that the study be conducted with the participation and involvement of investors and developers and persons interested in or affected by water management, including landowners, conservation districts, the Department of Natural Resources and Conservation, the Department of Fish, Wildlife, and Parks, industries, utilities, recreational water users, agricultural water users, and others.

BE IT FURTHER RESOLVED, that the study consider ways to encourage participation by the private sector, tribal governments, and the federal government in improving the supply and distribution of water in Montana.

BE IT FURTHER RESOLVED, that, if the study is assigned to staff, any findings or conclusions be presented to and reviewed by an appropriate committee designated by the Legislative Council.

BE IT FURTHER RESOLVED, that all aspects of the study, including presentation and review requirements, be concluded prior to September 15, 2004.

BE IT FURTHER RESOLVED, that the final results of the study, including any findings, conclusions, comments, or recommendations of the appropriate committee, be reported to the 59th Legislature and the Montana Congressional Delegation.

HOUSE JOINT RESOLUTION NO. 5

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA URGING LEWIS AND CLARK COUNTY TO WORK COOPERATIVELY WITH THE BOARD OF REGENTS TO SECURE FINANCING FOR A NEW BUILDING AT THE HELENA COLLEGE OF TECHNOLOGY OF THE UNIVERSITY OF MONTANA BY ISSUING BONDS TO FINANCE THE CONSTRUCTION OF THE PROJECT AND TO ENTER INTO AN AGREEMENT TO LEASE THE FACILITY, UPON COMPLETION, TO THE BOARD OF REGENTS UNTIL THE BONDS ARE RETIRED.

WHEREAS, pursuant to Article X, section 9(2), of the Montana Constitution, the Board of Regents has full power, responsibility, and authority to supervise, coordinate, manage, and control the Montana University System and the authority to supervise and coordinate other public educational institutions as assigned by law; and

WHEREAS, in 1995 the Board of Regents restructured the University System by incorporating the vocational-technical centers and the 1995 Legislature enacted Chapter 308, Laws of 1995 (Senate Bill No. 156), to statutorily assign the vocational-technical centers to the Board to supervise and coordinate; and

WHEREAS, the Board of Regents has sufficient authority to use private money to construct buildings and to enter into contractual arrangements with

self-governing local governments to work together on mutually beneficial projects; and

WHEREAS, since the Helena College of Technology of the University of Montana is located in Helena and supports the economy of the local region, Lewis and Clark County has a vested interest in working with the Board of Regents to secure a new building for the college.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That Lewis and Clark County be strongly urged to work cooperatively with the Board of Regents to secure financing for a new building at the Helena College of Technology of the University of Montana by issuing bonds to finance the construction of the project and to enter into an agreement to lease the facility, upon completion, to the Board of Regents until the bonds are retired.

BE IT FURTHER RESOLVED, that the Secretary of State send copies of this resolution to the Board of County Commissioners of Lewis and Clark County, to the Board of Regents, and to the Dean of the Helena College of Technology of the University of Montana.

HOUSE JOINT RESOLUTION NO. 6

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA URGING THE UNITED STATES CONGRESS AND PRESIDENT GEORGE W. BUSH TO INCREASE FUNDING FOR SPECIAL EDUCATION TO MEET THE FEDERAL COMMITMENT UNDER THE INDIVIDUALS WITH DISABILITIES EDUCATION ACT.

WHEREAS, special education programs serving students with disabilities provide essential services to children and their families; and

WHEREAS, state and local educational agencies are mandated by federal law to provide a free appropriate public education for children with disabilities; and

WHEREAS, costs associated with serving children with disabilities continue to rise, and meeting those substantial costs requires a strong partnership between local, state, and federal governments; and

WHEREAS, underfunding of special education programs affects the quality of services provided to children with disabilities and results in local school districts redirecting resources that could otherwise be used for all children; and

WHEREAS, the federal commitment to states and localities under the federal Individuals With Disabilities Education Act to contribute 40% of the excess costs of providing a free appropriate public education has never been fulfilled; and

WHEREAS, despite recent large increases in federal special education funding, the federal share, currently at approximately 17%, is still less than one-half of the original commitment made by Congress to the states and localities.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Legislature of the State of Montana urge the United States Congress and President George W. Bush to increase funding for special education so that the federal promise of providing states with 40% of the national average per-pupil expenditure required to serve children and youth with disabilities can be achieved.

BE IT FURTHER RESOLVED, that the Secretary of State send copies of this resolution to President George W. Bush, the members of the Montana Congressional Delegation, the Board of Public Education, and the Superintendent of Public Instruction.

HOUSE JOINT RESOLUTION NO. 8

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA REQUESTING THE LEGISLATIVE COUNCIL TO DESIGNATE AN APPROPRIATE INTERIM COMMITTEE TO GATHER INFORMATION RELATING TO THE DROPOUT RATES, GRADUATION RATES, AND AT-RISK FACTORS AMONG AMERICAN INDIAN STUDENTS IN MONTANA'S PUBLIC SCHOOLS AND TO DEVELOP A STRATEGIC STATE PLAN TO REDUCE THE DROPOUT RATE AMONG ALL STUDENTS; AND REQUIRING A REPORT OF THE FINDINGS OF THE STUDY AND RECOMMENDATIONS TO THE 59TH LEGISLATURE.

WHEREAS, according to a 2001 report entitled "Equal Educational Opportunity for Native American Students in Montana Public Schools" by the Montana Advisory Committee to the United States Commission on Civil Rights, Montana's American Indians drop out of public schools at an average rate of 10.4%, which is more than twice the dropout rate of 4.2% for all Montana students; and

WHEREAS, the school completion rate for American Indian students is only 56.1%, far below the 81.8% for all Montana students; and

WHEREAS, Montana's American Indian students drop out of high school at a rate more than 3 times that of non-Indian students and drop out of grades 7 and 8 at a rate 12 times that of non-Indian students; and

WHEREAS, according to data published by the Office of Public Instruction, the high school graduation rate for American Indian students dropped 12% between 1995 and 1999; and

WHEREAS, when compared to the 9th grade enrollment figures for American Indian students, the 55% high school graduation rate of American Indian students in Montana is alarmingly low; and

WHEREAS, according to the Digest of Education Statistics, three of the four Montana counties with the highest unemployment rates, which are double and triple the national average, are located on Indian reservations; and

WHEREAS, the consequences of dropping out of school are lifelong and life-altering for the individual, result in significant reductions in state per-ANB funding to local school districts, and threaten the vitality of the state's economy and the stability of society; and

WHEREAS, although the State of Montana has made numerous pronouncements and attempts to institute educational reforms concerning

Indian education since acknowledgment and recognition in Article X, section 1, of the Montana Constitution of the contribution of Montana's American Indians and the commitment of the state to preserve their cultural heritage through education, the United States Commission on Civil Rights found that the disparities in education, including dropout rates that are double those of non-Indian students, low achievement levels and test scores, and few high school graduates with little advancement to higher education, provided evidence that Indian children in Montana public schools are in a crisis situation.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Legislative Council be requested to designate an appropriate interim committee, pursuant to section 5-5-217, MCA, to work in collaboration with the Board of Public Education, the Board of Regents, the Office of Public Instruction, local school districts, tribal education departments, and educational organizations throughout the state to:

(1) gather information relating to the dropout rates, graduation rates, and at-risk factors, including but not limited to age, the number of individuals with disabilities, opportunities for other educational choices, credit deficiencies, drug and alcohol use, teen pregnancy, attendance, and suspension and expulsion, among American Indian students in Montana's public schools;

(2) hold public hearings throughout the state in school districts located on reservations and in urban areas to seek recommendations to address the dropout rate and at-risk factors;

(3) develop a fiscal impact statement for those schools from which students drop out;

(4) collaborate with the Office of Public Instruction American Indian Education Office and the Montana Advisory Council on Indian Education that are currently working through a United States Department of Education Dropout Prevention program with six Montana public school districts located on Indian reservations and that will be coordinating a plan for dropout prevention;

(5) collaborate on this study with Montana's Interagency Coordinating Council, which has dropout prevention as one of its major goals; and

(6) produce a comprehensive, research-based, strategic state plan to break the cycle of at-risk factors and significantly reduce the dropout rate, while increasing the graduation rate among Montana's American Indian students.

BE IT FURTHER RESOLVED, that the appropriate committee report its findings, conclusions, and recommendations to the 59th Legislature.

BE IT FURTHER RESOLVED, that a copy of the resolution and any committee report be sent to each tribal government located on the seven Montana reservations and to the Little Shell Band of Chippewa.

WHEREAS, basic personal financial management, including the principles of saving, spending, credit, investment, taxes, and insurance, is an essential life skill necessary to the well-being of all Montanans; and

WHEREAS, an October 2002 white paper by the United States Department of the Treasury's Office of Financial Education states that the average American was able to answer only 42% of the questions on a personal financial quiz correctly, that 4 out of 10 Americans admitted that they are living beyond their means because of their misuse and misunderstanding of credit, and that personal bankruptcy filings more than doubled between 1990 and 2000; and

WHEREAS, the 2002 third biennial survey of financial literacy by the Jump$tart Coalition for Personal Financial Literacy found 68.1% of high school seniors with failing scores, representing an increase from the 59.1% failing in 2000 and the 44.2% failing in 1998; and

WHEREAS, according to the Department of Treasury's white paper, it is estimated that America's youth spend approximately $150 billion annually, while the survey of financial literacy found that almost one-third of high school seniors already use a credit card and an even higher percentage carry automatic teller machine (ATM) cards; and

WHEREAS, like other complex and dangerous social phenomenon confronting today's youth, personal finance presents more difficult choices and pitfalls than experienced by previous generations, yet public education in this critical life skill has not increased to meet the challenge; and

WHEREAS, the Legislature recognizes that Article X, section 9, subsection (3), of the Montana Constitution provides the Board of Public Education with general supervision over the public school system, which includes the authority to adopt the accreditation standards for public schools; and

WHEREAS, many school districts across the United States include within their boundaries land owned by the federal government or land removed from the local tax base by the federal government; and

WHEREAS, these school districts must provide a quality education to their students with less local revenue than is available to other school districts because federal property is exempt from local property taxes; and

HOUSE JOINT RESOLUTION NO. 15

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA URGING THE U.S. SECRETARY OF AGRICULTURE AND THE U.S. SECRETARY OF THE INTERIOR TO DIRECT THE APPROPRIATE FEDERAL AGENCIES TO EXPEDITE THE ELIMINATION OF BRUCELLOSIS IN THE YELLOWSTONE NATIONAL PARK BISON AND ELK HERDS.

WHEREAS, an essential element of proper wildlife management is the maintenance of healthy animal populations; and

WHEREAS, the disease brucellosis (Brucella abortus) has been known to be present in the Yellowstone National Park bison herd for 86 years; and

WHEREAS, the bison population of Yellowstone National Park is now in excess of 4,000 bison; and

WHEREAS, in the 1999-2000 final environmental impact statement of the interagency bison management plan for the State of Montana and Yellowstone National Park, one of the objectives was to commit to the eventual elimination of brucellosis in bison and other wildlife; and

WHEREAS, the State of Montana, the U.S. Department of Agriculture, and the U.S. Department of the Interior agreed in a 1995 memorandum of understanding that an objective was to plan for the elimination of brucellosis from the greater Yellowstone area by the year 2010; and

WHEREAS, a cattle herd in Idaho has been infected with brucellosis by elk from Yellowstone National Park; and

WHEREAS, Yellowstone National Park bison that have been infected with or exposed to brucellosis and elk that may have been infected with or exposed to

brucellosis frequently make nomadic or migratory movements into Montana, threatening the health of Montana citizens as well as the state's livestock industry and brucellosis class-free status; and

WHEREAS, for years, Montana has been forced to react to the nomadic movements of bison from Yellowstone National Park into Montana with drastic and costly measures, including hazing, capturing, and lethally removing bison, to protect the health and welfare of Montana citizens and the livestock industry; and

WHEREAS, elimination of brucellosis in the Yellowstone National Park bison and elk herds would mitigate a public health and livestock concern and reduce ongoing state expenses related to the nomadic movement of bison from Yellowstone National Park; and

WHEREAS, although an effective brucellosis vaccine exists for domestic cattle, a similar vaccine or vaccines should be developed, tested, and implemented in the Yellowstone National Park wild bison and elk herds as soon as possible; and

WHEREAS, alternative brucellosis elimination strategies, in addition to or preceding brucellosis vaccination, such as but not limited to habitat improvement and population management within Yellowstone National Park, should also be expeditiously implemented if shown to facilitate or to be effective for eliminating brucellosis in bison or elk.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the U.S. Secretary of Agriculture and the U.S. Secretary of the Interior be urged to direct the U.S. Department of Agriculture's Animal and Plant Health Inspection Service Veterinary Services Office, the National Park Service, and any other affected federal agencies to undertake the expeditious elimination of brucellosis in the Yellowstone National Park bison and elk herds by developing and implementing a brucellosis elimination program.

HOUSE JOINT RESOLUTION NO. 16

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA URGING PRESIDENT GEORGE W. BUSH AND THE UNITED STATES CONGRESS TO EXTEND THE EXISTING FEDERAL TAX WIND POWER CREDIT.

WHEREAS, electricity generated from the innate power of wind produces no negative impacts on air quality or water quality; and

WHEREAS, Montana ranks fifth in the nation among states known to have the best natural wind power potential, yet Montana does not have any commercially generated wind power; and

WHEREAS, the Legislature believes that in-state wind-generated electricity would benefit Montana consumers, the economy, and economic development; and

WHEREAS, the Legislature has adopted policies calling for electricity generation alternatives, including wind-generated electricity, to be part of the mix of power sources available to meet Montana's future electricity needs; and

WHEREAS, tax credits and other federal incentives have played a vital role in encouraging the development of both traditional energy resources, such as oil and gas, and newer energy sources, such as ethanol and wind; and

WHEREAS, the existing federal tax credit has been successfully encouraging the steady improvement of wind generation technologies and has made it possible to produce wind-generated electricity at a favorable price; and

WHEREAS, the existing federal tax credit will expire at the end of 2003 and it now may be too late for a wind generation facility to be constructed in Montana and be operating in time to qualify for the existing federal tax credit; and

WHEREAS, the effectiveness and timeliness of Montana's efforts to begin developing its wind generation potential, both for its economic development value and to help meet the state's future energy needs, will benefit greatly from having continuity in incentives and policies affecting the economics and practicality of wind power; and

WHEREAS, the United States Congress should expeditiously extend the existing federal tax credit so that prospective planning and development of future wind generation projects will continue without the interruption and delay that the pending expiration of the tax credit would allow.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Montana Legislature urges the President and the United States Congress to extend the existing federal tax credit that promotes research and development of America's wind power potential and to do so as soon as possible.

BE IT FURTHER RESOLVED, that the Secretary of State send copies of this resolution to President George W. Bush and the members of the Montana Congressional Delegation.

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA EXPRESSING CONCERN OVER THE IMPACT OF PROPOSED TRADE AGREEMENTS ON MONTANA'S AGRICULTURAL INDUSTRY AND STRONGLY URGING UNITED STATES OFFICIALS TO CONSIDER THE IMPACTS ON THAT INDUSTRY IN NEGOTIATING THESE TRADE AGREEMENTS.

WHEREAS, agriculture has long been the cornerstone of Montana's economy and maintaining the viability of that industry is vital to our economic growth; and

WHEREAS, the President has signed into law legislation that provides the President with trade promotion authority; and

WHEREAS, United States trade representative Robert Zoellick has notified Congress of the administration's intention to commence free trade agreement negotiations with Australia; and

WHEREAS, past trade agreements, such as the North American Free Trade Agreement (NAFTA), have not always resulted in fair and free trade opportunities for agriculture; and

WHEREAS, a multilateral agreement is much more likely to result in improved trade conditions for United States agricultural producers than would a bilateral agreement that would fracture and weaken agriculture's support for trade.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

(1) That United States trade representatives be strongly urged to seek additional opportunities for multilateral agreements that will expand agricultural export opportunities.

(2) That if United States trade representatives choose to proceed with a bilateral agreement with Australia or any other country the following provisions be adopted as part of any bilateral agreement:

(a) United States farm programs may not be unilaterally reduced or phased out;

(b) United States agricultural tariffs may not be further reduced unless the other country reduces its tariffs to United States levels;

(c) market access must be reciprocal;

(d) nontariff barriers must be eliminated;

(3) That improvements be made in international trade disciplinary and dispute resolution procedures and the United States be committed to using available tools to protect agricultural interests.

(4) That copies of this resolution be sent by the Secretary of State to President George W. Bush and the Montana Congressional Delegation.

WHEREAS, Memorial Day has been celebrated officially in this country since May 1868 as a way of honoring and remembering the sacrifices of America's brave members of the armed forces who gave their lives in defense of this country's freedoms; and

WHEREAS, the hectic pace of modern lives leaves little time to reflect on the sacrifices of those who fought and died for this country; and

WHEREAS, the true meaning of Memorial Day is in danger of being associated with barbeques, picnics, and the start of summer more than as a time to honor those who served this country; and

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Governor be urged to proclaim 1 p.m. mountain daylight time on Memorial Day as a moment of remembrance at which time Montanans will be asked to simultaneously pause and unite in remembrance, whether in prayer or silent contemplation, of those Americans who gave their lives to secure or maintain liberty in the United States and of those Americans who continue to serve in this nation's armed forces.

BE IT FURTHER RESOLVED, that all citizens of Montana, wherever they happen to be and whether alone or with others, be encouraged to participate in a moment of remembrance.

WHEREAS, Meriwether Lewis described a series of rapids in the Missouri River south of what is now the town of Cascade, Montana, in his July 17, 1805, journal near an island that he termed "pine island", and these rapids later were called "Pine Island Rapids" in observations by coleader of the Lewis and Clark Expedition, William Clark, who identified the "Pine Island Rapids" as a geographic indicator in his journals while on the Pacific Coast and again on August 12, 1806, and these rapids were referred to as "pine islands and rapids" by Lewis and Clark Expedition member Sgt. John Ordway in his July 17, 1806, journal; and

WHEREAS, the name of the rapids through time and without a confirmed source for the name became "Halfbreed Rapids"; and

WHEREAS, the word "halfbreed" is "[g]enerally regarded as an offensive term because often used contemptuously", according to Webster's New World College Dictionary, Fourth Edition (2001); and

WHEREAS, the Lewis and Clark Bicentennial provides an opportunity to recognize and rename a geographic feature named in journals by members of the Lewis and Clark Expedition.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the State of Montana urge the U.S. Board on Geographic Names to change the name of "Halfbreed Rapids" to "Pine Island Rapids" in recognition of the name given to the Missouri River rapids by members of the Lewis and Clark Expedition.

BE IT FURTHER RESOLVED, that the Secretary of State forward a copy of this resolution to the U.S. Board on Geographic Names and to Montana's Congressional Delegation.

WHEREAS, awarding public works construction contracts to the "lowest responsible bidder" has been standard practice for the State of Montana for decades; and

WHEREAS, various public entities have, in recent years, attempted to award contracts for construction using various alternative project delivery systems, such as "design-build", "construction manager at risk", and other derivatives of these methods, leading to conflicts among the construction industry, and the architecture and engineering professions; and

WHEREAS, governing statutes relating to the award of public works construction contracts have been interpreted in widely divergent ways by various stakeholders and by the courts; and

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Department of Administration is encouraged to initiate a collaborative study that should result in recommendations to the 2005 Legislature concerning the applicability, procedures, and criteria for state agencies to use in awarding public works construction contracts. The recommendations should:

(1) state how a decision is reached to award a contract on the basis of "best value";

(2) establish criteria for ensuring a fair, equitable, and objective selection process;

(3) determine qualifications for members of selection panels used to award contracts; and

(4) establish a process ensuring that taxpayers receive the most cost-effective project possible.

BE IT FURTHER RESOLVED, that the collaborative study should involve representatives of the Department of Administration, the construction industry, the architecture and engineering professions, the surety industry, and any other stakeholders that the Department determines necessary.

HOUSE JOINT RESOLUTION NO. 30

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA REQUESTING THAT THE WHITE HOUSE OFFICE OF FAITH-BASED AND COMMUNITY

INITIATIVES BE ENCOURAGED TO RECOGNIZE THAT THE SPIRITUAL PRACTICES OF TRADITIONAL INDIAN CULTURES ARE UNIQUE TO EACH TRIBE, THAT TRIBAL LEADERS AT THE LOCAL LEVEL BE CONSULTED IN THE IMPLEMENTATION OF ANY PROGRAMS, AND THAT THE AMERICAN INDIAN WELFARE REFORM ACT FOR THE OPERATION OF PUBLIC ASSISTANCE BY INDIAN TRIBES BE SUPPORTED.

WHEREAS, President George W. Bush established the White House Office of Faith-Based and Community Initiatives by executive order on January 29, 2001, in order to help the federal government coordinate a national effort to expand opportunities for faith-based and other community organizations and to strengthen their capacity to better meet social needs in America's communities; and

WHEREAS, the goal of the office is compassionate results with the values of pluralism, nondiscrimination, evenhandedness, and neutrality in facing issues such as strengthening families and neighborhoods, curbing crime, conquering addiction, and overcoming poverty; and

WHEREAS, Indian communities face similar issues and have always been faith-based communities with cultural knowledge and spiritual beliefs unique to each community, yet there is no specific language in the executive order to recognize the unique, spiritual nature of each tribal culture and the oldest cultural practices in the United States; and

WHEREAS, many of the programs funded under the Office of Faith-Based and Community Initiatives are driven by specific denominations who wish to provide services to Indian people without having consulted the tribal representatives at the local level to determine the appropriateness of the services to the community and to determine whether there is a possible infringement on the cultural and spiritual beliefs of the community; and

WHEREAS, to the extent that state agencies and advisory councils are used to determine where federal resources, such as the Compassion Capital Fund, are expended, the state should respect the government-to-government relationship between its representative state agencies and each tribal government and work with each tribal government to develop best practices with respect to self-determination in the delivery of social services in relation to the spiritual aspects of traditional Indian cultures; and

WHEREAS, there are unique opportunities to coordinate efforts under the Office of Faith-Based and Community Initiatives with other social service efforts;

WHEREAS, the State of Montana supports passage of the American Indian Welfare Reform Act proposed by Senator Max Baucus, which has been introduced in Congress, the purpose of which is to reauthorize and improve the operation of the Temporary Assistance to Needy Families (TANF) programs that are currently operated by Indian tribes or that in the future may be operated by Indian tribes and which calls for a report on the best practices with respect to the delivery of social services in relation to all tribal TANF programs and systemic aspects of the tribal TANF programs and relations between state and tribal administrators of TANF; and

WHEREAS, the President has signed an executive order on December 12, 2002, for equal protection of the laws for faith-based and community organizations that does not allow for discrimination on the basis of religion or

religious belief and may not discriminate against current or prospective program beneficiaries based on their beliefs.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Office of Faith-Based and Community Initiatives and any programs that are implemented by state governments in conjunction with that office and the Compassion Capital Fund be encouraged to recognize that spiritual practices of traditional Indian cultures are unique to each tribe.

BE IT FURTHER RESOLVED, that recipients of grants or other funds for social services or other efforts under the Office of Faith-Based and Community Initiatives programs be required by the federal and state agencies that are involved to consult with each tribal government at the local level before implementation of any programs in reservation communities in order to allow for self-determination in the implementation of these programs.

BE IT FURTHER RESOLVED, that efforts such as the federal American Indian Welfare Reform Act proposed by Senator Max Baucus be supported in order to provide the tools for self-determination and culturally relevant efforts to address self-sufficiency among tribal TANF recipients and tribal communities, and that efforts of self-determination of all tribal nations be culturally relevant and be determined at the most local level by the tribal leaders.

HOUSE JOINT RESOLUTION NO. 31

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA ENCOURAGING THE DEPARTMENT OF PUBLIC HEALTH AND HUMAN SERVICES TO DEVELOP INNOVATIVE PROGRAMS WITHIN THE TEMPORARY ASSISTANCE TO NEEDY FAMILIES PROGRAM THAT DIVERT FAMILIES FROM RECEIVING CASH ASSISTANCE AND THAT PROVIDE A PATHWAY OUT OF POVERTY.

WHEREAS, the goal of the Temporary Assistance for Needy Families (TANF) program is to assist families in achieving economic self-sufficiency, but the evaluation of the Montana program shows that families who leave the program do not attain self-sufficiency and remain in low-income jobs with limited, if any, benefits; and

WHEREAS, the TANF caseload has recently increased and the limited funding only allows for cash assistance payments and minimal work experience programs to ensure that the state meets its work participation rate; and

WHEREAS, Montana's Human and Community Services Division is committed to assisting families to move out of poverty, not locking them into minimum wage employment that keeps them in poverty; and

WHEREAS, Montana has successful initial experience with asset-building programs, assisting over 175 low-income families in Missoula, Billings, and Helena to build individual development accounts and to use them to go to school, start businesses, and become homeowners; and

WHEREAS, low-income families need a stable income package so that they can achieve personal savings and commercial credit to build assets.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Department of Public Health and Human Services be encouraged to develop an innovative program within the Temporary Assistance to Needy Families program that diverts families, including Native American families, from the assistance program and provides a pathway out of poverty. The program should:

(1) assist families to build assets, such as personal savings and commercial credit, and use individual development accounts;

(2) provide a stable income base on which to build;

(3) assist participation in post-secondary education and high-wage training;

(4) coordinate access to any other support programs for which a family may qualify including Medicaid and child care; and

(5) not count against the time limits for assistance, but it is not the intent of the Legislature to extend the 5-year limit on TANF assistance.

HOUSE JOINT RESOLUTION NO. 32

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA REQUESTING THAT THE GOVERNOR, THE MONTANA CONGRESSIONAL DELEGATION, AND THE U.S. SECRETARY OF THE INTERIOR SEEK THE IMMEDIATE DELISTING OF THE GRAY WOLF AND THE RETURN OF CONTROL OF THE WOLF TO THE STATE; URGING MONTANA OFFICIALS TO ACTIVELY PURSUE THE DELISTING EFFORT ON TERMS FAVORABLE TO MONTANA AND RECOMMENDING CERTAIN SPECIFIC TERMS FOR DELISTING; AND URGING THE STATE ATTORNEY GENERAL TO JOIN THE STATE IN ANY LEGAL ACTION BROUGHT TO BLOCK THE WOLF DELISTING PROCESS.

WHEREAS, the gray wolf has been protected by the U.S. Fish and Wildlife Service under the federal Endangered Species Act, notwithstanding plentiful numbers of wolves in Alaska and Canada; and

WHEREAS, because of the protection afforded by the Endangered Species Act, gray wolves have been reintroduced into and have become reestablished in Montana; and

WHEREAS, estimates of current Montana wolf population numbers vary from 250 to 300 wolves; and

WHEREAS, professional biological wolf studies in Alaska, Minnesota, and Canada have found that as long as wolves have prey animals to feed upon, wolf populations may expand at a rate of up to 34% a year; and

WHEREAS, this studied rate of wolf population growth is consistent with wolf population expansion observed in Montana, Idaho, and Wyoming; and

WHEREAS, wolves in Montana currently feed primarily on elk and disproportionately on young replacement elk born in the spring of each year; and

WHEREAS, elk may compose up to 80% of a wolf's diet; and

WHEREAS, the Montana Department of Fish, Wildlife, and Parks estimates that there are about 94,000 elk in Montana; and

WHEREAS, given the documented rate of uncontrolled wolf population expansion, the expected consumption rate of elk by wolves, and the limited supply of elk in Montana, it is reasonable to project devastation of Montana elk herds by wolves if the expansion of wolf populations is not aggressively controlled very soon; and

WHEREAS, unchecked predation by wolves will reduce hunting opportunities for the people of Montana; and

WHEREAS, in addition to impacting Montana's long heritage and culture of hunting, these negative impacts will also have a profound economic consequence for Montana people and communities.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Governor, the Montana Congressional Delegation, and the U.S. Secretary of the Interior be strongly urged to aggressively seek the immediate delisting of the gray wolf and the complete return of control over and management of wolves in Montana to Montana.

BE IT FURTHER RESOLVED, that Montana resist federal pressure to accept wolf delisting on terms unfavorable to Montana and that the Governor and the Montana Department of Fish, Wildlife, and Parks be urged not to accept wolf delisting unless the terms of delisting are favorable to Montana and include:

(1) funding for wolf management from federal sources;

(2) a definition of "breeding pair" that includes only one breeding male and one breeding female of any wolf pack and their single litter of pups under 6 months of age; and

(3) complete abandonment of federal enforcement authority over wolves.

BE IT FURTHER RESOLVED, that if any wolf delisting opponent files a lawsuit to block or restrict any planned or actual delisting of wolves by the U.S. Fish and Wildlife Service, the Montana Attorney General be urged to immediately join the state in that lawsuit to vigorously protect the interests of Montana in gaining wolf delisting.

BE IT FURTHER RESOLVED, that copies of this resolution be sent by the Secretary of State to the Governor, the Montana Congressional Delegation, the Montana Attorney General, the Director of the Montana Department of Fish, Wildlife, and Parks, the U.S. Secretary of the Interior, and the Director of the U.S. Fish and Wildlife Service.

HOUSE JOINT RESOLUTION NO. 34

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA URGING CONGRESS TO ENACT AND THE PRESIDENT OF THE UNITED STATES TO APPROVE LEGISLATION TO ALLOW TAXPAYERS TO DEDUCT SALES TAXES ON THEIR FEDERAL INCOME TAX RETURN.

WHEREAS, national economic studies show that states that rely on sales taxes for governmental revenue generally experience stronger economic growth than those states that rely on income taxes for governmental revenue; and

WHEREAS, until 1986, federal law allowed taxpayers to deduct sales taxes on their federal income tax return; and

WHEREAS, the Tax Reform Act of 1986 removed the ability of taxpayers to deduct sales taxes on their federal income tax return; and

WHEREAS, not allowing the deduction of sales taxes on the federal income tax return discriminates against those states that do not impose income taxes and is counterproductive to economic growth; and

WHEREAS, a major impediment preventing Montana from switching from the income tax to a sales tax is the higher federal tax burden that Montana taxpayers would face because they would not be allowed to deduct sales taxes on their federal income tax return; and

WHEREAS, the United States Congress has recently considered legislation to restore the deduction of sales taxes on the federal income tax return; and

WHEREAS, federal policy should encourage states to develop tax policies, including the use of sales taxes to fund government services, that encourage economic growth.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Legislature urge Congress to enact and the President of the United States to approve legislation to allow taxpayers to deduct sales taxes paid on their federal income tax return.

BE IT FURTHER RESOLVED, that the Legislature encourage the Montana Congressional Delegation to work in its respective houses of Congress for the enactment of federal legislation that would allow taxpayers to deduct sales taxes paid from their federal income tax return.

BE IT FURTHER RESOLVED, that the Secretary of State send copies of this resolution to the Honorable George W. Bush, President of the United States, the President of the United States Senate, the Speaker of the House of Representatives, and each member of Congress from the State of Montana.

HOUSE JOINT RESOLUTION NO. 35

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA REQUESTING AN INTERIM STUDY REGARDING MONTANA'S SHARE OF WATER FROM THE INTERSTATE TRIBUTARIES PURSUANT TO THE YELLOWSTONE RIVER COMPACT.

WHEREAS, the Yellowstone River Compact defines the "interstate tributaries" to include the following rivers that contribute to the flow of the Yellowstone River in the State of Montana, along with tributaries of these rivers: the Clarks Fork of the Yellowstone River, the Big Horn River (except the Little Big Horn River), the Tongue River, and the Powder River; and

WHEREAS, the agricultural communities along the interstate tributaries of the Yellowstone River depend on a sufficient supply of high-quality water for their livelihood and survival; and

WHEREAS, these agricultural communities have not been receiving a sufficient supply of water to meet their needs; and

WHEREAS, the headwaters of the interstate tributaries are in Wyoming; and

WHEREAS, because of concern that the waters of the interstate tributaries would soon become fully appropriated by Wyoming, in 1932 the State of Montana began urging the state of Wyoming to negotiate a compact to divide the waters of the interstate tributaries between Montana and Wyoming; and

WHEREAS, after 18 years of negotiations, in 1951, Montana, Wyoming, and North Dakota agreed to the terms of the Yellowstone River Compact, which is codified in Title 85, chapter 20, part 1, MCA; and

WHEREAS, the purpose of the Yellowstone River Compact stated in section 85-20-102, MCA, provides that all appropriative rights to the beneficial uses of the waters of the interstate tributaries of the Yellowstone River existing in each signatory state as of January 1, 1950, are recognized and must continue to be enjoyed in accordance with the laws governing the acquisition and use of water under the doctrine of appropriation; and

WHEREAS, the purpose of the Yellowstone River Compact stated in section 85-20-102, MCA, provides that all appropriative rights to the beneficial uses of the waters of the interstate tributaries of the Yellowstone River acquired after January 1, 1950, are subject to distribution in the states of Montana and Wyoming in accordance to the percentages in the different basins as provided in Article V of the Compact; and

WHEREAS, the purpose of the Yellowstone River Compact stated in section 85-20-102, MCA, is to enable the State of Montana and the Yellowstone River Compact Commission to comply with and to administer the percentage allocations as provided in Article V of the Compact; and

WHEREAS, Montana has not documented the receipt of its lawful share of water under the Yellowstone River Compact since ratification of the Compact; and

WHEREAS, inflows from the Tongue River to the Tongue River Reservoir were measured at all-time lows in the summer of 2001; and

WHEREAS, the Tongue River Reservoir did not receive sufficient water to provide the agricultural producers in the Tongue River drainage with enough water for irrigation in 2000, 2001, and 2002; and

WHEREAS, the shortage of water in these years resulted in diminished crop yields; and

WHEREAS, the reasons for recent low water flows in the interstate tributaries must be documented before Montana can develop a sound strategy for receiving, storing, and distributing Montana's water; and

WHEREAS, Montana's acceptance of the Yellowstone River Compact was based in part on assurances that large federal water storage projects would be built on the interstate tributaries; and

WHEREAS, except for the Yellowtail Dam, the federal water projects have not been built; and

WHEREAS, the distribution of water between Montana and Wyoming, as provided in Article V of the Yellowstone River Compact, has not been implemented; and

WHEREAS, the distribution of water under the Compact cannot be implemented without federal water storage projects to store the water for distribution in Montana; and

WHEREAS, the State of Montana has entered into compacts with the Northern Cheyenne Tribe and the Crow Tribe that affect the allocation of water from the interstate tributaries.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Legislative Council be requested to designate an appropriate interim committee, pursuant to section 5-5-217, MCA, or direct sufficient staff resources to:

(1) investigate whether Montana is receiving its lawful share of water from the interstate tributaries pursuant to the Yellowstone River Compact; and

(2) if the investigation determines that Montana is not receiving its lawful share of water, make recommendations regarding how to ensure that Montana receives its lawful share of water from the interstate tributaries pursuant to the Yellowstone River Compact.

BE IT FURTHER RESOLVED, that if the study is assigned to staff, any findings or conclusions be presented to and reviewed by an appropriate committee designated by the Legislative Council.

BE IT FURTHER RESOLVED, that all aspects of the study, including presentation and review requirements, be concluded prior to September 15, 2004.

BE IT FURTHER RESOLVED, that the final results of the study, including any findings, conclusions, comments, or recommendations of the appropriate committee, be reported to the 59th Legislature.

WHEREAS, clear, concise, and logically organized laws benefit all Montanans by increasing efficiency, reducing confusion, minimizing litigation, and providing for consistent application of the laws; and

WHEREAS, in recent legislative sessions, sections of Title 76, chapter 3, MCA, the Montana Subdivision and Platting Act, have been amended several times; and

WHEREAS, this piecemeal approach to amendment of the Montana Subdivision and Platting Act has resulted in laws that are not always clear, concise, logically organized, or consistently applied; and

WHEREAS, for example, the procedures for review of minor subdivisions are codified in two different parts of Title 76, chapter 3, MCA; and

WHEREAS, for example, section 76-3-103, MCA, defines terms that are not used in the Montana Subdivision and Platting Act; and

HOUSE JOINT RESOLUTION NO. 40

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA REQUESTING THE LEGISLATIVE COUNCIL TO DESIGNATE AN INTERIM COMMITTEE TO STUDY ISSUES ASSOCIATED WITH WATER RIGHTS FOR PRIVATE PONDS FOR FISH, WILDLIFE, RECREATIONAL, WETLAND, AESTHETIC, AND GRAVEL MINING USES; AND REQUESTING A REPORT OF THE FINDINGS, CONCLUSIONS, AND RECOMMENDATIONS OF THE STUDY TO THE 59TH LEGISLATURE AND THE GOVERNOR.

WHEREAS, Montana's scarce water resources are of vital importance to the state, its environment, and its citizens for existing and future prosperity; and

WHEREAS, as a result of Montana's arid climate, water has been appropriated from Montana's rivers and streams under the prior appropriation doctrine for more than 100 years; and

WHEREAS, many of Montana's river basins are now closed to new appropriations; and

WHEREAS, Montanans will increasingly find more basins closed by either the Legislature or the Department of Natural Resources and Conservation because of overappropriation of water; and

WHEREAS, continuing diversions from Montana's overappropriated rivers and streams can adversely impact historic water users; and

WHEREAS, continuing diversions from Montana's overappropriated rivers and streams can adversely impact existing wetlands, native fisheries, and other aquatic values; and

WHEREAS, the number of applications for new water rights for ponds in Montana has been increasing, even in closed river basins; and

WHEREAS, it is difficult to quantify the minimum or maximum amount of water needed for ponds for fish, wildlife, recreational, wetland, or aesthetic uses; and

WHEREAS, the impacts to a stream system resulting from a diversion of water from that stream for a pond can be much greater than the impacts resulting from an instream use of water that is nonconsumptive; and

WHEREAS, under Article IX, section 3, of the Montana Constitution, all waters within the boundaries of the state are the property of the state for the use of its people and are subject to appropriation for beneficial uses as provided by law; and

WHEREAS, under Article IX, section 3, of the Montana Constitution, the Legislature shall provide for the administration, control, and regulation of water rights.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Legislative Council be requested to designate an appropriate interim committee to:

(1) evaluate whether or not water use for private ponds for fish, wildlife, recreational, wetland, or aesthetic uses should be considered a beneficial use of water under Montana law;

(5) evaluate any other issues related to the use of water for private ponds for fish, wildlife, recreational, wetland, aesthetic, or gravel mining uses.

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA REQUESTING AN INTERIM STUDY OF THE SURFACE WATER AND GROUND WATER IMPACTS OF THE ABANDONED ZORTMAN AND LANDUSKY MINE SITES ON THE MILK AND MISSOURI RIVER WATERSHEDS AND THE EFFECTIVENESS OF THE STATE RECLAMATION EFFORTS AT THE ZORTMAN AND LANDUSKY MINE SITES IN PROTECTING THE WATERSHEDS; AND REQUESTING THAT THE RESULTS OF THE STUDY BE REPORTED TO THE 59TH LEGISLATURE.

WHEREAS, Pegasus Gold Corporation (Pegasus), through its subsidiary, Zortman Mining Incorporated (ZMI) and its predecessors, owned and operated the Zortman mine and the Landusky mine located in the Little Rocky Mountains of Phillips County, Montana, from 1979 until ZMI entered Chapter 7 bankruptcy in 1998 and abandoned the site; and

WHEREAS, the State of Montana's Department of Environmental Quality (DEQ) is presently directing the land reclamation and water treatment activities and operating the water treatment plants at the mine sites; and

WHEREAS, in 2002, the Bureau of Land Management and the DEQ prepared a joint supplemental environmental impact statement to evaluate alternatives for the final reclamation of the Zortman and Landusky mine sites; and

WHEREAS, the effectiveness and sufficiency of the current and proposed reclamation are not universally acceptable, and the reclamation is admittedly underfunded; and

WHEREAS, water discharges from the mine sites require treatment efforts, possibly into perpetuity; and

WHEREAS, the Little Rocky Mountains are upland water recharge areas for several watersheds and tributaries that supply the Milk River and the Missouri River; and

WHEREAS, current reclamation plans for water treatment at the mine sites contemplate the complete cessation of water treatment as soon as the year 2028.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Legislative Council be requested to designate an appropriate interim committee, pursuant to section 5-5-217, MCA, or direct sufficient staff resources to review the reclamation efforts at the Zortman and Landusky mine sites to:

(1) identify the impacts on surface water and ground water, including the recent degradation of Swift Gulch, attributable to past or present activities at the mine sites;

(2) determine if there are identifiable downstream impacts on the Milk and Missouri River drainages attributable to past or present activities at the mine sites;

(3) determine whether the surface water and ground water resources in the watersheds affected by the mine operations are being protected by the current or proposed state reclamation; and

(4) determine the potential impacts to surface water and ground water resources if additional funding for water treatment and reclamation does not become available.

BE IT FURTHER RESOLVED, that the study be conducted by reviewing available research reports and by soliciting testimony and information from knowledgeable individuals, academic institutions, and the appropriate local, state, tribal, and federal agencies.

BE IT FURTHER RESOLVED, that, in particular, representatives of the Fort Belknap Reservation Environmental Department be included in the study and participate in developing findings and recommendations.

BE IT FURTHER RESOLVED, that, if the study is assigned to staff, any findings or conclusions be presented to and reviewed by an appropriate committee designated by the Legislative Council.

BE IT FURTHER RESOLVED, that all aspects of the study, including presentation and review requirements, be concluded prior to September 15, 2004.

BE IT FURTHER RESOLVED, that the final results of the study, including any findings, conclusions, comments, or recommendations of the appropriate committee, be reported to the 59th Legislature.

CHAPTER 2

Decorum

H20-10. Addressing the House — recognition. (1) When a member desires to speak to or address any matter to the House, the member should rise and respectfully address the Speaker or the presiding officer.

(2) The Speaker or presiding officer may ask, “For what purpose does the member rise?” or “For what purpose does the member seek recognition?” and may then decide if recognition is to be granted. There is no appeal from the Speaker’s or presiding officer’s decision.

H20-20. Questions of order and privilege. (1) The Speaker shall decide all questions of order and privilege, subject to an appeal by any representative seconded by two representatives. The question on appeal is, “Shall the decision of the chairman be sustained?”.

(2) Responses to parliamentary inquiries and decisions of recognition may not be appealed.

(3) Questions of order and privilege, in order of precedence, are:

(a) those affecting the collective rights, safety, dignity, and integrity of the House; and

(b) those affecting the rights, reputation, and conduct of individual representatives.

(4) A member may not address the House on a question of privilege between the time:

(a) an undebatable motion is offered and the vote is taken on the motion;

(b) the previous question is ordered and the vote is taken on the proposition included under the previous question; or

(c) a motion to lay on the table is offered and the vote is taken on the motion.

H20-30. Limits on lobbying. Lobbying on the House floor and in the anteroom is prohibited during a daily session, 2 hours before the session, and 2 hours after the session.

H20-40. Admittance to the House floor. (1) The following persons may be admitted to the House floor during a daily session: present and former legislators; legislative employees necessary for the conduct of the session; accredited news staff; and members' spouses and children. The Speaker may allow exceptions to this rule.

(2) Only a member may sit in a member's chair when the House is in session.

H20-50. Dilatory motions or questions. The House has a right to protect itself from dilatory motions or questions used for the purpose of delaying or obstructing business. The presiding officer shall decide if motions (except a call of the House) or questions are dilatory. This decision may be appealed to the House.

H20-60. Opening and order of business. The opening of each legislative day must include an invocation, the pledge of allegiance, and roll call. Following the opening, the order of business of the House is as follows:

H20-90. Violation of rules. (1) If a member, in speaking or otherwise, violates the rules of the House, the Speaker shall, or the majority or minority floor leader may, call the member to order, in which case the member called to order must be seated immediately.

(2) The member called to order may move for an appeal to the House and if the motion is seconded by two members, the matter must be submitted to the House for determination by majority vote. The motion is nondebatable.

(3) If the decision of the House is in favor of the member called to order, the member may proceed. If the decision is against the member, the member may not proceed.

(4) If a member is called to order, the matter may be referred to the Rules Committee by the minority or majority leader. The Committee may recommend to the House that the member be censured or be subject to other action. The House shall act upon the recommendation of the Committee.

CHAPTER 3

Committees

H30-10. House standing committees — appointments. (1) The Speaker shall determine the total number of members and the party division and shall appoint the members to the following standing committees: Agriculture; Appropriations; Business and Labor; Education; Ethics; Federal Relations, Energy, and Telecommunications; Fish, Wildlife, and Parks; Transportation; Human Services; Judiciary; Legislative Administration; Local Government; Natural Resources; Rules; State Administration; and Taxation.

(2) The Speaker shall appoint the chairman, vice chairman, and minority vice chairman of each standing committee while retaining the authority to remove and replace any chairman, vice chairman, or minority vice chairman at any time. The appointment or removal of a minority vice chairman requires the consent of the minority leader. The Speaker shall give notice of each appointment to the Chief Clerk for publication.

(3) The Speaker may, in the Speaker's discretion or as authorized by the House, create and appoint select committees, designating the chairman and vice chairman of the select committee. Select committees may request or receive legislation in the same manner as a standing committee and are subject to the rules of standing committees.

H30-20. Chairman's duties. The principal duties of the chairman of standing or select committees are to:

(6) appoint subcommittees to perform on a formal or an informal basis; and

(7) inform the Speaker of committee activity.

H30-30. Quorum — officers as members. (1) A quorum of a committee is a majority of the members of the committee. A quorum of a committee must be present at a meeting to act officially. A quorum of a committee may transact business, and a majority of the quorum, even though it is a minority of the committee, is sufficient for committee action.

(2) The Speaker, majority leader, and minority leader are ex officio, nonvoting members of all House committees. They may count toward establishing a quorum.

H30-40. Meetings. (1) All meetings of committees must be open to the public at all times, subject always to the power and authority of the chairman to maintain safety, order, and decorum. The date, time, and place of committee meetings must be posted.

(2) A committee or subcommittee may be assembled for:

(a) a public hearing at which testimony is to be heard and at which official action may be taken on bills, resolutions, or other matters;

(b) a formal meeting at which the committees may discuss and take official action on bills, resolutions, or other matters without testimony; or

(c) a work session at which the committee may discuss bills, resolutions, or other matters but take no formal action.

(3) All committees meet at the call of the chairman or upon the request of a majority of the members of the committee directed to and with the approval of the Speaker.

(4) All committees shall provide for and give public notice, reasonably calculated to give actual notice to interested persons, of the time, place, and subject matter of regular and special meetings. All committees are encouraged to provide at least 3 legislative days notice to members of committees and the general public. However, a meeting may be held upon notice appropriate to the circumstances.

(5) A committee may not meet during the time the House is in session without leave of the Speaker. Any member attending such a meeting must be considered excused to attend business of the House subject to a call of the House.

(6) All meetings of committees must be recorded and the minutes must be available to the public within a reasonable time after the meeting. The official record must contain at least the following information:

(a) the time and place of each meeting of the committee;

(b) committee members present, excused, or absent;

(c) the names and addresses of persons appearing before the committee, whom each represents, and whether the person is a proponent, opponent, or other witness;

(d) all motions and their disposition;

(e) the results of all votes;

(f) references to the recording log, sufficient to serve as an index to the original recording; and

(g) testimony and exhibits submitted in writing.

H30-50. Procedures. (1) The chairman shall notify the sponsor of any bill pending before the committee of the time and place it will be considered.

(2) A standing or select committee may not take up referred legislation unless the sponsor or one of the cosponsors is present or unless the sponsor has given written consent.

(3) The committee shall act on each bill in its possession:

(a) by reporting the bill out of the committee:

(i) with the recommendation that it be referred to another committee;

(ii) favorably as to passage; or

(iii) unfavorably; or

(b) by tabling the measure in committee.

(4) The committee may not report a bill to the House without recommendation.

(5) The committee may recommend that a bill on which it has made a favorable recommendation by unanimous vote be placed on the consent calendar.

(6) In reporting a measure out of committee, a committee shall include in its report:

(a) the measure in the form reported out;

(b) the recommendation of the committee;

(c) an identification of all substantive changes; and

(d) a fiscal note, if required.

(7) If a measure is withdrawn from a committee and brought to the House floor for debate on second reading on that day without a committee recommendation, the bill does not include amendments formally adopted by the committee.

(8) A second to any motion offered in a committee is not required in order for the motion to be considered by the committee.

(9) The vote of each member on all committee actions must be recorded. All motions may be adopted only on the affirmative vote of a majority of the members voting.

(10) A motion to take a bill from the table may be adopted by the affirmative vote of a majority of the members present at any meeting of the committee.

(11) An action formally taken by a committee may not be altered in the committee except by reconsideration and further formal action of the committee.

(12) A committee may reconsider any action as long as the matter remains in the possession of the committee. A committee member need not have voted with the prevailing side in order to move reconsideration.

(13) Any legislation requested by a committee requires three-fourths of all members of the committee to vote in favor of the question to allow the committee to request the drafting or introduction of legislation. Votes requesting drafting and introduction of committee legislation may be taken jointly or separately.

(14) The chairman shall decide points of order.

(15) The privileges of committee members include the following:

(a) to participate freely in committee discussions and debate;

(b) to offer motions;

(c) to assert points of order and privilege;

(d) to question witnesses upon recognition by the chairman;

(e) to offer any amendment to any bill; and

(f) to vote, either by being present or by proxy, using a standard form or through the vice chairman or minority vice chairman.

(16) Any meeting of a committee held through the use of telephone or other electronic communication must be conducted in accordance with Chapter 3 of the House Rules.

(17) A committee may consolidate into one bill any two or more related bills referred to it whenever legislation may be simplified by the consolidation.

(18) Committee procedure must be informal, but when any questions arise on committee procedure, the rules or practices of the House are applicable except as stated in the House Rules.

H30-60. Public testimony. (1) Testimony from proponents, opponents, and informational witnesses must be allowed on every bill or resolution before a standing or select committee. All persons, other than the sponsor, offering testimony shall complete a "Witness Form" and submit it to the committee secretary.

(2) Any person wishing to offer testimony to a committee hearing a bill or resolution must be given a reasonable opportunity to do so, orally or in writing. Written testimony may not be required of any witness, but all witnesses must be encouraged to submit a statement in writing for the committee's official record.

(3) The chairman may order the committee room cleared of visitors if there is disorderly conduct. During committee meetings, visitors may not speak unless called upon by the chairman. Restrictions on time available for testimony may be announced.

(4) The number of people in a committee room may not exceed the maximum posted by the State Fire Marshall. The chairman shall maintain that limit.

(5) In any committee meeting, the use of cameras, television, radio, or any form of telecommunication equipment is allowed, but the chairman may designate the areas of the hearing room from which the equipment must be operated.

CHAPTER 4

Legislation

H40-10. Introduction deadlines. (1) Except as provided in subsection (2), if a representative accepts drafted legislation from the Legislative Services Division after the deadline for introduction, the representative may not introduce that legislation after 48 hours from the time the bill was accepted from the Legislative Services Division.

(2) No bill or resolution may be introduced any later than 5 p.m. 5 legislative days prior to the appropriate transmittal deadline.

H40-20. House resolutions. (1) A House resolution is used to adopt or amend House rules, make recommendations on the districting and apportionment plan (Montana Constitution, Art. V, Sec. 14), express the sentiment of the House, or assist House operations.

(2) As to drafting, introduction, and referral, a House resolution is treated as a bill. A House resolution may be requested and introduced at any time. Final passage of a House resolution is determined by the Committee of the Whole report. A House resolution does not progress to third reading.

(3) The Chief Clerk shall transmit a copy of each passed House resolution to the Senate and the Secretary of State.

H40-30. Cosponsors. (1) Prior to submitting legislation to the Chief Clerk for introduction, the chief sponsor may add representatives and senators as cosponsors by having them sign the legislation.

(2) After legislation is submitted for introduction but before the legislation returns from the first House committee, the chief sponsor may add or remove cosponsors by filing a cosponsor form with the Chief Clerk. This filing must be noted by the Chief Clerk for the record on Order of Business No. 11.

H40-40. Introduction — receipt. (1) During a session, proposed House legislation may be introduced in the House by submitting it, endorsed with the signature of a representative as chief sponsor, to the Chief Clerk for introduction. In each session of the Legislature, the proposed legislation must be numbered consecutively by type in the order of receipt. Submission and numbering of properly endorsed legislation constitutes introduction.

(2) Preintroduction of legislation prior to a session under provisions of the joint rules constitutes introduction in the House.

(3) Acknowledgment by the Chief Clerk of receipt of legislation or other matters transmitted from the Senate for consideration by the House constitutes introduction of the Senate legislation in the House or receipt by the House for purposes of applying time limits contained in the House rules. All legislation may be referred to a committee prior to being read across the rostrum as provided in H40-50.

(4) Acknowledgment by the Chief Clerk of receipt of messages from the Senate or other elected officials constitutes receipt by the House for purposes of any applicable time limit. Senate legislation or messages received from the Senate or elected officials are subject to all other rules.

H40-50. First reading. Legislation properly introduced or received in the House must be announced across the rostrum and public notice provided. This announcement constitutes first reading, and no debate or motion is in order except that a representative may question adherence to rules. Acknowledgment

by the Chief Clerk of receipt of legislation transmitted from the Senate commences the time limit for consideration of the legislation. All legislation received by the House may be referred to a committee prior to being read across the rostrum.

H40-60. One reading per day. Except on the final legislative day, legislation may receive no more than one reading per legislative day. On the final legislative day, legislation may receive more than one reading.

H40-70. Referral. (1) The Speaker shall refer to a House committee all properly introduced House legislation and transmitted Senate legislation.

(2) Legislation may not receive final passage and approval unless it has been referred to a House committee.

H40-80. Rereferral. (1) Except as provided in subsection (2), legislation that is in the possession of the House and that has not been finally disposed of may be rereferred to a House committee by House motion approved by not less than three-fifths of the members present and voting.

(2) Legislation that is in the possession of the House and that has been reported from a committee with a do pass or be concurred in recommendation may be rereferred to a House committee by a majority vote.

H40-90. Legislation withdrawn from committee. Legislation may be withdrawn from a House committee by House motion approved by not less than three-fifths of the members present and voting.

H40-100. Standing committee reports. (1) A House standing committee recommendation of "do pass" or "be concurred in" must be announced across the rostrum and, if there is no objection to form, is considered adopted.

(2) A recommendation of "do not pass" or "be not concurred in" must be announced across the rostrum and, on the following legislative day, may be debated and adopted or rejected on Order of Business No. 2. A motion to reject an adverse committee report must be approved by not less than three-fifths of the members voting. Failure to adopt a motion to reject an adverse committee report constitutes adoption of the report.

(3) If the House rejects an adverse committee report, the bill progresses to second reading, as scheduled by the Speaker, with any amendments recommended by the committee.

H40-110. Consent calendar procedure. (1) Noncontroversial bills and simple and joint resolutions may be recommended for the consent calendar by a standing committee and processed according to the following provisions:

(a) To be eligible for the consent calendar, the legislation must receive a unanimous vote by the members of the standing committee in attendance (do pass, do pass as amended). In addition, a motion must be made and passed unanimously to place the legislation on the consent calendar and this action reflected in the committee report. Appropriation or revenue bills may not be recommended for the consent calendar.

(b) The legislation must then be sent to be processed and reproduced as a third reading version and specifically marked as a "consent calendar" item.

(2) Other legislation may be placed on the consent calendar by agreement between the Speaker and the minority leader following a positive recommendation by a standing committee. The legislation must be sent to be

processed as a second reading version but must be specifically announced and posted as a "consent calendar" item.

(3) Legislation must be posted immediately (as soon as it is received appropriately printed) on the consent calendar and must remain there for 1 legislative day before consideration under Order of Business No. 11, special orders of the day. At that time, the presiding officer shall announce consideration of the consent calendar and allow "reasonable time" for questions and answers upon request. No debate is allowed.

(4) If any one representative submits a written objection to the placement of legislation on the consent calendar, the legislation must be removed from the consent calendar and added to the regular second reading board.

(5) Consent calendar legislation will be considered on Order of Business No. 8, third reading of bills, following the regular third reading agenda, as separately noted on the agenda.

(6) Legislation on the consent calendar must be considered individually with the roll call vote spread on the journal as the final vote in the House.

(7) Legislation passed on the consent calendar must then be transmitted to the Senate. Legislation must be appropriately printed prior to transmittal.

H40-120. Legislation requiring other than a majority vote. Legislation that requires other than a majority vote for final passage needs only a majority vote for any action that is taken prior to third reading and that normally requires a majority vote.

H40-130. Amending House second and third reading agendas. (1) A majority of representatives present may rearrange or remove legislation from either the second or third reading agenda on that legislative day.

(2) Legislation may be added to the second or third reading agenda on that legislative day on a motion approved by not less than three-fifths of the members present and voting.

H40-140. Second reading. (1) Legislation returned from committee may be placed on second reading unless otherwise ordered by the House.

(2) The House shall form itself into a Committee of the Whole to consider business on second reading. The Committee of the Whole may debate legislation, attach amendments, and recommend approval or disapproval of legislation.

(3) Except on the final legislative day, at least 1 legislative day must elapse between the time legislation is reported from committee and the time it is considered on second reading.

(4) If a motion to recommend that a bill "do pass" or "be concurred in" fails in the Committee of the Whole, the obverse, i.e., a recommendation that the bill "do not pass" or "be not concurred in", is considered to have passed. If a motion to recommend that a bill "do not pass" or "be not concurred in" fails in the Committee of the Whole, the obverse, i.e., a recommendation that the bill "do pass" or "be concurred in", is considered to have passed.

(5) An amendment attached to legislation by the Committee of the Whole remains unless removed by further legislative action.

(6) When the Committee of the Whole reports to the House, the House shall adopt or reject the Committee of the Whole report. If the House rejects the

Committee of the Whole report, the legislation remains on second reading, as amended by the Committee of the Whole, unless the House orders otherwise.

(7) A representative may move to segregate legislation from the Committee of the Whole report before the report is adopted. Segregated legislation, as amended by the Committee of the Whole, must be placed on second reading unless the House orders otherwise. Amendments adopted by the Committee of the Whole on segregated legislation remain adopted unless reconsidered or unless the legislation is rereferred to a committee.

H40-150. Amendments in the Committee of the Whole. (1) All Committee of the Whole amendments must be checked by the House amendments coordinator for format, style, clarity, consistency, and other factors, in accordance with the most recent Bill Drafting Manual published by the Legislative Services Division, before the amendment may be accepted at the rostrum. The amendment form must include the date and time the amendment is submitted for that check.

(2) An amendment submitted to the rostrum for consideration by the Committee of the Whole must be marked as checked by the amendments coordinator and signed by a representative. Unless the majority leader, the minority leader, and sponsor agree, amendments must be printed and placed on the members' desks prior to consideration.

(3) An amendment may not be proposed until the sponsor has opened on a bill.

(4) A copy of every amendment rejected by the Committee of the Whole must be kept as part of the official records.

(5) An amendment may not change the original purpose of the bill.

H40-160. Motions in the Committee of the Whole. (1) When the House resolves itself into a Committee of the Whole, the only motions in order are to:

(a) amend;

(b) recommend passage or nonpassage;

(c) recommend concurrence or nonconcurrence;

(d) reconsider;

(e) pass consideration;

(f) call for cloture;

(g) rise, rise and report, or rise and report progress and beg leave to sit again; and

(h) to change the order in which legislation is placed on the agenda.

(2) Subsections (1)(d) through (1)(g) are nondebatable but may be amended. Once a motion under subsection (1)(b) or (1)(c) is made, a contrary motion is not in order.

(3) If a quorum of representatives is not present during second reading, the Committee of the Whole may conduct no business on legislation and a motion for a call of the House without a quorum is in order.

H40-170. Limits on debate in the Committee of the Whole. (1) A representative may not speak more than once on the motion and may speak for no more than 5 minutes. The representative who makes the motion may speak a second time for 5 minutes in order to close.

(2) After at least two proponents and two opponents have spoken on a question and 30 minutes have elapsed, a motion to call for cloture is in order. Approval by not less than two-thirds of the members present and voting is required to sustain a motion for cloture. Notwithstanding the passage of a motion to end debate, the sponsor of the motion on which debate was ended may close.

(3) By previous agreement of the majority leader and the minority floor leader:

(a) a lead proponent and a lead opponent may be granted additional time to speak on a bill;

(b) a bill or resolution may be allocated a predetermined amount of time for debate and number of speakers.

H40-180. Special provisions for debate on the general appropriations bill. (1) The Appropriations Committee chairman, in presenting the bill, is not subject to the 5-minute speaking limitation.

(2) Each appropriations subcommittee chairman shall fully present the chairman's portion of the bill. A subcommittee chairman is not subject to the 5-minute speaking limitation.

(3) After the presentation by the subcommittee chairman, the respective section of the bill is open for debate, questions, and amendments. A proposed amendment to the general appropriations act may not be divided.

(4) An amendment that affects more than one section of the bill must be offered when the first section affected is considered.

(5) Following completion of the debate on each section, that section is closed and may not be reopened except by majority vote.

(6) If a member moves to reopen a section for amendment, only the amendment of that member may be entertained. Another member wishing to amend the same section shall make a separate motion to reopen the section.

(7) Debate on the motion to reopen a section is limited to the question of reopening the section. The amendment itself may not be debated at that time. This limitation does not prohibit the member from explaining the amendment to be considered.

(8) A motion for cloture is not in order during debate on the general appropriations bill.

H40-190. Engrossing. (1) After legislation is passed on second reading, it must be engrossed within 48 hours under the direction of the Speaker. The Speaker may grant additional time for engrossing.

(2) When the legislation that has passed second reading, as amended, has been correctly engrossed, it may be placed on third reading on the following legislative day. If the bill is not amended, the bill must be sent to printing. On the final legislative day, the correctly engrossed legislation may be placed on third reading on the same legislative day. For the purposes of this rule, "engrossing" means placing amendments in a bill.

H40-200. Third reading. (1) All bills, joint resolutions, and Senate amendments to House bills and resolutions passing second reading must be placed on third reading the day following the receipt of the engrossing or other appropriate printing report.

(2) Legislation on third reading may not be amended or debated.

(3) The Speaker shall state the question on legislation on third reading. If a majority of the representatives voting does not approve the legislation, it fails to pass third reading.

H40-210. Senate legislation in the House. Senate legislation properly transmitted to the House must be treated as House legislation.

H40-220. Senate amendments to House legislation. (1) When the Senate has properly returned House legislation with Senate amendments, the House shall announce the amendments on Order of Business No. 4, and the Speaker shall place them on second reading for debate. The Speaker may rerefer House legislation with Senate amendments to a committee for a hearing if the Senate amendments constitute a significant change in the House legislation. The second reading vote is limited to consideration of the Senate amendments.

(2) If the House accepts Senate amendments, the House shall place the final form of the legislation on third reading to determine if the legislation, as amended, is passed or if the required vote is obtained.

(3) If the House rejects the Senate amendments, the House may request the Senate to recede from its amendments or may direct appointment of a conference committee and request the Senate to appoint a like committee.

H40-230. Conference committee reports. (1) When a House conference committee files a report, the report must be announced under Order of Business No. 3.

(2) The House may debate and adopt or reject the conference committee report on second reading on any legislative day. The House may reconsider its action in rejecting a conference committee report under rules for reconsideration, H50-160.

(3) If both the House and the Senate adopt the same conference committee report on legislation requiring more than a majority vote for final passage, the House, following approval of the conference committee report on third reading, shall place the final form of the legislation on third reading to determine if the required vote is obtained.

(4) If the House rejects a conference committee report, the committee continues to exist unless dissolved by the Speaker or by motion. The committee may file a subsequent report.

(5) A House conference committee may confer regarding matters assigned to it with any Senate conference committee with like jurisdiction and submit recommendations for consideration of the House.

H40-240. Enrolling. (1) When House legislation has passed both houses, it must be enrolled within 48 hours under the direction of the Speaker. The Speaker may grant additional time for enrolling.

(2) The chief sponsor of the legislation shall examine the enrolled legislation and, if it has no enrolling errors, shall, within 1 legislative day, certify the legislation as correctly enrolled.

(3) The correctly enrolled legislation must be delivered to the Speaker, who shall sign the legislation.

(4) After the legislation has been reported correctly enrolled but before it is signed, any representative may examine the legislation.

H40-250. Governor's amendments. (1) When the Governor returns a bill with recommended amendments, the House shall announce the amendments under Order of Business No. 5.

(2) The House may debate and adopt or reject the Governor's recommended amendments on second reading on any legislative day.

(3) If both the House and the Senate accept the Governor's recommended amendments on a bill that requires more than a majority vote for final passage, the House shall place the final form of the legislation on third reading to determine if the required vote is obtained.

H40-260. Governor's veto. (1) When the Governor returns a bill with a veto, the House shall announce the veto under Order of Business No. 5.

(2) On any legislative day, a representative may move to override the Governor's veto by a two-thirds vote under Order of Business No. 9.

CHAPTER 5

Floor Actions

H50-10. Attendance. (1) A representative, unless excused, is required to be present at every sitting of the House.

(2) A representative may request in writing to be excused for a specified cause by the representative's party leader. This excused absence is not a leave with cause from a call of the House.

H50-20. Quorum. (1) A quorum of the House is fifty-one representatives (Montana Constitution, Art. V, Sec. 10).

(2) Any representative may question the lack of a quorum at any time a vote is not being taken. The question is nondebatable, may not be amended, and is resolved by a roll call.

(3) The House may conduct no business without a quorum, except that representatives present may convene, compel the attendance of absent representatives, or adjourn.

H50-30. Call of the House without a quorum. (1) In the absence of a quorum, a majority of the representatives present may compel the attendance of absent representatives through a call of the House without a quorum. The motion for the call is nondebatable, may not be amended, and is in order at any time it has been established that a quorum is not present.

(2) During a call of the House, all business is suspended. No motion is in order except a motion to adjourn or to remove the call.

(3) When a quorum has been achieved under the call, the call is automatically lifted. The call may also be lifted by adjournment or by two-thirds of the representatives present and voting.

H50-40. Call of the House with a quorum. (1) If a quorum is present but at least one representative is excused or absent, one-third of the representatives present and voting may order a call of the House with a quorum.

(2) The motion for a call is nondebatable, may not be amended, and is in order at any time a vote is not being taken, except that a call of the House with a quorum is not allowed in the Committee of the Whole.

(3) During a call of the House, all business is suspended. No motion is in order except a motion to adjourn or to remove the call.

(4) When all representatives are present, except those on leave with cause, the call is automatically lifted. The call may also be lifted by adjournment or by two-thirds of the representatives present and voting.

H50-50. Leave with cause. (1) During a call of the House, a representative with an overriding medical or personal reason may request a leave with cause.

(2) If the representative is present at the time of the call, the Speaker may approve a request for a leave with cause.

(3) If the representative is not present at the time of the call, two-thirds of the representatives present and voting may approve a request for leave with cause.

(4) During a call of the House, a representative on leave with cause may not cast an absentee vote.

H50-60. Motions. (1) Any representative may propose a motion allowed by the rules for the order of business under which the motion is offered for the consideration of the House. Unless otherwise specified in rule or law, a majority of representatives voting is necessary and sufficient to decide a motion.

(2) Seconds to motions on the House floor are not required.

(3) Absentee votes are not allowed on votes that are specified as "representatives present and voting".

H50-70. Limits on debate of debatable motions. (1) Except for the representative who places a debatable motion before the body, no representative may speak more than once on the question unless a unanimous House consents. The representative who places the motion may close.

(2) No representative may speak for more than 10 minutes on the same question, except that a representative may have 5 minutes to close.

H50-80. Nondebatable motions. (1) A representative has the right to understand any question before the House and, usually under the administration of the presiding officer, may ask questions to exercise this right.

(2) The following motions are nondebatable:

(a) to adjourn;

(b) for a call of the House;

(c) to recess or rise;

(d) for parliamentary inquiry;

(e) to table or take from the table;

(f) to call for the previous question or cloture;

(g) to amend a nondebatable motion;

(h) to divide a question;

(i) to postpone consideration to a day certain;

(j) to suspend the rules;

(k) all incidental motions, such as motions relating to voting or of a general procedural nature; and

(l) to appeal a call to order.

H50-90. Questions. A representative may, through the presiding officer, ask questions of another representative during a floor session. There is no limit on questions and answers, except as provided in H20-50.

H50-100. Amending motions — limitations. (1) A representative may move to amend the specific provisions of a motion without changing its substance.

(2) No more than one motion to amend a motion is in order at any one time.

(3) A motion for a call of the House, for the previous question, to table, or to take from the table may not be amended.

H50-110. Substitute motions. (1) When a question is before the House, no substitute motion may be made except the following, which have precedence in the order listed:

(a) to adjourn;

(b) for a call of the House;

(c) to recess or rise;

(d) for a question of privilege;

(e) to table;

(f) to call for the previous question or cloture;

(h) to refer to a committee; and

(i) to propose amendments.

(2) Nothing in this section allows a motion that would not otherwise be allowed under a particular order of business.

(3) (a) Except as provided in subsection (3)(b), no more than one substitute motion is in order at any one time.

(b) A motion for cloture is in order on a substitute motion to amend.

H50-120. Withdrawing motions. A representative who proposes a motion may withdraw it before it is voted on or amended.

H50-130. Dividing a question. Except as provided in H40-180, a representative may request to divide a question as a matter of right if it includes two or more propositions so distinct that they can be separated and if at least one substantive question remains after one substantive question is removed.

H50-140. Previous question. (1) If a majority of representatives present and voting adopts a motion for the previous question, debate is closed on the question and it must be brought to a vote. The Speaker may not entertain a motion to end debate unless at least one proponent and one opponent have spoken on the question.

(2) Notwithstanding the passage of a motion to end debate, the sponsor of the motion on which debate was ended may close.

H50-150. Questions requiring other than a majority vote. The following questions require the vote specified for each condition:

(1) a motion to approve a bill proposing to amend the Montana Constitution (two-thirds of the entire Legislature).

H50-160. Reconsideration. (1) Any representative may, within 1 legislative day of a vote, move to reconsider the House vote on any matter still within the control of the House.

(2) A motion for reconsideration, unless tabled or replaced by a substitute motion, must be disposed of when made.

(3) When a motion for reconsideration fails, the question is finally settled. A motion for reconsideration may not be renewed or reconsidered.

(4) A motion to recall legislation from the Senate constitutes a motion to reconsider and is subject to the same rules.

(5) A motion for reconsideration is not in order on a vote to postpone to a day certain or to table legislation.

H50-190. Voting. (1) The representatives shall vote to decide any motion or question properly before the House. Each representative has one vote.

(2) The House may, without objection, use a voice vote on procedural motions that are not required to be recorded in the journal. If a representative rises and objects, the House shall record the vote.

(3) The House shall record the vote on all substantive questions. If the voting system is inoperable, the Chief Clerk shall record the representatives' votes by other means.

(4) A member who is present shall vote unless the member has disclosed a conflict of interest to the House.

H50-200. Changing a vote. (1) A representative may move to change the representative's vote within 1 legislative day of the vote. The motion is nondebatable. The motion must be made on Order of Business No. 9, motions. All of the members present and voting are required to consent to the change in order for it to be effective.

(2) The representative making the motion shall first specify the bill number, the question, and the original vote tally. A vote may not be changed if it would affect the outcome of legislation.

(3) A vote change must be entered into the journal as a notation that the member's vote was changed. The original printed vote will not be reprinted to reflect the change.

(4) An error caused by a malfunction of the voting system may be corrected without a vote.

H50-210. Absentee votes. (1) An excused representative may file an absentee vote authorization form to vote during the excused absence on any vote for which absentee voting is allowed.

(2) An excused representative shall sign an absentee vote authorization form that specifies the motion and the desired vote.

H50-240. Adjournment sine die. A representative may move that the House adjourn for the session. The motion is nondebatable and may be made under any order of business except Order of Business No. 7.

CHAPTER 6

Motions

H60-10. Proposal for consideration. (1) Every question presented to the House or a committee must be submitted as a definite proposition.

(2) A representative has the right to understand any question before the House and, under the authority of the presiding officer, may ask questions to exercise this right.

H60-20. Nondebatable motions. The following motions, in addition to any other motion specifically designated, must be decided without debate:

(i) to propose amendments.

(2) This section does not allow a motion that would not otherwise be allowed under a particular order of business.

(3) Only one substitute motion is in order at any time.

H60-40. Motions to adjourn or recess. (1) A motion to adjourn or recess is always in order, except:

(a) when the House is voting on another motion;

(b) when the previous question has been ordered and before the final vote;

(c) when a member entitled to the floor has not yielded for that purpose; or

(d) when business has not been transacted after the defeat of a motion to adjourn or recess.

(2) The vote by which a motion to adjourn or recess is carried or fails is not subject to a motion to reconsider.

H60-50. Motion to table. (1) A motion to table, if carried, has the effect of postponing action on the proposition to which it was applied until superseded by a motion to take from the table.

(2) The vote by which a motion to table is carried or fails cannot be reconsidered.

(3) A motion to table is not in order after the previous question has been ordered.

H60-60. Motion to postpone. A motion to postpone to a day certain may be amended and is debatable within narrow limits. The merits of the proposition that is the subject of the motion to postpone may not be debated.

H60-70. Motion to refer. When a motion is made to refer a subject to a standing committee or select committee, the question on the referral to a standing committee must be put first.

H60-80. Terms of debate on motion to refer or rerefer. (1) A motion to refer or rerefer is debatable within narrow limits. The merits of the proposition that is the subject of the motion may not be debated.

(2) A motion to refer or rerefer with instructions is fully debatable.

H60-100. Moving the previous question after a motion to table. (1) If a motion to table is made directly to a main motion, a motion for the previous question is not in order.

(2) If an amendment to a main motion is pending and a motion to table is made, the previous question may be called on the main motion, the pending amendment, and the motion to table the amendment.

H60-110. Standard motions. The following are standard motions:

(1) moving House bills or resolutions on second reading, “Mister/Madam Chairman, I move that when this committee does rise and report after having under consideration House Bill ___, that it recommend the same (do pass)/(do pass as amended)/(do not pass).”

(2) moving Senate bills and Senate amendments to House bills, "Mister/Madam Chairman, I move that when this committee does rise and report after having under consideration Senate Bill ___/Senate amendments to House Bill ___, that it recommend the same (be concurred in)/(be not concurred in)."

(6) question another representative, "Mister/Madam Speaker/Chairman, would Representative ___ yield to a question?"

CHAPTER 7

Rules

H70-10. House rules. (1) The House may adopt, through a House resolution passed by a majority of its members, rules to govern its proceedings.

H70-30. Suspension of rules. The House may suspend a House rule on a motion approved by not less than two-thirds of the members voting.

H70-40. Supplementary rules. Mason's Manual of Legislative Procedure (2000) governs House proceedings in all cases not covered by House rules.

H70-50. Interpreting rules. The Speaker shall interpret all questions on House rules, subject to appeal by any 15 representatives to the House Rules Committee. Unless the delay would cause legislation to fail to meet a scheduled deadline, the House Rules Committee may consider and report on the appeal on the next legislative day. The decision of the House Rules Committee may be appealed to the House by any representative.

H70-60. Joint rules superseded. A House rule, insofar as it relates to the internal proceedings of the House, supersedes a joint rule.

Adopted Jan u ary 9, 2003

HOUSE RESOLUTION NO. 2

A RESOLUTION OF THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA RECOGNIZING THE DISTINGUISHED SERVICE OF UNITED STATES SEAGOING MARINES AND THE NAVAL CRUISE SHIP,

USS HELENA, AND DESIGNATING NOVEMBER 2003 AS UNITED STATES SEAGOING MARINES MONTH.

WHEREAS, seagoing marines have served aboard ships of the United States Navy from 1775 to 1998; and

WHEREAS, for 223 years, the seagoing marines participated in every naval campaign and battle to safeguard the freedom and liberty that all Montanans expect and enjoy today; and

WHEREAS, the USS Helena CL-50 was at Pearl Harbor on December 7, 1941, when the Japanese attacked and, because the ship was in the berth normally assigned to the Pennsylvania, became a prime target, but the ship survived the attack and later gave the Japanese occasion to regret their failure to destroy it; and

WHEREAS, in 1942, the USS Helena entered action in Guadalcanal, where the long and bloody battle for the island was then beginning, and on September 15, 1942, with guns blazing, the USS Helena rescued nearly 400 of the officers and crew of the Wasp (AV-7); and

WHEREAS, the USS Helena again saw action on October 11, 1942, in the Battle of Cape Esperance in Iron Bottom Sound, protecting vital transports into Guadalcanal during which the USS Helena was the first to engage the enemy and sank the cruiser Furutaka and the destroyer Fubuki; and

WHEREAS, the USS Helena saw action several times during the climactic Naval Battle of Guadalcanal in November 1942, which the USS Helena witnessed from its beginning while escorting a supply echelon from Espiritu Santo to Guadalcanal; and

WHEREAS, the USS Helena was assigned to several bombardments of Japanese positions on New Georgia during January 1943, and the ship's guns rocked the enemy at Munda and Vila Stanmore, leveling vital supply concentrations and gun emplacements; and

WHEREAS, USS Helena's intense and rapid-fire bombardment in support of troop landings during the invasion of New Georgia made the ship a prime target, and it was hit by three Japanese torpedoes, which sank the USS Helena; and

WHEREAS, during the USS Helena's final moments, with the bow protruding from the water, the USS Helena served as a lifeboat to many of the survivors until they were rescued before the USS Helena sank; and

WHEREAS, other armed service personnel from the USS Helena endured many dramatic and harrowing hours and days before being finally rescued, with 168 of the USS Helena's crew of 900 perishing; and

WHEREAS, the USS Helena was the first ship to receive the Navy Unit Commendation for the ship's actions in the Battle of Cape Esperance, Guadalcanal, and in Kula Gulf; and

WHEREAS, the USS Helena also earned the Asiatic-Pacific Area Campaign medal with seven stars; and

WHEREAS, it is fitting and proper that the valiant deeds of the USS Helena and the ship's crew and all seagoing marines and their vessels be recognized and celebrated by the citizens of Montana.

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the House of Representatives of the State of Montana recognize the dedicated service of the seagoing marines and, in commemoration of the USS Helena's service during the Naval Battle of Guadalcanal in November of 1942, declare the month of November 2003 as United States Seagoing Marines month.

BE IT FURTHER RESOLVED, that the Secretary of State send copies of this resolution to the United States Seagoing Marine Association.

HOUSE RESOLUTION NO. 3

A RESOLUTION OF THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA REJECTING THE LEGISLATIVE PLAN THAT THE MONTANA DISTRICTING AND APPORTIONMENT COMMISSION SUBMITTED TO THE LEGISLATURE.

WHEREAS, the Montana Districting and Apportionment Commission submitted its legislative redistricting plan to the Legislature on January 6, 2003, as required by Article V, section 14, of the Montana Constitution; and

WHEREAS, the Joint Select Committee on Districting and Apportionment has received and considered testimony on the plan; and

WHEREAS, the House of Representatives contends that the 5% population deviation allowance contained in the plan was used for partisan gain, that the Constitution is clear in language that the districts "shall be as nearly equal in population as is practicable", and that a 1% population deviation, or less, is both practical and possible; and

WHEREAS, the House of Representatives contends that the majority of the Commission ignored the mandatory, constitutional criterion of "compact" districts in creating several House and Senate Districts that are over 200 miles from one end to the other; and

WHEREAS, the House of Representatives contends that the American Indians have been isolated and that other minority groups were ignored when several districts in Montana were established; and

WHEREAS, the House of Representatives contends that race was used as the predominant criterion in tentatively establishing six House Districts and three Senate Districts in blatant violation of the mandatory criterion that race may not be the predominant factor to which the traditional discretionary criteria are subordinated; and

WHEREAS, the Commission failed to adopt a criterion of consideration of existing district lines as the previous Commission had adopted; and

WHEREAS, the Commission has disregarded, in several instances, the discretionary criteria adopted by the Commission on April 18, 2001, by dividing many towns, cities, and counties, while giving little or no regard to keeping communities of interest intact; and

WHEREAS, the arbitrary assignment of holdover Senators to districts that did not elect them is at best wrong, blatantly unethical, and simply unfair to the electors; and

WHEREAS, the Legislature is required to return the plan to the Commission with its recommendations on or before February 5, 2003.

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the House of Representatives rejects the Legislative Redistricting Plan for the reasons stated above, requests that the Commission reconvene and adopt a plan that conforms to the mandatory and discretionary criteria as set forth by the 1972 Constitutional Convention and state and federal law, and contends that the majority of the Commission has performed a constitutional injustice to the electorate and the elected legislators of Montana, that the plan has been conceived in a mean-spirited, partisan fashion that disregards the mandatory criteria as set forth by the 1972 Constitutional Convention and the discretionary criteria adopted by the Commission itself, that the Commission's exercise in political gerrymandering is unacceptable to the citizens of the state of Montana, and that the legislative redistricting plan must be redone.

BE IT FURTHER RESOLVED, that copies of the following documents be attached to this resolution:

(1) the tapes of the hearings of the Joint Select Committee on Districting and Apportionment held on January 20, 21, and 24, 2003;

(2) written testimony submitted on January 20, 21, and 24, 2003; and

(3) a minority report from the members of the Joint Select Committee on Districting and Apportionment who support the plan.

BE IT FURTHER RESOLVED, that a copy of this resolution be kept on file by the Secretary of State and that copies be sent by the Secretary of State to the presiding officer and each member of the Montana Districting and Apportionment Commission.

Senate Joint Resolutions

SENATE JOINT RESOLUTION NO. 1

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA REVISING AND ADOPTING THE JOINT LEGISLATIVE RULES.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the following Joint Rules be adopted:

JOINT RULES OF THE MONTANA SENATE AND HOUSE OF REPRESENTATIVES

CHAPTER 10

Administration

10-10. Time of meeting. Each house may order its time of meeting.

10-20. Legislative day — duration. (1) If either house is in session on a given day, that day constitutes a legislative day.

(2) A legislative day for a house ends either 24 hours after that house convenes for the day or at the time the house convenes for the following legislative day, whichever is earlier.

10-30. Schedules. The presiding officer of each house shall coordinate its schedule to accommodate the workload of the other house.

10-40. Adjournment — recess — meeting place. A house may not, without the consent of the other, adjourn or recess for more than 3 days or to any place other than that in which the two houses are sitting (Montana Constitution, Art. V, Sec. 10(5)).

10-50. Access of press. Subject to the presiding officer's discretion on issues of decorum and order, an accredited press representative may not be prohibited from photographing, televising, or recording a legislative meeting or hearing.

10-60. Conflict of interest. A member who has a personal or private interest in any measure or bill proposed or pending before the Legislature shall disclose the fact to the house to which the member belongs.

10-70. Telephone calls and internet access. (1) Long-distance telephone calls made by a member while the Legislature is in session or while the member is in travel status are considered official legislative business. These include but are not limited to calls made to constituencies, places of business, and family members. A member's access to the internet through a permissible server is a proper use of the state communication system if the use is for legislative business or is within the scope of permissible use of long-distance telephone calls.

(2) Session staff, including aides and interns, may use telephones for long-distance calls only if specifically authorized to do so by their legislative sponsor or supervisor. Sponsoring members and supervisors are accountable

for use of state telephones and internet access by their staff, including aides and interns, and may not authorize others to use state phones or state servers to access the internet.

(3) Permanent staff of the Legislature shall comply with executive branch rules applying to the use of state telephones.

10-80. Joint employees. The presiding officers of each house, acting together, shall:

(1) hire joint employees; and

(2) review a dispute or complaint involving the competency or decorum of a joint employee, and dismiss, suspend, or retain the employee.

10-85. Harassment prohibited. (1) Legislators and legislative employees have the right to work free of harassment on account of race, color, sex, culture, social origin or condition, or religious ideas when performing services in furtherance of legislative responsibilities, whether the offender is an employer, employee, legislator, lobbyist, or member of the public.

(2) A violation of this policy must be reported to the party leader in the appropriate house if the offended party is a legislator or to the presiding officer if the offended party is the party leader. The presiding officer may refer the matter to the rules committee of the applicable house, and the offender is subject to discipline or censure, as appropriate.

(3) If the offended party is an employee, the violation must be reported to the employee's supervisor or, if the offender is the supervisor, the report should be made to the chief clerk of the house of representatives or to the secretary of the senate, as appropriate.

(4) If the offended party is a supervisor, the violation must be reported to the chief clerk of the house of representatives or to the secretary of the senate, as appropriate.

(5) The chief clerk or the secretary shall report the violation to the presiding officer. The presiding officer may refer the matter to the rules committee. If the offender is an employee, the employee is subject to discipline or discharge.

10-90. Legislative interns. Qualifications for legislative interns are specified in Title 5, chapter 6, MCA.

10-100. Legislative Services Division. (1) The staff of the Legislative Services Division shall serve both houses as required.

(2) Staff members shall:

(a) maintain personnel files for legislative employees; and

(b) prepare payrolls for certification and signature by the presiding officer and prepare a monthly financial report.

10-120. Engrossing and enrolling staff — duties. (1) The Legislative Services Division shall provide all engrossing and enrolling staff.

(2) The duties of the engrossing and enrolling staff are:

(a) to engross or enroll any bill or resolution delivered to them within 48 hours after it has been received, unless further time is granted in writing by the presiding officer of the house in which the bill originated; and

(b) to correct clerical errors, absent the objection of the sponsor of a bill, resolution, or amendment and the Secretary of the Senate or the Chief Clerk of the House of Representatives in any bill or amendment originating in the house

by which the Clerk or Secretary is employed. The following kinds of clerical errors may be corrected:

(i) errors in spelling;

(ii) errors in numbering sections;

(iii) additions or deletions of underlining or lines through matter to be stricken;

(iv) material copied incorrectly from the Montana Code Annotated;

(v) errors in outlining or in internal references;

(vi) an error in a title caused by an amendment;

(vii) an error in a catchline caused by an amendment;

(viii) errors in references to the Montana Code Annotated; and

(ix) other nonconformities of an amendment with Bill Drafting Manual form.

(3) The engrossing and enrolling staff shall give notice in writing of the clerical correction to the Secretary of the Senate or the Chief Clerk of the House and to the sponsor of the bill or amendment. The sponsor shall sign the clerical form to acknowledge notification of the clerical correction. The signed form must be filed in the office of the amendments coordinator. A party receiving notice may register an objection to the correction by filing the objection in writing within 24 hours after receipt of the notice.

(4) If a committee is the sponsor of a bill or resolution, any committee member designated by the chair may be the principal sponsor for the purpose of this section. If a committee has proposed an amendment, the chair is the principal sponsor for the purpose of this section.

(5) For the purposes of this rule, "engrossing" means placing amendments in a bill.

10-130. Bills. (1) A bill draft request must be sponsored by a member of the Legislature.

(2) A bill must be:

(a) printed on paper with numbered lines;

(b) numbered at the foot of each page (except page 1);

(c) covered with a cover page of substantial material; and

(d) introduced.

(3) In a section amending an existing statute, matter to be stricken out must be indicated with a line through the words or part to be deleted, and new matter must be underlined.

(4) Sections of the Montana Code Annotated repealed or amended in a bill must be stated in the title.

(5) Introduced bills must be reproduced on white paper and distributed to members.

(6) An introduced bill may not be withdrawn.

10-140. Voting. (1) A bill may not become a law except by vote of the constitutionally required majority of all the members present and voting in each house (Montana Constitution, Art. V, Sec. 11(1)). On final passage, the vote must be taken by ayes and noes and the names of those voting entered on the journal (Montana Constitution, Art. V, Sec. 11(2)).

(2) Any vote in one house on a bill proposing an amendment to The Constitution of the State of Montana under circumstances in which there exists the mathematical possibility of obtaining the necessary two-thirds vote of the Legislature will cause the bill to progress as though it had received the majority vote.

10-150. Recording and publication of voting. (1) Every vote of each member on each substantive question in the Legislature, in any committee, or in Committee of the Whole must be recorded and made public. On final passage of any bill or joint resolution, the vote must be taken by ayes and noes and the names entered on the journal.

(2) (a) Roll call votes must be taken by ayes and noes and the names entered on the journal on adopting an adverse committee report and on those motions made in Committee of the Whole to:

(i) amend;

(ii) recommend passage or nonpassage;

(iii) recommend concurrence or nonconcurrence; or

(iv) indefinitely postpone.

(b) The text of all proposed amendments must be recorded.

(3) A roll call vote must be taken on nonsubstantive questions on the request of two members who may, on any vote, request that the ayes and noes be spread upon the journal.

(4) Roll call votes and other votes that are to be made public but are not specifically required to be spread upon the journal must be entered in the minutes of the appropriate committee or of the appropriate house (Montana Constitution, Art. V, Sec. 11(2)). A copy of the minutes must be filed with the Montana Historical Society. If electronically recorded minutes are kept for a committee, a written log conforming to section 2-3-212(2), MCA, must also be kept.

10-160. Journal. Each house shall:

(1) supply the Legislative Services Division with the contents of the daily journal to be stored on an automated system;

(2) examine its journal and order correction of any errors; and

(3) distribute a daily journal to all members.

10-170. Journals — authentication — availability. (1) The journal of the Senate must be authenticated by the signature of the President and the journal of the House of Representatives by the signature of the Speaker.

(2) The Legislative Services Division shall make the completed journals available to the public (sections 5-11-201 through 5-11-203, MCA).

CHAPTER 30

Committees

30-10. Committee chair. Except as provided in Joint Rule 30-50, the chair of the Senate committee is the chair of all joint committees.

30-20. Voting in joint committees. (1) Except for Rules Committees and conference committees, a member of a joint committee votes individually and not by the house to which the committee member belongs.

(2) Because the Rules Committees and conference committees are joint meetings of separate committees, in those committees the committees from each house vote separately. A majority of each committee shall agree before any action may be taken, unless otherwise specified by individual house rules.

30-30. Conference committees. (1) If either house requests a conference and appoints a committee for the purpose of discussing an amendment on which the two houses cannot agree, the other house shall appoint a committee for the same purpose. The time and place of all conference committee meetings must be agreed upon by their chairs and announced from the rostrum. This announcement is in order at any time. Failure to make this announcement does not affect the validity of the legislation being considered.

(2) A conference committee, having conferred, shall report to the respective houses the result of its conference. A conference committee shall confine itself to consideration of the disputed amendment. The committee may recommend:

(a) acceptance or rejection of each disputed amendment in its entirety; or

(b) further amendment of the disputed amendment.

(3) If either house requests a free conference committee and the other house concurs, appointments must be made in the same manner as above. A free conference committee may discuss a bill in its entirety and is not confined to a particular amendment.

30-40. Conference committee — enrolling. A conference committee report must give clerical instructions for a corrected reference bill and for enrolling by referring to the reference bill version.

30-50. Committee consideration of appropriation bills. (1) All bills providing for an appropriation of public money may first be considered by a joint committee composed of the members of the Senate Finance and Claims Committee and the House Appropriations Committee, and then by each separately.

(2) Meetings of the joint committee must be held upon call of the chair of the House Appropriations Committee, who is chair of the joint committee.

(3) The committee chair of the Senate Finance and Claims Committee or of the House Appropriations Committee may be a voting member in the joint subcommittees if:

(a) either house has fewer members on the joint subcommittees;

(b) the chair represents the house with fewer members on the subcommittees; and

(c) the chair is present for the vote.

30-60. Estimation of revenue. The Revenue and Transportation Interim Committee shall introduce a House joint resolution for the purpose of estimating revenue that may be available for appropriation by the Legislature.

30-70. Appointment of interim committees. As provided for in section 5-5-211(6), MCA, 50% of interim committees must be selected from the following legislative standing committees:

(1) Economic Affairs Interim Committee:

(a) Senate Agriculture, Livestock, and Irrigation Committee;

(b) Senate Business and Labor Committee;

(c) Senate Energy and Telecommunications Committee;

(d) Senate Finance and Claims Committee;

(e) House Agriculture Committee;

(f) House Business and Labor Committee;

(g) House Federal Relations, Energy, and Telecommunications Committee; and

(h) House Appropriations Committee;

(5) Revenue and Transportation Interim Committee:

(a) Senate Taxation Committee;

(b) Senate Highways and Transportation Committee;

(c) Senate Finance and Claims Committee;

(d) House Taxation Committee;

(e) House Transportation Committee; and

(f) House Appropriations Committee;

(6) State Administration and Veterans' Affairs Interim Committee:

(a) Senate State Administration Committee;

(b) Senate Finance and Claims Committee;

(c) House State Administration Committee; and

(d) House Appropriations Committee.

CHAPTER 40

Legislation

40-10. Amendment to state constitution. A bill must be used to propose an amendment to The Constitution of the State of Montana. The bill is not subject to the veto of the Governor (Montana Constitution, Art. VI, Sec. 10(1)).

40-20. Appropriation bills. (1) All appropriation bills must originate in the House of Representatives.

(2) Appropriation bills for the operation of the Legislature must be introduced by the chair of the House Appropriations Committee.

40-30. Effective dates. (1) Except as provided in subsections (2) through (4), a statute takes effect on October 1 following its passage and approval unless a different time is prescribed in the enacting legislation.

(2) A law appropriating public funds for a public purpose takes effect on July 1 following its passage and approval unless a different time is prescribed in the enacting legislation.

(3) A statute providing for the taxation or imposition of a fee on motor vehicles takes effect on the first day of January following its passage and approval unless a different time is prescribed in the enacting legislation.

(4) A joint resolution takes effect on its passage unless a different time is prescribed therein (sections 1-2-201 and 1-2-202, MCA).

40-40. Bill requests and introduction — limits and procedures. (1) Prior to a regular session, a person entitled to serve in that session, hereafter referred to as a "member", is entitled to request bill drafting services from the Legislative Services Division, subject to the following limits:

(a) Prior to 5 p.m. on December 5 preceding a regular session of the Legislature, a member may request an unlimited number of bills and resolutions to be prepared by the Legislative Services Division for introduction in the regular session.

(b) After 5 p.m. on December 5, a member may request no more than seven bills or resolutions to be prepared by the Legislative Services Division. At least five of the seven bills or resolutions must be requested before the regular session convenes.

(c) After December 5, a member, in the member's discretion, may grant to any other member any of the remaining bill or resolution requests the granting member has not used. A bill requested by an individual may not be transferred to another legislator but may be introduced by another legislator.

(d) These limitations on bill and resolution requests do not apply to:

(i) Code Commissioner bills;

(ii) a bill or resolution requested by a standing committee; and

(iii) a bill or resolution requested by a member at the request of a newly elected state official if so designated.

(2) The staff of the Legislative Services Division shall work on bill draft requests in the order received. After a member has requested the drafting of five bills, the sixth bill request and all subsequent bill requests of that member must receive a lower drafting priority than all other bills of members not in excess of five per member. The Speaker of the House, the minority leader of the House, the President of the Senate, and the minority leader of the Senate may each

direct the staff of the Legislative Services Division to assign a higher priority to 10 draft requests. The staff of the Legislative Services Division shall assign a higher priority to any bill draft request when jointly directed by:

(a) the President of the Senate, the minority leader of the Senate, the Speaker of the House, and the minority leader of the House; or

(b) the House and the Senate.

(3) Bills and resolutions must be reviewed by the staff of the Legislative Services Division prior to introduction for proper format, style, and legal form. The staff of the Legislative Services Division shall store bills on the automated bill drafting equipment and shall print and deliver them to the requesting members. The original bill cover must be signed to indicate review by the Legislative Services Division. A bill may not be introduced unless it is so signed.

(4) During a session, a bill may be introduced by endorsing it with the name of a member and presenting it to the Chief Clerk of the House of Representatives or the Secretary of the Senate. Bills or joint resolutions may be sponsored jointly by Senate and House members. A jointly sponsored bill must be introduced in the house in which the member whose name appears first on the bill is a member. The chief joint sponsor's name must appear immediately to the right of the first sponsor's name. In each session of the Legislature, bills, joint resolutions, and simple resolutions must be numbered consecutively in separate series in the order of their receipt.

(5) (a) Any bill proposed by an interim or statutory legislative committee or introduced by request of an administrative or executive agency or department must be so indicated by placing after the names of the sponsors the phrase "By Request of the..... (Name of committee or agency)". The phrase may not be added to an introduced bill and may not be placed on a bill whose subject matter was requested by an agency or statutory or interim committee prior to the convening of the session. Unless requested by an individual member, a bill draft request submitted at the request of an agency must be submitted to, reviewed by, and requested by the appropriate interim or statutory committee. Except as provided in subsection (5)(b), an agency or committee bill request must be preintroduced or the request is canceled. Preintroduction must occur no later than 5 p.m. on the fifth working day prior to the convening of a legislative session. Preintroduction is accomplished when the Legislative Services Division receives a signed preintroduction form.

(b) The preintroduction requirement does not apply to an office held by an elected official during the official's first year in that office or to bills requested by a joint select or joint special committee appointed prior to the convening of the legislative session to address a specific issue.

(6) Bills may be preintroduced, numbered, and reproduced prior to a legislative session by the staff of the Legislative Services Division. Actual signatures of persons entitled to serve as members in the ensuing session may be obtained on a consent form from the Legislative Services Division and the sponsor's name printed on the bill. Additional sponsors may be added on motion of the chief sponsor at any time prior to a standing committee report on the bill. These names will be forwarded to the Legislative Services Division to be included on the face of the bill following standing committee approval.

(2) A joint resolution may not be used for purposes of congratulating or recognizing an individual or group achievement. Recognition of individual or group achievements is handled on special orders of the day.

(3) Except as otherwise provided in these rules or The Constitution of the State of Montana, a joint resolution is treated in all respects as a bill.

(4) A copy of every joint resolution must be transmitted after adoption to the Secretary of State by the Secretary of the Senate or the Chief Clerk of the House.

40-65. Appropriation required for bills requesting interim studies. A bill including a request for an interim study may not be transmitted to the Governor unless the bill contains an appropriation sufficient to conduct the study. A fiscal note may be requested for a bill requesting an interim study if the appropriation does not appear to be sufficient.

40-70. Bills with same purpose — vetoes. (1) A bill may not be introduced or received in a house after that house, during that session, has finally rejected a bill designed to accomplish the same purpose, except with the approval of the Rules Committee of the house in which the bill is offered for introduction or reception.

(2) Failure to override a veto does not constitute final rejection.

40-80. Reproduction of full statute required. A statute may not be amended or its provisions extended by reference to its title only, but the statute section that is amended or extended must be reproduced or published at length.

40-90. Bills — original purpose. A law may not be passed except by bill. A bill may not be so altered or amended on its passage through either house as to change its original purpose (Montana Constitution, Art. V, Sec. 11(1)).

40-100. Fiscal notes. (1) As provided in Title 5, chapter 4, part 2, MCA, all bills reported out of a committee of the Legislature having a potential effect on the revenues, expenditures, or fiscal liability of the state, local governments, or public schools, except appropriation measures carrying specific dollar amounts, must include a fiscal note incorporating an estimate of the fiscal effect. The Legislative Services Division staff shall indicate at the top of each bill prepared for introduction that a fiscal note may be necessary under this rule. Fiscal notes must be requested by the presiding officer of either house, who, at the time of introduction or after adoption of substantive amendments to an introduced bill, shall determine the need for the note, based on the Legislative Services Division staff recommendation.

(2) Unless the chief sponsor directs otherwise, the Legislative Services Division shall make available an electronic copy of any bill for which it has been determined a fiscal note may be necessary to the Budget Director immediately after the bill has been prepared for introduction and delivered to the requesting member. The Budget Director may proceed with the preparation of a fiscal note in anticipation of a subsequent formal request. A bill with financial implications for a local government or school district must comply with subsection (4).

(3) The Budget Director, in cooperation with the governmental entity or entities affected by the bill, is responsible for the preparation of the fiscal note. Except as provided in subsection (4), the Budget Director shall return the fiscal note within 6 days unless further time is granted by the presiding officer or committee making the request, based upon a written statement from the Budget Director that additional time is necessary to properly prepare the note.

(4) (a) A bill that may require a local government or school district to perform an activity or provide a service or facility that requires the direct expenditure of additional funds without a specific means to finance the activity, service, or facility in violation of section 1-2-112 or 1-2-113, MCA, must be accompanied, at the time that the bill is presented for introduction, by an estimate of all direct and indirect fiscal impacts on the local government or school district. The estimate of the fiscal impacts must be prepared by the Budget Director in cooperation with a local government or school district affected by the bill.

(b) The Budget Director has 10 days to prepare the estimate. Upon completion of the estimate, the Budget Director shall submit it to the presiding officer and the chief sponsor of the bill.

(5) A completed fiscal note must be submitted by the Budget Director to the presiding officer who requested it. The presiding officer shall notify the bill's chief sponsor of the completed fiscal note and request the chief sponsor's signature. The chief sponsor has 1 legislative day after delivery to review the fiscal note and to discuss the findings with the Budget Director, if necessary. After the legislative day has elapsed, all fiscal notes must be reproduced and placed on the members' desks, either with or without the chief sponsor's signature.

(6) A fiscal note must, if possible, show in dollar amounts:

(a) the estimated increase or decrease in revenues or expenditures;

(b) costs that may be absorbed without additional funds; and

(c) long-range financial implications.

(7) The fiscal note may not include any comment or opinion relative to merits of the bill. However, technical or mechanical defects in the bill may be noted.

(8) A fiscal note also may be requested, through the presiding officer, on a bill and on an amended bill by:

(a) a committee considering the bill;

(b) a majority of the members of the house in which the bill is to be considered, at the time of second reading; or

(c) the chief sponsor.

(9) The Budget Director shall make available on request to any member of the Legislature all background information used in developing a fiscal note.

(10) If a bill requires a fiscal note, the bill may not be reported from a committee for second reading unless the bill is accompanied by the fiscal note.

40-110. Sponsor's fiscal note. (1) If a sponsor elects to request the preparation of a sponsor's fiscal note pursuant to section 5-4-204, MCA, the sponsor shall make the election as provided and return the completed sponsor's fiscal note to the presiding officer within 4 days of the election.

(2) The presiding officer may grant additional time to the sponsor for preparation of the sponsor's fiscal note.

(3) Upon receipt of the completed sponsor's fiscal note, the presiding officer shall refer it to the committee hearing the bill. If the bill is printed, the note must be identified as a sponsor's fiscal note, reproduced, and placed on the members' desks.

(4) The Legislative Services Division shall provide forms for preparation of sponsors' fiscal notes and shall print the completed sponsors' fiscal notes on a different color paper than the fiscal notes prepared by the Budget Director.

40-120. Substitute bills. (1) A committee may recommend that every clause in a bill be changed and that entirely new material be substituted so long as the new material is relevant to the title and subject of the original bill. The substitute bill is considered an amendment and not a new bill.

(2) The proper form of reporting a substitute bill by a committee is to propose amendments to strike out all of the material following the enacting clause, to

substitute the new material, and to recommend any necessary changes in the title of the bill.

(3) If a committee report is adopted that recommends a substitute for a bill originating in the other house, the substitute bill must be printed and reproduced.

40-130. Reading of bills. Prior to passage, a bill, other than a bill requested by a joint select or joint special committee as provided in 40-40(5)(b), must be read three times in the house in which it is under consideration. It may be read either by title or by summary of title.

40-140. Second reading — bill reproduction. (1) If the majority of a house adopts a recommendation for the passage of a bill originating in that house after the bill has been returned from a committee with amendments, the bill must be reproduced on yellow paper with all amendments incorporated into the copies.

(2) If a bill has been returned from a committee without amendments, only the first sheet must be reproduced on yellow paper, and the remainder of the text may be incorporated by reference to the preceding version of the entire bill.

(3) A bill requested by and heard by a joint select or joint special committee, as provided in 40-40(5)(b), may be referred directly to second reading. If the bill is passed by the house of origin, the bill must be transmitted to the other house, and if the bill was not amended, it may be placed on second reading without the need for referral to a committee.

40-150. Engrossing. (1) When a bill has been reported favorably by Committee of the Whole of the house in which it originated and the report has been adopted, the bill must be engrossed if the bill is amended. Committee of the Whole amendments must be included in the engrossed bill. If the bill is not amended, the bill must be sent to printing. The bill must be placed on the calendar for third reading on the legislative day after receipt.

(2) Copies of the engrossed bill to be distributed to members are reproduced on blue paper. If a bill is unamended by the Committee of the Whole and contains no clerical errors, it is not required to be reprinted. Only the first sheet must be reproduced on blue paper, with the remainder of the text incorporated by reference to the preceding version of the entire bill.

(3) If a bill is amended by a standing committee in the second house, the amendments must be included in a tan-colored bill and distributed in the second house for second reading consideration. If the bill is amended in Committee of the Whole, the amendments must be included in a salmon-colored reference bill and distributed in the second house for third reading. If the bill passes on third reading, copies of the reference bill must be distributed in the original house. The original house may request from the second house a specified number of copies of the amendments to be printed.

40-160. Enrolling. (1) When a bill has passed both houses, it must be enrolled. An original and two duplicate printed copies of the bill must be enrolled, free from all errors, with a margin of two inches at the top and one inch on each side. In sections amending existing statutes, new matter must be underlined and deleted matter must be shown as stricken.

(2) When the enrolling is completed, the bill must be examined by the sponsor.

(3) The correctly enrolled bill must be delivered to the presiding officer of the house in which the bill originated. The presiding officer shall sign the original and two copies of each bill not later than the next legislative day after it has been reported correctly enrolled, unless the bill is delivered on the last legislative day, in which case the presiding officer shall sign it that day. The fact of signing must be announced by the presiding officer and entered upon the journal no later than the next legislative day. At any time after the report of a bill correctly enrolled and before the signing, if a member signifies a desire to examine the bill, the member must be permitted to do so. The bill then must be transmitted to the other house where the same procedure must be followed.

(4) A bill that has passed both houses of the Legislature by the 90th day may be:

(a) enrolled;

(b) clerically corrected by the presiding officers, if necessary;

(c) signed by the presiding officers; and

(d) delivered to the Governor or, in the case of a bill proposing a referendum, to the Secretary of State, not later than 5 working days after the 90th legislative day.

(5) All journal entries authorized under this rule must be entered on the journal for the 90th day.

(6) The original and two copies signed by the presiding officer of each house must be presented to the Governor or the Secretary of State, as applicable, in return for a receipt. A report then must be made to the house of the day of the presentation, which must be entered on the journal.

(7) The original must be filed with the Secretary of State. Signed copies with chapter numbers assigned pursuant to section 5-11-204, MCA, must be filed with the Clerk of the Supreme Court and the Legislative Services Division.

40-170. Amendment by second house. (1) Amendments to a bill by the second house may not be further amended by the house in which the bill originated, but must be either accepted or rejected. A bill amended by the second house when the effect of the combined amendments is to return the bill to the form that the bill passed the house in which the bill originated is not considered to have been amended and need not be returned to the house of origin for acceptance or rejection of the amendments. If the amendments are rejected, a conference committee may be requested by the house in which the bill originated. If the amendments are accepted and the bill is of a type requiring more than a majority vote for passage, the bill again must be placed on third reading in the house of origin.

(2) The vote on third reading after concurrence in amendments is the vote of the house of origin that must be used to determine if the required number of votes has been cast.

40-180. Final action on a bill. (1) When a bill being heard by the second house has received its third reading or has been rejected, the second house shall transmit it as soon as possible to the original house with notice of the second house's action.

(2) A bill that reduces revenue and that contains a contingent voidness provision may not be transmitted to the Governor unless there is an identified corresponding reduction in an appropriation contained in the general appropriations act.

40-190. Transmittal of bills between houses. (1) Each house shall transmit to the other with any bill all relevant papers.

(2) When a House bill is transmitted to the Senate, the Secretary of the Senate shall give a dated receipt for the bill to the Chief Clerk of the House. When a Senate bill is transmitted to the House of Representatives, the Chief Clerk of the House shall give a dated receipt to the Secretary of the Senate.

40-200. Transmittal deadlines. (1) (a) A bill or amendment transmitted after the deadline established in this subsection (1) may be considered by the receiving house only upon approval of two-thirds of its members present and voting. If the receiving house does not so vote, the bill or amendment must be held pending in the house to which it was transmitted.

(b) (i) A bill, except for an appropriation bill, a revenue bill, or amendments considered by joint committee, must be transmitted from one house to the other on or before the 45th legislative day.

(ii) Amendments, except to appropriation bills and revenue bills, must be transmitted from one house to the other on or before the 73rd legislative day.

(c) (i) Revenue bills originating in the Senate must be transmitted to the House on or before the 71st legislative day.

(ii) House amendments to Senate revenue bills must be transmitted by the House to the Senate on or before the 82nd legislative day.

(iii) Revenue bills originating in the House must be transmitted to the Senate on or before the 71st legislative day.

(iv) Senate amendments to House revenue bills must be transmitted by the Senate to the House on or before the 82nd legislative day.

(v) A revenue bill is one that either increases or decreases revenue.

(d) (i) Appropriation bills and any bill implementing provisions of a general appropriation bill must be transmitted to the Senate on or before the 67th legislative day.

(ii) Senate amendments to appropriation bills must be transmitted by the Senate to the House on or before the 80th legislative day.

(2) (a) A joint resolution introduced for the purpose of estimating revenue available for appropriation by the Legislature must be transmitted no later than the 60th legislative day.

(b) Amendments to the resolutions must be transmitted to the house of origin no later than the 82nd legislative day.

(3) Bills repealing or directing the amendment or adoption of administrative rules and joint resolutions advising or requesting the repeal, amendment, or adoption of administrative rules may be transmitted at any time during a session.

(4) Interim study resolutions must be transmitted from one house to the other on or before the 85th legislative day.

40-210. Governor's veto. (1) Except as provided in 40-65 and 40-180, each bill passed by the Legislature must be submitted to the Governor for the Governor's signature. This does not apply to:

(a) bills proposing amendments to The Constitution of the State of Montana;

(b) bills ratifying proposed amendments to the United States Constitution;

(c) resolutions; and

(d) referendum measures of the Legislature.

(2) If the Governor does not sign or veto the bill within 10 days after its delivery, the bill becomes law.

(3) The Governor shall return a vetoed bill to the Legislature with a statement of reasons for the veto.

(4) If after receipt of a veto message, two-thirds of the members of each house present approve the bill, it becomes law.

(5) If the Legislature is not in session when the Governor vetoes a bill, the Governor shall return the bill with reasons for the veto to the Legislature as provided by law. The Legislature may be polled on a bill that it approved by two-thirds of the members present or it may be reconvened to reconsider any bill so vetoed (Montana Constitution, Art. VI, Sec. 10).

(6) The Governor may veto items in appropriation bills, and in these instances the procedure must be the same as upon veto of an entire bill (Montana Constitution, Art. VI, Sec. 10).

40-220. Response to Governor's veto. (1) When the presiding officer receives a veto message, the presiding officer shall read it to the members over the rostrum. After the reading, a member may move that the Governor's veto be overridden.

(2) A vote on the motion is determined by roll call. If two-thirds of the members present vote "aye", the veto is overridden. If two-thirds of the members present do not vote "aye", the veto is sustained.

40-230. Governor's recommendations for amendment. (1) The Governor may return any bill to the Legislature with recommendations for amendment. The Governor's recommendations for amendment must be considered first by the house in which the bill originated.

(2) If the Legislature passes the bill in accordance with the Governor's recommendations, it shall return the bill to the Governor for reconsideration. The Governor may not return a bill to the Legislature a second time for amendment.

(3) If the Governor returns a bill to the originating house with recommendations for amendment, the house shall reconsider the bill under its rules relating to amendments offered in Committee of the Whole.

(4) The bill then is subject to the following procedures:

(a) The originating house shall transmit to the second house, for consideration under its rules relating to amendments in Committee of the Whole, the bill and the originating house's approval or disapproval of the Governor's recommendations.

(b) If both houses approve the Governor's recommendations, the bill must be returned to the Governor for reconsideration.

(c) If both houses disapprove the Governor's recommendations, the bill must be returned to the Governor for reconsideration.

(d) If one house disapproves the Governor's recommendations and the other house approves, then either house may request a conference committee, which may be a free conference committee.

(i) If both houses adopt a conference committee report, the bill in accordance with the report must be returned to the Governor for reconsideration.

(ii) If a conference committee fails to reach agreement or if its report is not adopted by both houses, the Governor's recommendations must be considered not approved and the bill must be returned to the Governor for further consideration.

CHAPTER 60

Rules

60-10. Suspension of joint rule — change in rules. (1) A joint rule may be repealed or amended only with the concurrence of both houses, under the procedures adopted by each house for the repeal or amendment of its own rules.

(2) A joint rule governing the procedure for handling bills may be temporarily suspended by the consent of two-thirds of the members of either house, insofar as it applies to the house suspending it.

(3) Any Rules Committee report recommending a change in the joint rules must be referred to the other house. Any new rule or any change in the rules of either house must be transmitted to the other house for informational purposes.

(4) Upon adoption of any change, the Secretary of the Senate and the Chief Clerk of the House of Representatives shall provide the office of the Legislative Services Division:

(a) one copy of all motions or resolutions amending Senate, House, or joint rules; and

60-30. Publication and distribution of joint rules. (1) The Legislative Services Division shall codify and publish in one volume:

(a) the rules of the Senate;

(b) the rules of the House of Representatives; and

(c) the joint rules of the Senate and the House of Representatives.

(2) After the rules have been published, the Legislative Services Division shall distribute copies as directed by the Senate and the House of Representatives.

DUTY; AND URGING REFUNDING OF TUITION OR FEES PAID BY A MILITARY MEMBER WHO IS ORDERED TO ACTIVE DUTY.

WHEREAS, as commander-in-chief of the militia forces of Montana, except when forces are in the actual service of the United States, the Governor may call out any of the militia forces to aid in the execution of laws, suppress insurrection, repel invasion, or protect life and property in natural disasters or disasters caused by human activity; and

WHEREAS, from July 23, 2000, to September 7, 2001, 2,076 soldiers and aircrew members from the Montana Army and Air National Guard were called for state active duty in support of 17 wildland fire incidents in Montana; and

WHEREAS, since the terrorist attacks on September 11, 2001, the Montana Army and Air National Guard have mobilized and deployed more than 1,200 soldiers and aircrew members for active military duty, including state and federal active duty to support federal security operations and security operations for the National Emergency Managers Conference in Big Sky, Montana, to support Operation Enduring Freedom in Southeast Asia and stabilization forces in Bosnia, to support federal efforts for Operation Installation Security in Montana and support for Operation Airport Security by deploying soldiers and aircrew to protect Montana's 14 airports, to provide security for the 2002 Winter Olympics in Utah, and to support federal security efforts by providing soldiers at 10 points of embarkation along the Montana-Canadian border; and

That the Board of Regents be strongly urged to adopt a policy:

(1) granting a military leave of absence from education to a member of the Montana National Guard or other reserve component of the United States armed forces who is called or ordered to active duty other than active duty for training, including, in the case of a member of the Montana National Guard, a member who is called or ordered to active state duty as provided for in Article VI, section 13, of the Montana Constitution;

SENATE JOINT RESOLUTION NO. 4

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA REQUESTING DELISTING OF THE WOLF PURSUANT TO THE FEDERAL ENDANGERED SPECIES ACT OF 1973; REQUESTING THAT CONGRESS ESTABLISH AND FUND THE NORTHERN ROCKY MOUNTAIN GRIZZLY BEAR AND GRAY WOLF NATIONAL MANAGEMENT TRUST; REQUESTING THAT WOLF POPULATION MANAGEMENT METHODS INCLUDE NONLETHAL AND LETHAL METHODS; ENCOURAGING THE FISH, WILDLIFE, AND PARKS COMMISSION TO RECLASSIFY THE GRAY WOLF WHEN REGULATION OF THE WOLF POPULATION IS NEEDED; AND REQUESTING THE DEPARTMENT OF FISH, WILDLIFE, AND PARKS OR THE DEPARTMENT OF LIVESTOCK TO ADDRESS LIVESTOCK DEPREDATIONS EXPEDITIOUSLY.

WHEREAS, since 1973, the gray wolf has been protected in Montana, Idaho, and Wyoming under the federal Endangered Species Act of 1973; and

WHEREAS, the gray wolf has been listed as an endangered species pursuant to Montana's Nongame and Endangered Species Conservation Act since 1975; and

WHEREAS, through natural recovery in Montana beginning about 1982 and through reintroduction of wolves by the federal government to Idaho and Wyoming in 1995 and 1996, the number of wolves has increased dramatically in Montana, Idaho, and Wyoming; and

WHEREAS, the U.S. Fish and Wildlife Service determined that the delisting process would be initiated when a total of 30 breeding pairs of wolves, with an equitable distribution throughout the states of Montana, Idaho, and Wyoming, has been documented for 3 successive years; and

WHEREAS, at least 30 breeding pairs were documented in 2000, 2001, and 2002; and

WHEREAS, some wolf packs are causing serious problems with depredations upon livestock and pets in certain areas; and

WHEREAS, wolves, mountain lions, bears, and coyotes have collectively had a major impact on big game populations in some areas; and

WHEREAS, many Montanans feel that it is time for the state to take over management of the gray wolf from the federal government; and

WHEREAS, the federal government will continue to manage gray wolves until gray wolves are delisted under the federal Endangered Species Act and the state has an approved management plan and an adequate regulatory framework; and

WHEREAS, the 2001 Montana Legislature passed a law establishing an adequate regulatory framework for management of the gray wolf upon delisting by the federal government; and

WHEREAS, Montana has had a citizen Wolf Management Advisory Council, appointed by the Governor, working to develop a management plan, and that Council held hearings throughout Montana in 2002; and

WHEREAS, all Americans should share in the costs of management of species listed under the federal Endangered Species Act.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the U.S. Fish and Wildlife Service recognize that Montana has a viable management plan and is ready to assume management responsibility for the gray wolf and that the U.S. Fish and Wildlife Service delist the gray wolf as quickly as possible.

BE IT FURTHER RESOLVED, that federal funding be provided to Montana from a permanently established federal trust set up for future management purposes, not from annual appropriations that may be eliminated in the future.

BE IT FURTHER RESOLVED, that the U.S. Congress establish and provide funding for the Northern Rocky Mountain Grizzly Bear and Gray Wolf National Management Trust, proposed by the Governors of Montana, Idaho, and Wyoming.

BE IT FURTHER RESOLVED, that wolf population management in Montana include the full range of management tools, from nonlethal to lethal.

BE IT FURTHER RESOLVED, that the Montana Fish, Wildlife, and Parks Commission be encouraged to reclassify the wolf as a big game animal or a furbearer, with regulated public harvest, when regulation of the wolf population is needed.

BE IT FURTHER RESOLVED, that upon delisting of the gray wolf pursuant to the federal Endangered Species Act, the Montana Department of Fish, Wildlife, and Parks or the Montana Department of Livestock address livestock depredations caused by wolves as expeditiously as possible, using lethal wolf control when necessary.

SENATE JOINT RESOLUTION NO. 7

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA EXPRESSING SUPPORT FOR THE NATIONAL FOREST COUNTY PARTNERSHIP RESTORATION PROGRAM ESTABLISHED BY THE 106TH CONGRESS FOR IMPLEMENTATION IN NATIONAL FORESTS IN MONTANA AND OTHER WESTERN STATES.

WHEREAS, the Legislature recognizes the existence of a present and continuing threat to the lives and property of citizens of the western states of the United States and to the watersheds and multiple values contained in the forest lands of the country caused by the extreme risk of catastrophic wildfires and changed forest ecosystem conditions; and

WHEREAS, it is critical to recognize that forests are dynamic in nature; that they exhibit a variety of growth characteristics depending on species and ecological setting; that wildfire is a natural component of the evolutionary history of most western forests; that all the values of the forest, not only the human components, are important; that the health of the forest determines its susceptibility to fire and other destructive agents such as insects and disease; that continuing increments of forest growth over removals will add to excessive fuel loading and increase the fire risk; that removal of excess wood by using best forest management practices and prescribed fire decreases the probability of destructive wildfires; and that the value of excess woody material removed should help offset the expense of treatment; and

WHEREAS, in 2001, the United States Congress, with guidance from the Western Governors' Association, enacted the Department of the Interior and Related Agencies Appropriations Act (Public Law 106-291), which calls for progressive new local government and federal agency forest restoration partnership programs to reduce fire risk and restore watershed health, especially in western conifer forests; and

WHEREAS, the developing proposal for a National Forest County Partnership Restoration Program includes national forests in Montana and other western states and is designed to fully implement the direction from Congress and the Western Governors' Association; and

WHEREAS, county-led restoration programs on western public lands have focused generally on small demonstration projects to restore terrestrial wildlife habitats, protect and improve aquatic and riparian areas, restore watershed health, and reduce fire risk; and

WHEREAS, elevating the county efforts to the landscape level of western national forests would represent a powerful strategy to respond to existing critical restoration needs; and

WHEREAS, the National Forest County Partnership Restoration Program is the first effort to create a fully operational model of a county government and federal land manager partnership on a multiple national forest scale; and

WHEREAS, the program is specifically designed to accomplish the following:

(1) expand the operating scale of local government and federal land management restoration partnerships to a multistate, multiagency land base;

(2) utilize best science and a collaborative process to evaluate and restore high-risk areas of western forests;

(3) address land management planning problems of multiagency ownerships at landscape levels;

(4) improve local leadership and collaborative processes addressing federal land management programs;

(5) enhance coordination between local, federal, and tribal program jurisdictions and processes;

(6) reduce conflicts in treatment of biophysical and socioeconomic resources and address multiagency issues in planning and management, especially regarding the treatment of certain species;

(7) reduce the current lengthy periods needed for review, approval, and implementation activities;

(8) improve treatment of economic and social infrastructure issues related to both traditional and new industry as well as local custom and culture;

(9) consider treatment of fuel based on desired future forest conditions regardless of size or age;

(10) use a systematic, diagnostic approach to evaluate forest health problems;

(11) apply appropriate silvicultural methods that replicate natural forest processes;

(12) account for the cost of maintaining forest health using long-term risk analysis;

(13) consider forest products and materials to offset costs for forest health measures through development of private market end users for forest products and materials; and

(14) improve information technology for managing resources and informing the public; and

WHEREAS, the National Forest County Partnership Restoration Program for western forests is proposed for the period 2003 through 2014 and with appropriate federal funding, it is anticipated that the forest acreage most at risk to fire and forest health can be restored through this period.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Legislature recognizes the critical roles that county governments play as partners to protect the health, welfare, and safety of their citizens and related public resources and, therefore, fully supports the National Forest County Partnership Restoration Program and the restoration and preservation of national forests in Montana and other western states.

BE IT FURTHER RESOLVED, that copies of this resolution be sent to the Governor of Montana, the Western Governors' Association, the Undersecretary for Natural Resources and Environment of the United States Department of Agriculture, the Chief of the United States Forest Service, and the Montana Congressional Delegation.

Adopted April 5, 2003

SENATE JOINT RESOLUTION NO. 8

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA RECOMMENDING THAT IN RECOGNITION OF THE IMPORTANCE OF RESPONDING TO THE DESIRES AND NEEDS OF A MAJORITY OF MONTANA'S FOREIGN GRAIN CUSTOMERS, GENETICALLY ENGINEERED WHEAT OR BARLEY BE GROWN IN MONTANA ONLY WHEN THERE IS ACCEPTANCE OF THESE GENETICALLY ENGINEERED CROPS BY A MAJORITY OF MONTANA'S FOREIGN MARKETS; RECOMMENDING THAT RESEARCH

OF GENETICALLY ENGINEERED CROPS SHOULD CONTINUE; AND ENCOURAGING REGULATORY AGENCIES TO RECOGNIZE THEIR RESPONSIBILITY AS GENETICALLY ENGINEERED CROPS ARE INTRODUCED.

WHEREAS, Montana's wheat and barley industry is a central and vital component of our state's economy; and

WHEREAS, Montana's export markets have recognized Montana wheat and barley to be among the finest in the world; and

WHEREAS, Montana has come to rely on these export customers to market a majority of Montana's grain to Pacific Rim countries; and

WHEREAS, a majority of these customers have not yet accepted genetically engineered grains; and

WHEREAS, the Legislature recognizes the importance of maintaining these foreign markets.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

(1) That the introduction of genetically engineered wheat and barley for commercial production must be carefully timed so that it occurs only when there is acceptance of these crops by Montana's major customers.

(2) That research should continue in:

(a) development of crops and crop characteristics that appeal to the needs of the customer;

(b) development of crops and crop characteristics that are economically beneficial to the producer;

(c) development of safeguards to reduce outcrossing of genetically engineered crops with nongenetically engineered crops and weeds; and

(d) development of systems to reduce potential mixing of genetically engineered crops with nongenetically engineered crops.

(3) That regulatory agencies are strongly encouraged to recognize the magnitude of the responsibility that they have in the proper release of genetically engineered crops and do everything in their power to safeguard Montana's ability to meet the needs of their grain customers.

BE IT FURTHER RESOLVED, that the Secretary of State send a copy of this resolution to the United States Department of Agriculture, the United States Animal and Plant Health Inspection Service, the United States Federal Drug Administration, the United States Environmental Protection Agency, the Montana Department of Agriculture, and the Montana Congressional Delegation.

SENATE JOINT RESOLUTION NO. 9

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA URGING THE MEMBERS OF THE MONTANA CONGRESSIONAL DELEGATION TO INTRODUCE AND SUPPORT LEGISLATION IN THE U.S. CONGRESS TO ESTABLISH A MINIMUM LAKE LEVEL IN FORT PECK RESERVOIR.

WHEREAS, the sport fishery in Fort Peck Reservoir is of vital importance to the economy of northeast Montana and northwest North Dakota; and

WHEREAS, the State of Montana and the federal government have spent about $3 million to date on a warm water hatchery at Fort Peck to improve the warm water fishery in Fort Peck Reservoir and other state waters, and private donors have contributed an additional $200,000 toward the hatchery project; and

WHEREAS, pool elevations that are below 2,225 feet above mean sea level eliminate significant amounts of spawning and rearing habitat, thereby reducing fish numbers and greatly impairing recreational access to the reservoir, the combination of which is very detrimental to the local and regional economy; and

WHEREAS, the U.S. Army Corps of Engineers' policy regarding lake levels in Fort Peck Reservoir is devastating to fisheries above and below Fort Peck Dam and to the area economy; and

WHEREAS, a higher pool level and a more conservative approach to operating Fort Peck Reservoir will more equitably spread the effects of prolonged drought and allow for healthier river flows below Fort Peck Dam during drought; and

WHEREAS, seven of the eight states represented on the Missouri River Basin Association have consistently supported a higher level of water conservation during periods of drought.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the members of the Montana Congressional Delegation be urged to introduce legislation in the U.S. Congress as promptly as possible to set a minimum lake level of 2,225 feet above mean sea level in Fort Peck Reservoir, except when necessary to protect fish and wildlife and their habitat in the river reach between Fort Peck Dam and Lake Sakakawea, and to use the Delegation's combined efforts in support of the legislation.

BE IT FURTHER RESOLVED, that the Secretary of State send copies of this resolution to the members of the Montana Congressional Delegation.

Adopted April 2, 2003

SENATE JOINT RESOLUTION NO. 11

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA TO REQUEST A STUDY OF THE PROBLEMS OF ALCOHOL AND DRUG ABUSE AND OF PREVENTION, EARLY INTERVENTION, AND TREATMENT.

WHEREAS, there are statewide multifaceted problems of alcohol and drug abuse and a lack of sufficient prevention, intervention, and treatment solutions to the problems; and

WHEREAS, methamphetamine abuse exemplifies the many issues involved, including extreme addiction, the dangers to people created by the production of drugs, such as ingredients and residues, and the broad range of public health issues, ranging from child endangerment and abandonment to shared needles, self-mutilation, and dental loss; and

WHEREAS, addictions involving alcohol, drugs, tobacco, and gambling often overlap for the same person and may interact with mental illness or other forms of dependency; and

WHEREAS, prevention and treatment programs need to take into consideration the holistic picture of the effects of codependency and co-occurring disorders, behaviors, and addictions on a person's mental health; and

WHEREAS, prevention and treatment issues must include affordability and availability of all effective treatment protocols, including in-state inpatient treatment; and

WHEREAS, once prevention and early intervention options are exhausted, options for treatment at all stages of the criminal justice system, including diversionary, preincarceration, sentencing, and probation and parole options, must be explored; and

WHEREAS, an effective review of many of these problems has been undertaken by Governor Martz's and Attorney General McGrath's Alcohol, Tobacco, and Other Drug Control Policy Task Force resulting in numerous proposals to the 58th Legislature, including a proposal for a drug czar or advisory committee; and

WHEREAS, effective solutions will have a price tag, but the consequences of not implementing prevention and early intervention efforts in the areas of crime, health and welfare of the workforce, and abuse, neglect, and dependence problems for children will be a higher cost to society in the future.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Legislative Council be requested to designate an appropriate interim committee, pursuant to section 5-5-217, MCA, or direct sufficient staff resources to:

(1) review the progress made by the Governor's and Attorney General's Alcohol, Tobacco, and Other Drug Control Policy Task Force and the proposals that are enacted by the 58th Legislature; and

(2) continue to identify the issues and to develop proposals for a coordinated, cooperative effort by federal, state, and local levels of government and the private sector to implement prevention and early intervention efforts, to develop and use alternatives to incarceration, and to provide appropriate treatment opportunities at the most effective time and in the most cost-effective and efficient manner.

BE IT FURTHER RESOLVED, that the interim committee is requested to work with representatives of local government, law enforcement, prosecution and defense counsel, the judiciary, corrections, probation and parole, the medical and treatment communities, those involved in public education and outreach, and with other interested persons in its research and development of recommendations.

BE IT FURTHER RESOLVED, that if the study is assigned to staff, any findings or conclusions be presented to and reviewed by an appropriate committee designated by the Legislative Council.

BE IT FURTHER RESOLVED, that all aspects of the study, including presentation and review requirements, be concluded prior to September 15, 2004.

BE IT FURTHER RESOLVED, that the final results of the study, including any findings, conclusions, comments, or recommendations of the appropriate committee, be reported to the 59th Legislature.

WHEREAS, section 50-60-201, MCA, establishes the purpose of the state building code; and

WHEREAS, section 50-60-201(6), MCA, provides that the state building code must be designed to "encourage efficiencies of design and insulation that enable buildings to be heated in the winter with the least possible quantities of energy and to be kept cool in the summer without air conditioning equipment or with the least possible use of the equipment"; and

WHEREAS, section 50-60-201(7), MCA, provides that the state building code must be designed to "encourage efficiencies and criteria directed toward design of building envelopes with high thermal resistance and low air leakage and toward requiring practices in the design and selection of mechanical, electrical, and illumination systems that promote the efficient use of energy"; and

WHEREAS, Montana's energy codes have not been updated since 1995; and

WHEREAS, recent advancements in technologies and techniques for creating energy-efficient buildings warrant a fresh look at Montana's policies and practices; and

WHEREAS, other states in the region and nation have recently adopted new energy codes to take advantage of these advancements and to conform to new industry-accepted standards; and

WHEREAS, the Environmental Quality Council has historically demonstrated the ability to facilitate constructive, collaborative solutions by bringing together diverse constituencies in order to address energy efficiency and state building codes issues.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Legislative Council be requested to designate an appropriate interim committee or statutory committee, pursuant to section 5-5-217, MCA, or direct sufficient staff resources to:

(1) evaluate the state's current energy-efficient building policies and practices;

(2) investigate options for improving the energy-efficient building codes and practices in Montana; and

(3) investigate and evaluate other options for improving energy efficiency and conservation practices.

BE IT FURTHER RESOLVED, that the study consider:

(1) the results of recent state and regional studies on the characteristics of nonresidential and residential building practices;

(2) recent studies quantifying energy conservation potential in the state and region.

BE IT FURTHER RESOLVED, that, if the study is assigned to staff, any findings or conclusions be presented to and reviewed by an appropriate committee designated by the Legislative Council.

BE IT FURTHER RESOLVED, that all aspects of the study, including presentation and review requirements and any educational materials, be concluded prior to September 15, 2004.

WHEREAS, illness from tremolite-series asbestos is a problem that extends beyond Montana to national and international levels but that afflicts Libby, Montana, in particular, a town that has the largest identified population of people suffering from diseases associated with exposure to tremolite-series asbestos; and

WHEREAS, studies reviewed by the U.S. Agency for Toxic Substances and Disease Registry identified asbestiform fibers from Libby, Montana, in concentrations higher than in samples from South Carolina and comparisons of certain samples from Virginia and South Africa also indicated reasons for concern about the asbestos-related samples from Montana; and

WHEREAS, further study of tremolite-series asbestos is important for an understanding of the health implications regarding proximity to vermiculite mines and waste products, including tremolite-series asbestos, from mining and milling vermiculite; and

WHEREAS, scientists from the U.S. Environmental Protection Agency and the U.S. Agency for Toxic Substances and Disease Registry have begun studying the residents of Libby in relation to their exposure to vermiculite that was mined and milled in the area between 1923 and 1990; and

WHEREAS, when the Governor in 2002 named Libby, Montana, as the state's top priority for hazardous waste cleanup, thus making it eligible for an expedited listing on a Superfund national priorities list, this was the second

time in 20 years that the community had received Superfund status, with the first time in 1983 involving a 20-plus-year study and abatement process regarding ground water contamination; and

WHEREAS, every dark cloud is said to have a silver lining and for the community of Libby the opportunity exists to participate in indepth studies related to the effects on human health of mining and milling of vermiculite and of exposure to byproducts, such as tremolite-series asbestos, as well as in studies on the possible treatments of diseases related to exposure to tremolite-series asbestos; and

WHEREAS, research is best performed in a community where people suffering from different stages of diseases related to exposure to tremolite-series asbestos may be studied in the surroundings associated with the exposure; and

WHEREAS, the existing medical community of Libby, Montana, includes a state-of-the-art hospital and medical personnel with the experience and expertise to address the diagnoses and treatment of asbestos-related diseases; and

WHEREAS, telecommunications systems allow researchers in Libby, Montana, to confer with specialists anywhere in the world; and

WHEREAS, the community of Libby is in contact with specialists nationwide, as well as specialists at the University of Montana in Missoula, at Montana State University in Bozeman, and at state agencies in Helena; and

WHEREAS, the community of Libby, Montana, has a sociopolitical structure with the experience and expertise for addressing asbestos-related issues and a skilled and available workforce for constructing a center in Libby for the study of asbestos issues and for conducting research into diseases associated with exposure to tremolite-series asbestos; and

WHEREAS, Libby, Montana, is the most logical location in the world for the construction of a center to research asbestos issues and the medical treatment of diseases related to tremolite-series asbestos; and

WHEREAS, Libby, Montana, is in the process of acquiring land to accommodate a facility for the study of asbestos issues and treatment of diseases associated with tremolite-series asbestos; and

WHEREAS, research, study, and medical care are welcomed and fully supported by the greater Libby community.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Legislature urge the Montana Congressional Delegation to pursue funding options from federal sources to develop, build, and maintain in Libby, Montana, a center for the study of asbestos issues and the treatment of illnesses related to tremolite-series asbestos.

BE IT FURTHER RESOLVED, that the Secretary of State send copies of this resolution to the President of the United States, to members of the Montana Congressional Delegation, and to all other members of the U.S. Congress.

WHEREAS, the beauty of Montana's great outdoors and the diversity of Montana's recreational opportunities are known worldwide, providing a source of pride for the people of the state and making Montana a destination for visitors and recreationists; and

WHEREAS, each region of the state possesses its own unique features and beauty, worthy of appreciation and visitation; and

WHEREAS, state parks provide residents and visitors with the opportunity to experience some of the state's more renowned areas, sparking interest in the state's diverse features and bringing revenue to local economies; and

WHEREAS, state parks have been established in every administrative region of the state except region 6 in northeastern Montana; and

WHEREAS, the 2003 Legislature is making an effort to take care of Montana's state parks by providing funding sources for the establishment and ongoing maintenance of parks; and

WHEREAS, the Department of Fish, Wildlife, and Parks is presently involved in an effort to acquire property at Brush Lake in region 6 in order to establish the region's first state park; and

WHEREAS, Brush Lake offers unique natural attributes worthy of preservation for public recreational use and scientific study and interpretation; and

WHEREAS, the Legislature considers it an appropriate recognition of the region's unique beauty and a proper expenditure of state funds to establish a state park at Brush Lake in region 6, as soon as funding becomes available.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Department of Fish, Wildlife, and Parks consider the establishment of the first state park in region 6 at Brush Lake a top priority.

SENATE JOINT RESOLUTION NO. 16

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA REQUESTING THAT CONGRESS REVISE THE ENDANGERED SPECIES ACT TO ALLOW HAZING OF CARNIVORES LISTED AS AN ENDANGERED OR THREATENED SPECIES; AND URGING THE STATE ATTORNEY

GENERAL TO JOIN THE STATE IN ANY LEGAL ACTION BROUGHT TO ALLOW THE DEFENSE OF PROPERTY AGAINST LISTED PREDATORS.

WHEREAS, the grizzly bear and the gray wolf have been declared by the U.S. Fish and Wildlife Service to be endangered or threatened species, notwithstanding plentiful numbers of grizzly bears and wolves in Montana; and

WHEREAS, 16 U.S.C. 1532 defines the term "take" to include to harass or attempt to harass an endangered or threatened species; and

WHEREAS, 50 CFR 17.3 defines "harass" in the definition of "take" as "an intentional or negligent act or omission which creates the likelihood of injury to wildlife by annoying it to such an extent as to significantly disrupt normal behavioral patterns which include, but are not limited to, breeding, feeding, or sheltering"; and

WHEREAS, in Babbitt v. Sweet Home Chapter of Communities for a Great Oregon, 515 U.S. 687 (1995), the United States Supreme Court noted that several of the words in the definition of "take", including "harass", refer to actions or effects that do not require direct applications of force; and

WHEREAS, 16 U.S.C. 1535 directs the Secretary of the Interior to cooperate with the states to the maximum extent practicable in administering the Endangered Species Act; and

WHEREAS, even though 16 U.S.C. 1540(a)(3) provides that a civil penalty may not be imposed on a defendant who kills an endangered or threatened species in self-defense or in the defense of others, it is unreasonable to expect a property owner to stand idly by and allow an endangered or threatened species to threaten and kill livestock or pets or threaten family members; and

WHEREAS, in Christy v. Hodel, 857 F.2d 1324 (9th Cir. 1988), it was held that the Endangered Species Act and the grizzly bear regulations as applied to prevent owners of livestock from killing grizzly bears to protect their sheep against imminent destruction did not deny them equal protection of the laws and did not constitute a "taking" of the sheep without just compensation; and

WHEREAS, the definition of "take" in 16 U.S.C. 1532 was not written in contemplation of large carnivores being included as endangered or threatened species; and

WHEREAS, a property owner should be able to haze wolves and grizzly bears away from livestock and residential buildings without fear and if necessary to kill the marauding carnivores to protect private property; and

WHEREAS, unchecked predation by carnivores listed as endangered or threatened species will almost certainly impact wildlife resources, livestock, pets, and outdoor recreation; and

WHEREAS, these negative impacts will also have a profound economic and social consequence for Montana people and communities.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Governor, the Montana Congressional Delegation, and the U.S. Secretary of the Interior be strongly urged to seek a revision to the Endangered Species Act allowing reasonable efforts by property owners to protect property and people against carnivores listed as endangered or threatened species.

BE IT FURTHER RESOLVED, that the Montana Attorney General be urged to join the state in any lawsuit establishing or clarifying the right of

Montana citizens to protect their property and their lives against carnivores listed as endangered or threatened species.

BE IT FURTHER RESOLVED, that the Montana Department of Fish, Wildlife, and Parks continue its efforts to encourage the U.S. Fish and Wildlife Service to interpret "normal behavioral patterns" in a way that does not include behavior that threatens livestock, pets, or humans.

BE IT FURTHER RESOLVED, that copies of this resolution be sent by the Secretary of State to the Governor, the Montana Congressional Delegation, the Montana Attorney General, and the U.S. Secretary of the Interior.

SENATE JOINT RESOLUTION NO. 17

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA REQUESTING THE LEGISLATIVE COUNCIL TO DESIGNATE AN APPROPRIATE INTERIM COMMITTEE OR DIRECT SUFFICIENT STAFF RESOURCES TO STUDY METHODS OF SIMPLIFYING LAWS RELATED TO WORKERS' COMPENSATION AND OCCUPATIONAL DISEASES.

WHEREAS, Montana's workers' compensation laws were first enacted in 1915 and have been amended in virtually every legislative session since that time; and

WHEREAS, the significant impact on Montana's economy from workers' compensation premiums and benefits often overshadows the economic costs of understanding arcane provisions of a patchwork of workers' compensation laws; and

WHEREAS, the Montana Legislature has the ability to simplify and clarify regulations by directing a study committee to review, in conjunction with administrative rules, all of the provisions related to administration of the Workers' Compensation Act and the Occupational Disease Act of Montana, excluding benefits; and

WHEREAS, the Montana Legislature believes that the traditional workers' compensation system of compensating injured workers without regard to fault should continue into the future; and

WHEREAS, terms and concepts, such as which employers, employees, and independent contractors are covered by the workers' compensation laws, have become confusing in current statutes; and

WHEREAS, the list of exempted employments of current law may be discriminatory and may undermine a public policy that calls for all employment to be covered by the principles of workers' compensation coverage; and

WHEREAS, Montana employers and employees deserve to have workers' compensation laws that are clear, concise, and understandable.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Legislative Council be requested to designate an appropriate interim committee, pursuant to section 5-5-217, MCA, or direct sufficient staff resources to examine the workers' compensation laws and related administrative rules of the State of Montana and provide any suggested

changes for laws to clarify the language and intent for all who are governed by workers' compensation laws of this state.

BE IT FURTHER RESOLVED, that, if the study is assigned to staff, any findings or conclusions be presented to and reviewed by an appropriate committee designated by the Legislative Council.

BE IT FURTHER RESOLVED, that all aspects of the study, including presentation and review requirements, be concluded prior to September 15, 2004.

BE IT FURTHER RESOLVED, that the final results of the study, including any findings, conclusions, comments, or recommendations of the appropriate committee, be reported to the 59th Legislature.

WHEREAS, there is a network of Child Care Resource and Referral Programs in Montana to assist parents in locating and paying for child care and to train child-care workers; and

WHEREAS, parents should have choice in the type of child care that their children receive, including home care; and

WHEREAS, child care for all Montana children should be accessible, affordable, and of high quality; and

WHEREAS, economic self-sufficiency is directly dependent upon access to quality, affordable child care while parents are at work or in school.

SENATE JOINT RESOLUTION NO. 22

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA SHOWING

CONDITIONAL SUPPORT FOR DRILLING FOR OIL AND GAS IN THE COASTAL PLAIN OF THE ARCTIC NATIONAL WILDLIFE REFUGE; AND PRIORITIZING THE IMPORTANCE OF TURNING TO ALTERNATIVE FUELS, ALTERNATIVE ENERGY SOURCES, TECHNOLOGY IMPROVEMENTS, AND IMPROVEMENTS IN EFFICIENCY AS MEANS OF ENSURING AMERICA'S LONG-TERM ENERGY INDEPENDENCE.

WHEREAS, stable, affordable energy is vital to the economy and security of the people of the State of Montana and the United States of America; and

WHEREAS, the United States has become increasingly dependent on foreign supplies of crude oil to meet our energy needs and is now importing more than 55% of the nation's crude oil needs; and

WHEREAS, dependence on imports is rising and could exceed 65% by the year 2020 due to growth in demand and falling production; and

WHEREAS, the recent events in Venezuela and other international problems have caused uncertainty in the commodities markets about the future supply of oil; and

WHEREAS, these among other factors have resulted in an increase in the price of crude oil to over $33 per barrel and, with crude oil costs being the largest component of the retail price of petroleum products, has resulted in a significant increase in the national average price of gasoline and has similarly increased the price of other petroleum products vital to the economy of the United States and the lives of its citizens; and

WHEREAS, the U.S. Department of Energy estimates the Coastal Plain of the Arctic National Wildlife Refuge (ANWR) contains between 5.7 and 16 billion barrels of recoverable oil; and

WHEREAS, production from the Coastal Plain of ANWR could produce up to 1.5 million barrels of oil per day for at least 25 years, which is comparable to the volumes the United States is expected to import from Iraq for the next 25 years and which represents nearly 25% of current daily U.S. production, and could save $14 billion dollars per year in oil imports; and

WHEREAS, ANWR consists of 19 million acres, of which 8 million are classified as wilderness, 9.5 million are designated as national refuge lands, and 8% or 1.5 million acres comprise the Coastal Plain for which the potential for oil and gas production was acknowledged by Congress in the Alaska National Interest Lands Conservation Act of 1980; and

WHEREAS, oil and natural gas development and wildlife are successfully coexisting and advanced technology has greatly reduced the "footprint" of Arctic oil development; and

WHEREAS, the Alaska State AFL-CIO and the Alaska Federation of Natives support responsible oil and gas development on the Coastal Plain of ANWR; and

WHEREAS, environmentally responsible exploration, development, and production of oil on the Coastal Plain of ANWR will provide incomes to federal and state governments and generate jobs and business opportunities for residents in all 50 states; and

WHEREAS, the people of Montana, while in general and qualified support of continued development of fossil fuels, recognize that further development of fossil fuels addresses the short-term needs of our nation's energy independence; and

WHEREAS, the people of Montana agree with the comments of President Bush during the 2003 State of the Union Address that the development of alternative energy sources, which would make America truly independent, is the preferred path for our country; and

WHEREAS, the people of Montana recognize that development of alternative energy sources, including solar, hydrogen, wind, fuel cell, ethanol, and biodiesel fuels, constitutes a preferred alternative to long-term energy development; and

WHEREAS, the people of Montana understand that development of certain alternative energy sources, such as ethanol and biodiesel fuel, would enhance the economic and agricultural base of our great state; and

WHEREAS, the people of Montana further acknowledge that the efficient use of our existing energy resources is a critical and strategic priority in order to ensure our energy independence; and

WHEREAS, America has demonstrated the ability to dramatically reduce the energy consumption in past times of national crisis through fuel efficiency standards for automobiles, installation of industrial efficiency measures, and a conservation ethic among consumers.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

(1) That the Congress of the United States be urged to take action to stabilize domestic crude oil supplies through facilitating additional production, to decrease our nation's need for foreign oil from undependable sources, to increase federal and state revenue from oil and gas leasing, and, subject to prioritizing those efforts described in subsection (2), to support the economy through addition of good paying jobs by opening the Coastal Plain of the Arctic National Wildlife Refuge to oil and gas leasing and environmentally responsible exploration, development, and production of the petroleum reserves.

(2) That the Congress of the United States be urged to:

(a) increase support for development of new sources of renewable energy, such as biofuels (including biodiesel and ethanol), wind, and solar;

(b) pursue development and use of fuel efficient vehicles and development of new technologies such as fuel cells and other potential applications of emerging hydrogen technology; and

(c) develop programs and standards to encourage efficient use of existing resources in transportation, industrial and commercial processes, and consumer end uses.

BE IT FURTHER RESOLVED, that the Secretary of State send copies of this resolution to the Governor, the Montana Congressional Delegation, the Speaker of the U.S. House of Representatives, the President of the U.S. Senate, and the U. S. Secretary of the Interior.

SENATE JOINT RESOLUTION NO. 24

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA REQUESTING THE UNITED STATES CONGRESS TO AUTHORIZE A FEASIBILITY STUDY AND DEMONSTRATION PROJECT TO CONSIDER TRANSFERRING FEDERAL FUNDS ALLOCATED TO THE STATE OF MONTANA FOR DISTRIBUTION TO MONTANA'S AMERICAN INDIANS AS A MEANS OF PROVIDING BENEFITS TO SUPPORT TRIBAL PROGRAMS DIRECTLY TO MONTANA'S FEDERALLY RECOGNIZED TRIBAL GOVERNMENTS IN THE FORM OF DIRECT PAYMENTS INSTEAD OF TRANSFERRING FUNDS THROUGH A STATE AGENCY.

WHEREAS, the United States Supreme Court has recognized that the United States Constitution grants Congress exclusive authority over Indian tribes and has repeatedly acknowledged that a special trustee-beneficiary relationship exists between the federal government and the tribes; and

WHEREAS, as a trustee for all Indian tribes, the federal government has a legal and moral obligation to fulfill its treaty commitments to protect and enhance Indian lands, resources, and tribal governments and to provide those services necessary to protect the social well-being of Indian people; and

WHEREAS, the practice of transferring federal funds to state governments and requiring distribution of federal funds to tribal governments and Indian people through state agencies or state programs unfairly shifts many of the federal government's trustee responsibilities to the state, interferes with tribal sovereignty, and restricts each tribe or tribes from providing benefits and programs based on what tribal governments determine to be in the best interests of their members; and

WHEREAS, a feasibility study will enhance the ability to provide direct funding to federally recognized tribal governments in Montana and will provide for an orderly transition in federal funding practices.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the United States Congress be requested to authorize a feasibility study and demonstration project to consider transferring federal funds allocated to the State of Montana for distribution to Montana's American Indians as a means of providing benefits to support tribal programs directly to Montana's federally recognized tribal governments in the form of direct payments instead of transferring funds through a state agency.

BE IT FURTHER RESOLVED, that the feasibility study consider the following issues associated with changing payment methods to make direct payments to Montana's federally recognized tribal governments:

(1) the probable effects on specific programs and program beneficiaries;

(2) statutory, regulatory, or other impediments;

(3) probable costs or savings; and

(4) other issues identified in consultation with Montana's federally recognized tribal governments.

BE IT FURTHER RESOLVED, that the feasibility study focus on the development of a direct funding demonstration project for appropriate federal programs, services, functions, and activities of various federal agencies.

BE IT FURTHER RESOLVED, that the feasibility study and demonstration project be implemented jointly by the State of Montana, the federal government, and Montana's federally recognized Indian tribes through government-to-government consultation.

BE IT FURTHER RESOLVED, that the Secretary of State send copies of this resolution to the Montana Congressional Delegation, to the United States Senate Committee on Indian Affairs, to each tribal government located on the seven Montana reservations, and to the Little Shell Band of Chippewa.

WHEREAS, for many years western states have grappled with the challenge of providing the best education for their citizens; and

WHEREAS, western states face unique challenges in achieving this goal; and

WHEREAS, from 1979 to 1998, the percentage change in expenditures per pupil in 13 western states was 28% compared to 57% in the remaining states; and

WHEREAS, in 2000 and 2001, the pupil-to-teacher ratio in 13 western states averaged 17.9 to 1 compared with 14.8 to 1 in the remaining states; and

WHEREAS, the conditions in western states are exacerbated by projections that enrollment will increase by an average of 7.1% compared to an average decrease of 2.6% in the rest of the nation; and

WHEREAS, despite the wide disparities in expenditures per pupil and pupil-to-teacher ratio, western states tax at a comparable rate and allocate as much of their budgets to public education as the rest of the nation; and

WHEREAS, the ability of western states to fund education is directly related to federal ownership of state lands; and

WHEREAS, the federal government owns an average of 51.9% of the land in 13 western states compared to 4.1% in the remaining states; and

WHEREAS, the enabling acts of most western states promise that 5% of the proceeds from the sale of federal lands will go to the states for public education; and

WHEREAS, a federal policy change in 1977 ended these sales, resulting in an estimated $14 billion in lost public education funding for western states; and

WHEREAS, the ability of western states to fund public education is further impacted by the fact that state and local property taxes, which public education heavily relies upon to fund education, cannot be assessed on federal lands; and

WHEREAS, the estimated annual impact of this property tax prohibition on western states is over $4 billion; and

WHEREAS, the federal government shares only half of its royalty revenue with the states; and

WHEREAS, royalties are further reduced because federal lands are less likely to be developed, and federal laws often place stipulations on the use of state royalty payments; and

WHEREAS, the estimated annual impact of royalty payment policies on western states is over $1.86 billion; and

WHEREAS, much of the land that the federal government transferred to states upon statehood as a trust for public education is difficult to administer and to make productive because it is surrounded by federal land; and

WHEREAS, federal land ownership greatly hinders the ability of western states to fund public education; and

WHEREAS, the federal government should compensate western states for the significant impact federal land ownership has on the ability of western states to educate their citizens; and

WHEREAS, just compensation will allow western states to be on equal footing with the rest of the nation in their efforts to provide education for their citizens.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Montana Legislature strongly urge the United States Congress to appropriate just compensation to the State of Montana for the impact of federal land ownership on the State's ability to fund public education.

BE IT FURTHER RESOLVED, that the Secretary of State send a copy of this resolution to the President of the United States, the President of the United States Senate, the Speaker of the United States House of Representatives, and the Montana Congressional Delegation.

S30-90. Committee reports to Senate. (1) Reports of standing committees must be read on Order of Business No. 2, and, subject to subsection (4), debate may not be had on any report unless a minority report has been submitted. A minority report is submitted after a majority report.

(2) Any Senator seeking a reconsideration of the Senate's action on the adoption of a committee report shall do so on Order of Business No. 6 by motion to reconsider. Any Senator may make the reconsideration motion and need not have voted on the prevailing side. This rule applies notwithstanding any joint rule to the contrary. The reconsideration motion must be made within 1 legislative day of the adoption of the committee report.

(3) The Rules Committee and conference committees may report at any time, except during a call of the Senate or when a vote is being taken.

(4) On an adverse committee report, the sponsor may respond to the chair of the committee making the report.

S30-100. Pairs. Pairs in standing committee are prohibited. Standing and select committees may by a majority vote of the committee authorize Senators to vote in absentia while engaged in other legislative business. Authorization for absentee or proxy voting must be reflected in the committee minutes.

S30-110. Committee hearings. (1) A bill or resolution may not be considered or become a law unless referred to a committee and returned from a committee.

(2) A bill may be rereferred at any time before its passage.

S30-120. Notice of committee hearings — exceptions. (1) Notice of a committee hearing must be made by posting the date, time, and subject of the hearing in a conspicuous public place not less than 3 legislative days in advance of the hearing. This 3-day notice requirement does not apply to hearings scheduled:

(a) prior to the 3rd legislative day;

(b) less than 10 legislative days before the transmittal deadline applicable to the subject of the hearing; or

(c) to consider confirmation of a gubernatorial appointment received less than 10 legislative days before the last scheduled day of a legislative session.

(2) When a committee hearing is scheduled with less than 3 days' notice, the committee chair shall use all practical means to disseminate notice of the hearing to the public.

(3) Notice of conference committee hearings must be given as provided in Joint Rule 30-30.

S30-130. Majority/minority reports. If the members of a committee cannot agree on a report, the majority and minority of the committee present at a committee meeting may submit separate reports. Only one minority report may be submitted. The reports must be entered at length on the journal, unless otherwise ordered by the Senate.

S30-140. Reconsideration in committee. Except for the Committee of the Whole, a committee may at any time prior to submitting a report to the Secretary of the Senate reconsider its previous action on legislation.

S30-150. Committee requested legislation. (1) (a) Except as provided in subsection (1)(b), at least three-fourths of all the members of a standing committee must have voted in favor of the question to allow the committee to request the introduction of legislation.

(b) The Finance and Claims Committee may request the introduction of legislation by a majority vote of all of the members of the committee.

(2) The chair of a committee shall introduce, or shall designate a member of the committee to introduce, legislation requested by the committee. The introduced bill must be referred to the requesting committee.

(3) When a committee has proposed an amendment, the chair is the principal sponsor.

S30-160. Ethics Committee. (1) The Ethics Committee shall meet only upon the call of the chair after the referral of an issue from the Rules Committee. The Rules Committee may be convened to consider the referral of a matter to the Ethics Committee upon the request of a Senator. The Rules Committee shall prepare a written statement of the specific question or issue to be addressed by the Ethics Committee. The issues referred to the Ethics Committee must be related to the actions of a Senator during a legislative session.

(2) The matters that may be referred to the Ethics Committee are:

(a) a violation of:

(i) 2-2-103;

(ii) 2-2-104;

(iii) 2-2-111;

(iv) 2-2-112;

(b) the use or threatened use of a Senator's position for personal or personal business benefit or advantage; or

(c) any other violation of law by a Senator while acting in the capacity of Senator.

(3) If there is a recommendation from the Ethics Committee, the recommendation is made to the Senate.

CHAPTER 4

Legislation

S40-10. Types of legislation. The only types of legislation that may be introduced in the Senate are those that have been drafted and approved by the Legislative Services Division and signed by a Senator. The types of legislation allowed include:

(1) bills of any subject, except appropriations;

(2) joint resolutions, which may:

(a) express desire, opinion, sympathy, or request of the Legislature;

(b) request an interim study by a legislative subcommittee;

(c) adopt or amend the joint rules;

(d) set salaries and other terms of employment for legislative employees; and

(e) accomplish other legislative duties required by law; and

(3) simple resolutions, which may:

(a) adopt or amend Senate rules;

(b) provide for the internal affairs of the Senate;

(c) express confirmation of the Governor's appointments;

(d) make recommendations concerning the districting and apportionment plan as provided by Article V, section 14(4), of the Montana Constitution.

S40-20. Introduction. (1) Upon receiving a bill or resolution from a Senator, the Secretary of the Senate shall assign an appropriate sequential number, which constitutes introduction of the legislation.

(2) Bills and resolutions may be preintroduced, assigned to committee, and printed prior to the legislative session. The Legislative Services Division is responsible for ensuring the preintroduction intent from each Senator and presenting the preintroduced legislation to the Secretary of the Senate.

(3) Upon referral to committee, the Secretary of the Senate shall publicly post a listing of the bill or resolution by a summary of its title, together with a notation of the committee to which it has been assigned.

S40-30. Additional sponsors. (1) Additional sponsors may be added on motion of the chief sponsor at any time prior to a standing committee report on

the bill or resolution. Forms for adding sponsors will be supplied on request by the Secretary of the Senate.

(2) Upon passage of the motion, the names of the additional sponsors will be printed in the journal and the form containing the signatures of the additional sponsors will be forwarded to the Legislative Services Division with the original bill for the inclusion of the names in subsequent printings of the bill or resolution.

S40-40. Reading limitations. (1) Every bill must be read three times prior to passage, either by title or by summary of title as provided in these rules.

(2) A bill or resolution may not have more than one reading on the same day except the last legislative day.

(3) An amendment may not be offered on third reading.

S40-50. Rules for questions requiring other than a majority vote. (1) When a question requires more than a majority vote for final passage, a majority vote is sufficient to decide any question relating to the question prior to third reading.

(2) Any vote in the Senate on a bill proposing an amendment to the Montana Constitution under circumstances in which there exists the mathematical possibility of obtaining the necessary two-thirds vote of the Legislature will cause the bill to progress as though it had received the majority vote. This rule does not prevent a committee from indefinitely postponing or tabling a bill proposing an amendment to the Montana Constitution.

(3) If a bill has been amended in the House of Representatives and the amendments are accepted by the Senate, the bill must again be placed on third reading in the Senate to determine if the required number of votes has been cast.

S40-60. Scheduling for second reading. (1) All bills and resolutions that have been reported by a committee, accepted by the Senate, and reproduced must be scheduled for consideration by Committee of the Whole.

(2) Until the 50th legislative day, 1 day must elapse between receiving the legislation from printing and scheduling for second reading for consideration by Committee of the Whole.

(3) The majority leader shall arrange legislation on the agenda in the order in which the bills will be considered, unless otherwise ordered by the Senate or Committee of the Whole.

CHAPTER 5
Floor Action

S50-10. Attendance. Unless excused, Senators must be present at every sitting of the Senate and shall vote on questions put before the Senate.

S50-20. Orders of business. After prayer, roll call, and report on the journal, the order of business of the Senate is as follows:

(1) communications and petitions;

(2) reports of standing committees;

(3) reports of select committees;

(4) messages from the Governor;

(5) messages from the House of Representatives;

(6) motions;

(7) first reading and commitment of bills;

(8) second reading of bills (Committee of the Whole);

(9) third reading of bills;

(10) unfinished business;

(11) special orders of the day; and

(12) announcement of committee meetings.

To revert to or pass to a new order of business requires only a majority vote. Unless otherwise specified in the motion to recess, the Senate shall revert to Order of Business No. 1 when reconvening after a recess.

S50-30. Limitations on debate. A Senator may not speak more than twice on any one motion or question without unanimous consent of the Senate, unless the Senator has introduced or proposed the motion or question under debate, in which case the Senator may speak twice and also close the debate. However, a Senator who has spoken may not speak again on the same motion or question to the exclusion of a Senator who has not spoken.

S50-40. Procedure upon offering a motion. (1) When a motion is offered it must be restated by the presiding officer. If requested by the presiding officer or a Senator, it must be reduced to writing, presented at the rostrum, and read aloud by the Secretary.

(2) A motion may be withdrawn by the Senator offering it at any time before it is amended or voted upon.

S50-50. Precedence of motions. (1) When a question is under debate only the following privileged and subsidiary motions may be made:

(a) to adjourn;

(b) for a call of the Senate;

(c) to recess;

(d) question of privilege;

(e) to lay on the table;

(f) for the previous question;

(g) to postpone to a certain day;

(h) to refer or commit;

(i) to amend; and

(j) to postpone indefinitely.

(2) The motions listed in subsection (1) have precedence in the order listed.

(3) A question may be indefinitely postponed by a majority roll call of all Senators present and voting. When a bill or resolution is postponed indefinitely, it is finally rejected and may not be acted upon again except upon a motion of reconsideration.

(4) A motion or proposition on a subject different from that under consideration may not be admitted under color of amendment or substitute.

S50-60. Nondebatable motions. The following motions are not debatable:

(1) to adjourn;

(2) for a call of the Senate;

(3) to recess or rise;

(4) for parliamentary inquiry;

(5) for suspension of the rules;

(6) to lay on the table;

(7) for the previous question;

(8) to limit, extend the limits of, or to close debate;

(9) to amend an undebatable motion;

(10) to divide a question;

(11) to pass business in Committee of the Whole;

(12) to take from the table;

(13) a decision of the presiding officer, unless appealed or unless the presiding officer submits the question to the Senate for advice or decision; and

(14) all incidental motions, such as motions relating to voting or other questions of a general procedural nature.

S50-70. Amending motions. (1) Subject to subsection (2), no more than one amendment and no more than one substitute motion may be made to a motion. This rule permits the main motion and two modifying motions.

(2) A motion for a call of the Senate, for the previous question, to table, or to take from the table may not be amended.

S50-80. Previous question. (1) Except as provided in subsection (2), the effect of calling for the previous question, if adopted, is to close debate immediately, to prevent the offering of amendments or other subsidiary motions, and to bring to vote promptly the immediately pending main question and the adhering subsidiary motions, whether on appeal or otherwise.

(2) When the previous question is ordered on any debatable question on which there has been no debate, the question may be debated for one-half hour, one-half of that time to be given to the proponents and one-half to the opponents. The sponsor of the main motion on which the previous question is adopted may close on the motion.

(3) A call of the Senate is not in order after the previous question is ordered unless it appears upon an actual count by the presiding officer that a quorum is not present.

S50-90. Reconsideration. (1) Any Senator may, on the day the vote was taken or on the next day the Senate is in session, move to reconsider the question. A motion to reconsider is a debatable motion, but the debate is limited to the motion. The debate on a motion to reconsider may not address the substance of the matter for which reconsideration is sought.

(2) A motion to reconsider may not be withdrawn after the next legislative day without the unanimous consent of the Senate, and thereafter any Senator may call it up for consideration. However, a motion to reconsider made after the 54th day of the session must be disposed of when made.

(3) A motion to recall a bill from the House of Representatives constitutes notice to reconsider and must be acted on as a motion to reconsider. A motion to reconsider or to recall a bill from the House of Representatives may be made only

under Order of Business No. 6 and, under that order of business, takes precedence over all motions except motions to recess or adjourn.

(4) When a motion to reconsider is laid on the table, a two-thirds majority is required to take it from the table. When a motion to reconsider fails, the question is finally and conclusively settled.

(5) If a motion to reconsider third reading action is carried, there may not be further action until the succeeding legislative day.

S50-100. Dividing a question. A Senator may move to divide a question if it includes two or more propositions so distinct in substance that if one thing is taken away a substantive question will remain.

S50-110. Conference committee reports. (1) When a conference committee report is filed with the Secretary of the Senate, the report must be read under Order of Business No. 3, select committees, and placed on the calendar the succeeding legislative day for consideration on second reading. If recommended favorably by the Committee of the Whole, it may be considered on third reading the same legislative day.

(2) If both the Senate and the House of Representatives adopt the same conference committee report on legislation requiring more than a majority vote for final passage, the Senate, following approval of the conference committee report on third reading, shall place the final form of the legislation on third reading to determine if the required vote is obtained.

(3) If the Senate rejects a conference committee report, the committee continues to exist unless dissolved by the President or by motion. The committee may file a subsequent report.

(4) A Senate conference committee may confer regarding matters assigned to it with any House conference committee with like jurisdiction and submit recommendations for consideration of the Senate.

S50-120. Second reading. (1) The Senate may resolve itself into a Committee of the Whole for consideration of business on second reading, by approval of a motion for that purpose.

(2) After a Committee of the Whole has been formed, the President shall appoint a chair to preside.

(3) All legislation considered in the Committee of the Whole must be read by a summary of its title. Unless the sponsor requests an opening statement beforehand, proposed amendments must be considered, and then the bill must be considered in its entirety.

(4) Prior to adoption of the Committee of the Whole report, a Senator may move to segregate legislation. If the motion prevails, the legislation remains on second reading.

(5) When a Committee of the Whole report on legislation is rejected, the legislation remains on second reading.

S50-130. Committee of the Whole amendments. (1) All Committee of the Whole amendments must be prepared, stipulating the date and time of preparation and staff approval, and delivered to the Secretary of the Senate for reading before the amendment is voted on.

(2) Each amendment, rejected or adopted, must be printed in the journal, along with the name of the sponsor and the vote on each.

S50-140. Motions in Committee of the Whole. (1) All proper motions on second reading are debatable.

(2) The only motions in order during Committee of the Whole are to:

(a) amend;

(b) recommend passage or nonpassage;

(c) recommend concurrence or nonconcurrence;

(d) indefinitely postpone;

(e) pass consideration;

(f) rise;

(g) rise and report;

(h) rise and report progress and ask leave to sit again; or

(i) change the order in which legislation is placed on the agenda.

S50-150. Committee of the Whole — generally. (1) The Committee of the Whole may not appoint subcommittees.

(2) The Committee of the Whole may not punish its members for misconduct, but may report disorder to the Senate.

S50-160. Voting on second reading. (1) On Order of Business No. 8, in addition to other methods, a recorded vote may be made in the following manner: the chair may call for a voice vote to accept or reject a question. If the vote is other than unanimous, the chair may ask that the lesser number on the question indicate their vote by standing. The Secretary will then record the vote of those standing. The chair may then rule that unless excused those not standing and present have voted on the prevailing side of the question and that their vote be recorded as voting on the prevailing side. If there was a unanimous voice vote, all those present will be recorded as having voted for the question.

(2) A motion on second reading must be disposed of by a positive vote.

S50-170. Third reading procedure. (1) All legislation passing second reading must be placed on third reading the day following the receipt of the engrossing or other appropriate printing report.

(2) On Order of Business No. 9 the Secretary shall read the title and the President shall state the question as follows: "Senate bill number (or other appropriate identification)..... having been read three several times, the question is, shall the bill (or other appropriate identification) pass the Senate?"

(3) If an electronic voting system is used, the President shall state "Those in favor vote yes and those opposed vote no" and the Secretary will sound the signal and open the board for voting. After a reasonable pause the presiding officer asks "Has every member voted?" (reasonable pause), "Does any member wish to change his or her vote?" (reasonable pause), "The Secretary will record the vote."

S50-180. Senate voting — changing a vote. (1) A roll call vote must be taken on the request of two Senators, if the request occurs before the vote is taken.

(2) On a roll call vote the names of the Senators must be called alphabetically, unless an electronic voting system is used. A Senator may not vote after the decision is announced from the chair. A Senator may not explain a vote until after the decision is announced from the chair.

(3) A Senator may move to change the Senator's vote, on any recorded vote, within 1 legislative day of the vote. The Senator making the motion shall first specify the bill number, the date of the vote, and the original vote tally. A vote may not be changed if it would affect the outcome of legislation. The motion is nondebatable. If none of the Senators present object, the change must be entered into the journal.

(4) If any Senator objects to the request in subsection (3), the Senator making the request may move to suspend the rules to allow the Senator to change the Senator's vote.

(5) An error caused by a malfunction of the voting system may be corrected without a vote within 10 minutes of the malfunction.

S50-190. Pairs. (1) Two Senators may pair on a question that will be determined by a majority vote. On a question requiring a two-thirds vote for adoption, three Senators may pair, with two Senators for the question and one Senator against. Pairing is permitted only when one of the paired Senators is excused when the vote is taken.

(2) An agreement to pair must be in writing and dated and signed by the Senators agreeing to be bound and must specify the duration of the pair. When an agreement to pair is filed with the Secretary of the Senate, it binds the Senators signing until the expiration of time for which it was signed, unless the paired Senators sooner appear and ask that the agreement be canceled.

(3) Pairs in Committee of the Whole are prohibited.

S50-200. Call of the Senate. (1) In the absence of a quorum, a majority of Senators present may compel the attendance of absent Senators by ordering a call of the Senate.

(2) If a quorum is present, five Senators may order a call of the Senate.

(3) On a call of the Senate, a Senator who refuses to attend may be arrested by the Sergeant-at-Arms or any other person, as the majority of the Senators present direct. When the attendance of an absent Senator is secured and the Senate refuses to excuse the Senator's absence, the Senator may not be paid any expense payments while absent and is liable for the expenses incurred in procuring the Senator's attendance.

(4) During a call of the Senate, all business must be suspended. After a call has been ordered, no motion is in order except a motion to adjourn or remove the call. The call may be removed by a two-thirds vote.

S50-210. House amendments to Senate legislation. (1) When the House has properly returned Senate legislation with House amendments, the Senate shall announce the amendments on Order of Business No. 5 and the President shall place them on second reading for debate. The President may rerefer Senate legislation with House amendments to a committee for a hearing if the House amendments constitute a significant change in the Senate legislation. The second reading vote is limited to consideration of the House amendments.

(2) If the Senate accepts House amendments, the Senate shall place the final form of the legislation on third reading to determine if the legislation, as amended, is passed or if the required vote is obtained.

(3) If the Senate rejects the House amendments, the Senate may request the House to recede from its amendments or may direct appointment of a conference committee and request the House to appoint a like committee.

S50-220. Governor's amendments. (1) When the Governor returns a bill with recommended amendments, the Senate shall announce the amendments under Order of Business No. 4.

(2) The Senate may debate and adopt or reject the Governor's recommended amendments on second reading on any legislative day.

(3) If both the Senate and the House of Representatives accept the Governor's recommended amendments on a bill that requires more than a majority vote for final passage, the Senate shall place the final form of the legislation on third reading to determine if the required vote is obtained.

S50-230. Governor's veto. (1) When the Governor returns a bill with a veto, the Senate shall announce the veto under Order of Business No. 4.

(2) On any legislative day, a Senator may move to override the Governor's veto by a two-thirds vote under Order of Business No. 6.

CHAPTER 6

Rules

S60-10. Senate rules. (1) A motion to amend or adopt a rule of the Senate must be referred to the Rules Committee without debate. A rule of the Senate may be amended or adopted only with the concurrence of a majority of the Senate and after 1 day's notice.

(2) A rule may be suspended temporarily by a two-thirds vote.

S60-20. Mason's Manual of Legislative Procedure. Mason's Manual of Legislative Procedure (2000) governs the proceedings of the Senate in all cases not covered by these rules.

S60-30. Quorum. A majority of the Senate shall constitute a quorum to do business, but a smaller number may adjourn from day to day and compel the attendance of absent Senators, in the manner and under penalties as the Senate may prescribe (Montana Constitution, Art. V, Sec. 10(2)).

CHAPTER 7

Nominations from the Governor

S70-10. Nominations. (1) The Governor shall nominate and, by and with the consent of the Senate, appoint all officers whose offices are established by the Montana Constitution or which may be created by law and for whom appointment or election is not otherwise provided.

(2) If during a recess of the Senate a vacancy occurs in any office subject to Senate confirmation, the Governor shall appoint some fit person to discharge the duties of the office until the next meeting of the Senate, when the Governor shall nominate a person to fill the office.

S70-20. Introduction and first reading of nominations. (1) Nominations received from the Governor are:

(a) received by the President;

(b) delivered to the Secretary of the Senate;

(c) read under Order of Business No. 4, messages from the Governor; and

(d) referred to committee.

(2) The procedure in subsection (1) constitutes introduction and first reading of the nominations.

(3) The Secretary shall distribute a copy of the list of nominations to each Senator.

S70-30. Committee process. (1) (a) The committee shall research each nominee and may request biographical information from the Governor for each nominee if none has been provided.

(b) The committee chair shall submit a bill draft request for a simple resolution to include the nominees specified by the committee chair. These bill draft requests will not count against any bill draft request limit imposed on members. When the resolution has been prepared and introduced, the committee shall hold a hearing on the resolution after appropriate public notice has been made.

(2) Following the hearings, the committee shall issue preliminary standing committee reports to be distributed to each Senator, stating the committee's recommendations concerning the nominees.

(3) (a) If a Senator wishes to have an individual nominee, or group of nominees, considered by the Senate separately from the group of nominees recommended by the committee, the Senator may request of the chair of the committee that the nominee or nominees be considered by a separate resolution.

(b) A Senator shall request separate consideration of a nominee within 3 days of receipt of the preliminary standing committee report. The committee chair shall honor this request.

(4) After waiting 3 days from the day of distribution of the preliminary standing committee report, the committee chair shall issue a final standing committee report and deliver the report to the Secretary of the Senate.

(a) If a nominee is to be separated from the resolution, the final standing committee report must include an amendment deleting that nominee.

(b) When a nominee has been separated at the request of a Senator, the committee chair shall submit a bill draft request for a simple resolution to include only the nominee so separated. When the resolution has been prepared and introduced, the committee shall take executive action on the resolution. When a hearing on the separated nomination was held prior to the committee's preliminary standing committee report, an additional hearing is not required to be held before the committee takes action on the separate resolution. After the committee's executive action, the committee chair shall issue a standing committee report.

(5) If a resolution contains only one nominee, the committee shall dispense with the preliminary standing committee report and shall issue a final standing committee report to be distributed to each Senator stating the committee's recommendation concerning the nominee.

(6) The Secretary will read the reports under Order of Business No. 2, reports of standing committees.

(7) After the report has been read, the resolution must be placed on Order of Business No. 11 the next legislative day for consideration by the Senate. Motions to approve or disapprove of the resolution are in order and may be debated.

SENATE RESOLUTION NO. 2

A RESOLUTION OF THE SENATE OF THE STATE OF MONTANA REJECTING THE LEGISLATIVE PLAN THAT THE MONTANA DISTRICTING AND APPORTIONMENT COMMISSION SUBMITTED TO THE LEGISLATURE.

WHEREAS, the Montana Districting and Apportionment Commission submitted its legislative redistricting plan to the Legislature on January 6, 2003, as required by Article V, section 14, of the Montana Constitution; and

WHEREAS, the Joint Select Committee on Districting and Apportionment has received and considered testimony on the plan; and

WHEREAS, the Senate contends that the approximate 10% total population deviation range contained in the plan is not in support of legitimate governmental interests, but is for partisan political gain; and

WHEREAS, the Constitution is clear in language that the districts "shall be as nearly equal in population as is practicable", and that a 1% total population deviation range, or less, is both practical and possible; and

WHEREAS, the Senate contends that the majority of the Commission ignored the mandatory, constitutional criterion of "compact" districts in creating several House and Senate Districts that are over 200 miles from one end to the other; and

WHEREAS, the Senate contends that the American Indians have been isolated and that other minority groups were ignored when several districts in Montana were established; and

WHEREAS, the Senate contends that race was used as the predominant criterion in tentatively establishing six House Districts and three Senate Districts in blatant violation of the mandatory criterion that race may not be the predominant factor to which the traditional discretionary criteria are subordinated; and

WHEREAS, the Commission failed to adopt a criterion of consideration of existing district lines as the previous Commission had adopted; and

WHEREAS, the Commission has disregarded, in several instances, the discretionary criteria adopted by the Commission on April 18, 2001, by dividing many towns, cities, and counties, while giving little or no regard to keeping communities of interest intact; and

WHEREAS, the arbitrary assignment of holdover Senators to districts that did not elect them is at best wrong, blatantly unethical, and simply unfair to the electors; and

WHEREAS, the Legislature is required to return the plan to the Commission with its recommendations on or before February 5, 2003.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE STATE OF MONTANA:

That the Senate rejects the Legislative Redistricting Plan for the reasons stated above, requests that the Commission reconvene and adopt a plan that conforms to the mandatory and discretionary criteria as set forth by the 1972 Constitutional Convention and state and federal law, and contends that the majority of the Commission has performed a constitutional injustice to the electorate and the elected legislators of Montana, that the plan has been conceived in a partisan fashion that disregards the mandatory criteria as set forth by the 1972 Constitutional Convention and the discretionary criteria adopted by the Commission itself, that the Commission's exercise in political gerrymandering is unacceptable to the citizens of the state of Montana, and that the legislative redistricting plan must be redone.

BE IT FURTHER RESOLVED, that copies of the following documents be attached to this resolution:

(1) the tapes of the hearings of the Joint Select Committee on Districting and Apportionment held on January 20, 21, and 24, 2003;

(2) written testimony submitted on January 20, 21, and 24, 2003; and

(3) a minority report from the members of the Joint Select Committee on Districting and Apportionment who support the plan.

BE IT FURTHER RESOLVED, that a copy of this resolution be kept on file by the Secretary of State and that copies be sent by the Secretary of State to the presiding officer and each member of the Montana Districting and Apportionment Commission.

INITIATIVE REFERENDUM NO. 117

This proposal seeks a public vote on House Bill 474 (Ch. 577, L. 2001), passed by the 2001 Legislature. HB 474, among other things, changes provisions regarding the deregulation of the electricity industry. It extends the transition to full consumer choice of electricity providers to 2007. It directs the Public Service Commission to set consumer rates to ensure full recovery of all prudently incurred costs by power suppliers. It creates a public Power Authority to construct, finance, and operate electrical facilities funded by state bonds. The bill creates, but does not fund, a consumer support program to ensure the availability of affordable power.

It is not possible to determine the financial impact of this proposal due to the uncertainties in the electricity and bond markets.

House Bill 474 was rejected by the following vote at the General Election held November 5, 2002:

Approve:	116,370
Reject:	177,966

INITIATIVE NO. 146

In 1998, Montana reached a settlement agreement with tobacco companies under which Montana will receive annual payments from the companies as long as cigarettes are sold in Montana. This initiative dedicates 49 percent of the settlement funds received each year for a state-wide tobacco disease prevention program designed to discourage children from starting to smoke and assist adults in quitting smoking. Funds would also be used for programs which provide health insurance benefits to those Montanans who cannot otherwise afford or acquire health insurance. The initiative also creates a tobacco prevention advisory board.

The initiative will annually require $14 million of tobacco settlement funds currently deposited in the state general fund to be deposited: $9.1 million into a fund for tobacco disease prevention and $4.9 million into a fund for providing health insurance benefits to those who cannot afford or acquire them.

The text of the Initiative follows:

Be it enacted by the People of the State of Montana:

Section 1. Section 17-6-602, MCA, is amended to read:

(2) "Health care" has the meaning provided in 50-16-504.

(3) *(a)* "Programs for tobacco disease prevention" means programs of services administered by the state for the purposes of informing individuals of the health risks of tobacco use and exposure *to secondhand tobacco smoke*, assisting persons in the avoidance of tobacco products use, and assisting individuals in cessation of tobacco use.

(b) Programs for tobacco disease prevention include:

(i) community-based education programs;

(ii) American Indian community tobacco education programs;

(iii) general public awareness and education programs;

(vi) special education and cessation programs to reach youth and women of childbearing age;

(vii) smokeless tobacco user programs; and

(viii) advertising issue programs.

(4) "Tobacco products" means a substance intended for human use that contains tobacco and includes but is not limited to cigarettes, cigars, smoking tobacco, and tobacco intended for use in an oral or nasal cavity.

(5) "Trust fund" means the Montana tobacco settlement trust fund authorized by Article XII, section 4, of the Montana constitution and implemented through this part."

NEW SECTION. **Section 2. Tobacco settlement accounts — purpose — uses.** (1) The purpose of this section is to dedicate a portion of the tobacco settlement proceeds to fund a statewide comprehensive tobacco disease prevention program designed to:

(2) An amount equal to 32% of the total yearly tobacco settlement proceeds received after June 30, 2003, must be deposited in a state special revenue account. Subject to subsection (5), the funds referred to in this subsection may be used only for funding a statewide tobacco prevention program designed to prevent children from starting tobacco use and to help adults who want to quit tobacco use. The department of public health and human services shall manage the tobacco prevention program and shall adopt rules to implement the program. In adopting rules, the department shall consider the standards contained in Best Practices for Comprehensive Tobacco Control Programs - - August 1999, or its successor document, published by the U.S. department of health and human services, centers for disease control and prevention.

(4) Funds deposited in a state special revenue account, as provided in subsection (2) or (3), that are not appropriated within two years after the date of deposit must be transferred to the trust fund.

(5) The legislature shall appropriate money from the state special revenue accounts provided for in this section for tobacco disease prevention, for the programs referred to in the subsection establishing the account, and for funding the tobacco prevention advisory board.

(6) Programs funded under this section that are private in nature may be funded through contracted services.

NEW SECTION. **Section 3. Tobacco prevention advisory board.** (1) There is a tobacco prevention advisory board. The board consists of 15 members appointed by the director of the department of public health and human services. Except for the initial appointments, each board member shall serve a 3-year term and is subject to reappointment for one succeeding term. The director shall appoint members to staggered terms, with 5 members serving an initial term of 1, 2 or 3 years. The initial members appointed shall draw lots to determine their term of office. The board shall terminate when tobacco settlement funds are no longer received by the state. The board shall meet at least one time each year, with date and frequency of meetings to be determined by its presiding officer. Health care professionals and individuals are eligible to

(3) The board shall furnish advice, gather information, and perform other activities regarding the state special revenue accounts established pursuant to [section 2]. The board may make recommendations for the use of appropriations from the state special revenue accounts.

(4) The board is attached to the department of public health and human services for administrative purposes, and the department shall provide staff support to the board.

Any funds appropriated *from the general fund* for the children's health insurance program that remain unexpended at the end of the biennium must be transferred to the general fund. (Terminates on occurrence of contingency – sec. 15, Ch. 571, L. 1999.)"

NEW SECTION. **Section 5. Codification instruction.** Sections 2 and 3 are intended to be codified as an integral part of Title 17, chapter 6, part 6, and the provisions of Title 17, chapter 6, part 6, apply to sections 2 and 3.

NEW SECTION. **Section 6. Severability.** If a part of this act is invalid, all valid parts that are severable from the invalid part remain in effect. AN ACT MAXIMIZING INTEREST EARNED BY THE GENERAL FUND BY LIMITING INTERENTITY LOANS IN FUNDS OR ACCOUNTING ENTITIES THAT ARE OWED MONEY BY THE FEDERAL GOVERNMENT OR OTHER THIRD PARTIES; REQUIRING THE BORROWING AGENCY TO BILL THE FEDERAL GOVERNMENT OR OTHER THIRD PARTY AND TO CERTIFY THE BILLING TO THE AGENCY THAT APPROVED THE LOAN; AMENDING SECTION 17-2-107, MCA; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 17-2-107, MCA, is amended to read:

"17-2-107. Accurate accounting records and interentity loans. (1) The department shall record receipts and disbursements for treasury funds and for accounting entities within treasury funds and shall maintain records in a manner that reflects the total cash and invested balance of each fund and each accounting entity. The department shall adopt the necessary procedures to ensure that interdepartmental or intradepartmental transfers of money or loans do not result in inflation of figures reflecting total governmental costs and revenue.

(2) (a) Subject to 17-2-105, when the expenditure of an appropriation from a fund designated in 17-2-102(1) through (3) is necessary and the cash balance in the accounting entity from which the appropriation was made is insufficient, the department may authorize a temporary loan, bearing no interest, of unrestricted money from other accounting entities if there is reasonable evidence that the income will be sufficient to repay the loan within 1 calendar year and if the loan is recorded in the state accounting records. An accounting entity receiving a loan or an accounting entity from which a loan is made may not be so impaired that all proper demands on the accounting entity cannot be met even if the loan is extended.

(b) (i) When an expenditure from a fund or subfund designated in 17-2-102(4) is necessary and the cash balance in the fund or subfund from which the expenditure is to be made is insufficient, the commissioner of higher education may authorize a temporary loan, bearing interest as provided in subsection (4) of this section, of money from the agency's other funds or subfunds if there is reasonable evidence that the income will be sufficient to repay the loan within 1 calendar year and if the loan is recorded in the state accounting records. A fund or subfund receiving a loan or from which a loan is made may not be so impaired that all proper demands on the fund or subfund cannot be met even if the loan is extended.

(ii) One accounting entity within each fund or subfund designated in 17-2-102(4) must be established for the sole purpose of recording loans between the funds or subfunds. This accounting entity is the only accounting entity

within each fund or subfund that may receive a loan or from which a loan may be made.

(c) A loan made under subsection (2)(a) or (2)(b) must be repaid within 1 calendar year of the date on which the loan is approved unless it is extended under subsection (3) or by specific legislative authorization.

(3) Under unusual circumstances, the director of the department or the board of regents may grant one extension for up to 1 year for a loan made under subsection (2)(a) or (2)(b). The director or board shall prepare a written justification and proposed repayment plan for each loan extension authorized and shall furnish a copy of the written justification and proposed repayment plan to the house appropriations and senate finance and claims committees at the next legislative session.

(4) Any loan from the current unrestricted subfund to funds designated in 17-2-102(4)(a)(iv) and (4)(b) through (4)(f) must bear interest at a rate equivalent to the previous fiscal year's average rate of return on the board of investments' short-term investment pool.

(5) If for 2 consecutive fiscal yearends a loan or an extension of a loan has been authorized to the same accounting entity as provided in subsection (2) or (3), the department or the commissioner of higher education shall submit to the legislative finance committee by September 1 of the following fiscal year a written report containing an explanation as to why the second loan or extension was made, an analysis of the solvency of the accounting entity or accounting entities within the university fund or subfund, and a plan for repaying the loans.

(6) If for 2 consecutive fiscal yearends an accounting entity in a fund or subfund designated in 17-2-102(4) has a negative cash balance, the commissioner of higher education shall submit to the legislative finance committee by September 1 of the following fiscal year a written report containing an explanation as to why the accounting entity has a negative cash balance, an analysis of the solvency of the accounting entity, and a plan to address any problems concerning the accounting entity's negative cash balance or solvency.

(7) (a) An accounting entity in a fund designated in 17-2-102(1) through (3) may not have a negative cash balance at fiscal yearend. The department may, however, allow a fund type within each agency to carry a negative balance at any point during the fiscal year if the negative cash balance does not exist for more than 7 working days.

(b) (i) Except as provided in subsection (7)(b)(ii) of this section, a unit of the university system shall maintain a positive cash balance in the funds and subfunds designated in 17-2-102(4).

(ii) If a fund or subfund inadvertently has a negative cash balance, the department may allow the fund or subfund to carry the negative cash balance for no more than 7 working days. If the negative cash balance exists for more than 7 working days, a transaction may not be processed through the statewide accounting system for that fund or subfund.

(8) Notwithstanding the provisions of subsections (2) through (4), the department may authorize loans to accounting entities in the federal and state special revenue funds with long-term repayment whenever necessary because of the timing of the receipt of agreed-upon reimbursements from federal, private, or other governmental entity sources for disbursements made. If possible, the loans must be made from funds other than the general fund. The

department may approve the loans if the requesting agency can demonstrate that the total loan balance does not exceed total receivables from federal, private, or other governmental entity sources and receivables have been billed on a timely basis. The loan must be repaid under terms and conditions that may be determined by the department or by specific legislative authorization.

(9) A loan may not be authorized under this section to any fund or accounting entity that is owed federal or other third-party funds unless the requesting agency certifies to the agency approving the loan that it has and will continue to bill the federal government or other third party for the requesting agency's share of costs incurred in the fund or accounting entity on the earliest date allowable under federal or other third-party regulations applicable to the program. The requesting agency shall recertify its timely billing status to the agency that approved the loan at least monthly during the term of the loan. If at any time the requesting agency fails to recertify the timely billing, the agency that approved the loan shall cancel the loan and return the money to its original source."

Section 2. Effective date. [This act] is effective on passage and approval.

Funding for the projects is contained in House Bill No. 14 and subsection (1) of this section. The total project cost and the authorized funding for each project are as follows:

(i) $9,375,000 for the women's prison expansion in Billings, funded by $2,900,000 of general obligation bond proceeds authorized in House Bill No. 14 and by $6,475,000 of federal funds appropriated in subsection (1) of this section;

(ii) $2,225,000 for completing the Pine Hills youth correctional facility in Miles City, funded from general obligation bond proceeds authorized in House Bill No. 14;

It is the intent of the 56th legislature that the federal funds be used to the maximum extent possible. It is further the intent of the 56th legislature that the priority for using these federal funds is:

(i) up to $6,475,000 for the women's prison expansion project, line-itemed in subsection (1);

(ii) up to $526,497 for the Missoula regional correctional facility supplemental; and

(ii) It is further the intent of the legislature that federal spending authority for a capital construction project may be used only for the project identified in the law authorizing the project and may not be used for any other project.

(5) The appropriation for the Fort Peck fish hatchery in subsection (1) is contingent upon passage and approval of House Bill No. 20.

(6) The 56th legislature authorizes the construction of the rural technology education center at western Montana college of the university of Montana at a

The university system and the information services division of the department of administration will work together to develop network plans or procedures that provide for the highest degree of bandwidth and cost-sharing capability between the university system and the department that is within technical specifications agreed to by the parties and is mutually beneficial to them. This obligation to cooperate and coordinate for the purpose of seeking mutually beneficial network arrangements applies to the intercity transport services acquired by the university system or the department of administration to meet the needs of the public broadcast system, including the utilization and sharing of excess capacity bandwidth to help meet the telecommunication needs of all state agencies in a manner that is both cost-effective and compatible with the efficient operation of the public broadcast system.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 15-1-111, MCA, is amended to read:

"15-1-111. (Temporary) Reimbursement to local governments and schools — duties of department and county treasurer — statutory appropriation. (1) Prior to September 1, 1990, the department's agent in the county shall supply the following information to the department for each taxing jurisdiction within the county:

(a) the number of mills levied in the jurisdiction for tax year 1989;

(b) the number of mills levied in the jurisdiction for tax year 1990;

(c) the total taxable valuation for tax years 1989 and 1990, reported separately for each year, of all personal property not secured by real property; and

(d) the total taxable valuation for tax years 1989 and 1990, reported separately for each year, of all personal property secured by real property.

(2) After receipt of the information from its agent, the department shall calculate the amount of revenue lost to each taxing jurisdiction, using current year mill levies, due to the annual reduction in personal property tax rates set forth in 15-6-138, prior to 1994, and any reduction in taxes based upon recalculation of the effective tax rate for property in 15-6-145, prior to 1994. The department shall total the amounts for all taxing jurisdictions within the county.

(3) (a) The department shall remit to the county treasurer 50% of the amount of revenue reimbursable, determined pursuant to subsection (1), on or before November 30 and the remaining 50% on or before May 31.

(b) For tax year 1993 through tax year 1998, the department shall remit to the county treasurer of each county the same amount remitted to the county treasurer for the fiscal year 1991, as adjusted by the result of dissolved or combined taxing jurisdictions, as provided for in subsection (7). Fifty percent of the amount must be remitted on or before November 30 and the remaining 50% on or before May 31.

(c) (i) For tax year 1999 through tax year 2008, the department shall remit to the county treasurer of each county the same amount remitted to the county treasurer for the fiscal year 1991, progressively reduced by 10% of the 1991 amount each year, in accordance with the following schedule:

Tax Year	Percentage of 1991 Remittance Amount
1999	90
2000	80
2001	70
2002	60
2003	50
2004	40
2005	30
2006	20
2007	10
2008 and following years	0

(ii) The amount remitted must be adjusted by the result of dissolved or combined taxing jurisdictions, as provided for in subsection (7). Fifty percent of

the amount must be remitted on or before November 30 and the remaining 50% on or before May 31.

(4) Upon receipt of the reimbursement from the department, the county treasurer shall distribute the reimbursement to each taxing jurisdiction as calculated by the department.

(5) *(a)* For the purposes of this section and subject to subsection (7), "taxing jurisdiction" means a jurisdiction levying mills against personal property and includes but is not limited to a county, city, school district, tax increment financing district, and miscellaneous taxing district ~~and the state of Montana~~.

(b) The term does not include county or state school equalization levies provided for in 15-10-107, 20-9-331, 20-9-333, 20-9-360, 20-25-423, and 20-25-439.

(6) The amounts necessary for the administration of this section are statutorily appropriated, as provided in 17-7-502, from the general fund to reimburse eligible taxing jurisdictions for reductions in tax rates on personal property.

(7) The following apply to taxing jurisdictions that were altered after tax year 1989:

(a) A taxing jurisdiction that existed in tax year 1989 and that no longer exists is not entitled to reimbursement under this section.

(b) A taxing jurisdiction that existed in tax year 1989 and that is split into two or more taxing jurisdictions or that is annexed to or is consolidated with another taxing jurisdiction is entitled to reimbursement based on the portion of 1989 taxable value within each new taxing jurisdiction. The department shall determine the portion of 1989 taxable value located in each taxing jurisdiction.

(c) A taxing jurisdiction that did not exist in tax year 1989 is not entitled to reimbursement under this section unless the jurisdiction was created as described in subsection (7)(b). (Repealed effective July 1, 2008—secs. 66(2), 68(2), Ch. 422, L. 1997.)"

Section 2. Section 15-1-112, MCA, is amended to read:

"15-1-112. Business equipment tax rate reduction reimbursement to local government taxing jurisdictions. (1) On or before January 1, 1996, for the reduction in payment under subsection (4) and by June 1 of 1996, 1997, and 1998 for all other reimbursements in this section, the department ~~of revenue~~ shall determine a reimbursement amount associated with reducing the tax rate in 15-6-138 and provide that information to each county treasurer. The reimbursement amount must be determined for each local government taxing jurisdiction that levied mills on the taxable value of property described in 15-6-138 in the corresponding tax year. However, the reimbursement does not apply to property described in 15-6-138 that has a reduced tax rate under 15-24-1402.

(2) (a) The reimbursement amount to be used as the basis for the payment reduction under subsection (4) is the product of multiplying the tax year 1995 taxable value of property described in 15-6-138 for each local government taxing jurisdiction by the tax year 1995 mill levy for the jurisdiction and then multiplying by 1/9th.

(b) (i) The reimbursement amount for each local government taxing jurisdiction for tax year 1996 is the amount determined under subsection (2)(a) unless the tax year 1996 market value of property described in 15-6-138, for the

particular local government taxing jurisdiction, is more than the tax year 1995 market value for property described in 15-6-138 in the same jurisdiction.

(ii) If the tax year 1996 market value is greater than the tax year 1995 market value for a particular jurisdiction, then the reimbursement amount for tax year 1996 is the result of subtracting the simulated 1996 tax from the 1995 tax. The 1995 tax is the tax for the particular jurisdiction, determined by multiplying the actual taxable valuation of property described in 15-6-138, for tax year 1995, by the tax year 1995 mill levy for the jurisdiction. The simulated 1996 tax for the particular jurisdiction is the actual tax year 1996 taxable value of property described in 15-6-138 multiplied by the tax year 1995 mill levy for the particular jurisdiction. If the simulated 1996 tax is greater than the 1995 tax, the reimbursement amount is zero.

(c) (i) The reimbursement amount for each local government taxing jurisdiction for tax year 1997 is the amount determined under subsection (2)(a) multiplied by two unless the tax year 1997 market value of property described in 15-6-138, for the particular local government taxing jurisdiction, is more than the tax year 1995 market value for property described in 15-6-138 in the same jurisdiction.

(ii) If the tax year 1997 market value is greater than the tax year 1995 market value for a particular jurisdiction, then the reimbursement amount for tax year 1997 is the result of subtracting the simulated 1997 tax from the 1995 tax. The 1995 tax is the tax for the particular jurisdiction, determined by multiplying the actual taxable valuation of property described in 15-6-138, for tax year 1995, by the tax year 1995 mill levy for the jurisdiction. The simulated 1997 tax for the particular jurisdiction is the actual tax year 1997 taxable value of property described in 15-6-138 multiplied by the tax year 1995 mill levy for the particular jurisdiction. If the simulated 1997 tax is greater than the 1995 tax, the reimbursement amount is zero.

(d) (i) The reimbursement amount for each local government taxing jurisdiction for tax year 1998 is the amount determined under subsection (2)(a) multiplied by three unless the tax year 1998 market value of property described in 15-6-138, for the particular local government taxing jurisdiction, is more than the tax year 1995 market value for property described in 15-6-138 in the same jurisdiction.

(ii) If the tax year 1998 market value is greater than the tax year 1995 market value for a particular jurisdiction, then the reimbursement amount for tax year 1998 is the result of subtracting the simulated 1998 tax from the 1995 tax. The 1995 tax is the tax for the particular jurisdiction, determined by multiplying the actual taxable valuation of property described in 15-6-138, for tax year 1995, by the tax year 1995 mill levy for the jurisdiction. The simulated 1998 tax for the particular jurisdiction is the actual tax year 1998 taxable value of property described in 15-6-138 multiplied by the tax year 1995 mill levy for the particular jurisdiction. If the simulated 1998 tax is greater than the 1995 tax, the reimbursement amount is zero.

(3) (a) For purposes of this section, "local government taxing jurisdiction" means a local government rather than a state taxing jurisdiction that levied mills against property described in 15-6-138, including county governments, incorporated city and town governments, consolidated county and city governments, tax increment financing districts, local elementary and high school districts, local community college districts, miscellaneous districts, and

special districts. The term includes countywide mills levied for equalization of school retirement or transportation.

(b) The term does not include county or state school equalization levies provided for in 20-9-331, 20-9-333, ~~and~~ 20-9-360*, and 20-25-439*.

(c) Each tax increment financing district must receive the benefit of the state mill on the incremental taxable value of the district.

(4) County treasurers shall reduce the county payment to the state for the levy imposed under 20-9-360 in June of 1996 by an amount equal to 38% of the reimbursement amount determined under subsection (2)(a) for all of the local government taxing jurisdictions in the county.

(5) County treasurers shall reduce the county payment to the state for the levy imposed under 20-9-360 in December of 1996 by an amount equal to 31% of the reimbursement amount for tax year 1996 for all of the local government taxing jurisdictions in the county, as determined by the department under subsection (2).

(6) County treasurers shall reduce the county payment to the state for the levy imposed under 20-9-360 in June of 1997 by an amount equal to 31% of the reimbursement amount for tax year 1996 for all of the local government taxing jurisdictions in the county and by an amount equal to 38% of the reimbursement amount for tax year 1997 for all of the local government taxing jurisdictions in the county, as determined by the department under subsection (2).

(7) County treasurers shall reduce the county payment to the state for the levy imposed under 20-9-360 in December of 1997 by an amount equal to 31% of the reimbursement amount for tax year 1997 for all of the local government taxing jurisdictions in the county, as determined by the department under subsection (2).

(8) County treasurers shall reduce the county payment to the state for the levy imposed under 20-9-360 in June of 1998 by an amount equal to 31% of the reimbursement amount for tax year 1997 for all of the local government taxing jurisdictions in the county and by an amount equal to 38% of the reimbursement amount for tax year 1998 for all of the local government taxing jurisdictions in the county, as determined by the department under subsection (2).

(9) County treasurers shall reduce the county payment to the state for the levy imposed under 20-9-360 in December of 1998 by an amount equal to 31% of the reimbursement amount for tax year 1998 for all of the local government taxing jurisdictions in the county, as determined by the department under subsection (2).

(10) County treasurers shall reduce the county payment to the state for the levy imposed under 20-9-360 in June of 1999 by an amount equal to 69% of the reimbursement amount for tax year 1998 for all of the local government taxing jurisdictions in the county, as determined by the department under subsection (2).

(11) County treasurers shall reduce the county payment to the state for the levy imposed under 20-9-360 in December of the years 1999 through 2007 by an amount equal to 31% of the reimbursement amount determined in subsection (13) for all of the local government taxing jurisdictions in the county, as determined by the department under subsection (2).

(12) County treasurers shall reduce the county payment to the state for the levy imposed under 20-9-360 in June of the years 2000 through 2008 by an

amount equal to 69% of the reimbursement amount determined in subsection (13) for all of the local government taxing jurisdictions in the county, as determined by the department under subsection (2).

(13) (a) The reimbursement amount for tax year 1999 and each subsequent tax year for 9 years must be progressively reduced each year by 10% of the reimbursement amount for tax year 1998, according to the following schedule:

Tax Year	Percentage of 1998 Reimbursement Amount
1999	90
2000	80
2001	70
2002	60
2003	50
2004	40
2005	30
2006	20
2007	10
2008 and following years	0

(b) The reimbursement amount for each tax year must be the basis for reducing the amount remitted to the state for the levy imposed under 20-9-360 in December of the same year and June of the following year.

(14) The county treasurer shall use the funds from the reduced payment to the state for the levy imposed under 20-9-360 to reimburse each local government taxing jurisdiction in the amount determined by the department under subsection (2). The reimbursement must be distributed to funds within local government taxing jurisdictions in the same manner as taxes on property described in 15-6-138 are distributed. The reimbursement in June must be distributed based on the prior year's mill levy, and the reimbursement in December must be based on the current year's mill levy.

(15) Each local government taxing jurisdiction receiving reimbursements shall consider the amount of reimbursement that will be received and lower the mill levy otherwise necessary to fund the budget by the amount that would otherwise have to be raised by the mill levy.

(16) A local government taxing jurisdiction that ceases to exist after October 1, 1995, will no longer be considered for revenue loss or reimbursement purposes. A local government taxing jurisdiction that is created after January 1, 1996, will not be considered for revenue loss or reimbursement purposes. If a local government taxing jurisdiction that existed prior to January of 1996 is split between two or more taxing jurisdictions or is annexed to or is consolidated with another taxing jurisdiction, the department shall determine how much of the revenue loss and reimbursement is attributed to the new jurisdictions."

Section 3. Section 15-1-116, MCA, is amended to read:

"15-1-116. Manufactured home considered as improvement to real property — requirements. (1) A manufactured home will be considered for tax purposes an improvement to real property if:

(a) the running gear is removed; and

(b) the manufactured home is attached to a permanent foundation on land that is owned or being purchased by the owner of the manufactured home or, if the land is owned by another person, with the permission of the landowner.

(2) To eliminate the certificate of ownership of a manufactured home, an owner may file a statement of intent on a form furnished by the department of justice.

(3) The statement of intent must include:

(a) the serial number of the manufactured home;

(b) the legal description of the real property to which the manufactured home has been permanently attached;

(c) a description of any security interests in the manufactured home; and

(d) approval from all lienholders of the intent to eliminate the title.

(4) The owner shall present the statement of intent to the county treasurer of the county in which the manufactured home is located and shall surrender the certificate of ownership. Upon receipt of a titling fee of $5, the county treasurer shall issue the owner a duplicate receipt for the surrendered certificate and forward a copy of the statement of intent, the original receipt, and the surrendered certificate to the department of justice. The county treasurer may not issue the receipt unless all taxes, interest, and penalties on the manufactured home have been paid in full. The county treasurer shall~~:~~

~~(a) deposit $1.50 of the titling fee in the county general fund; and~~

~~(b)~~ remit ~~$3.50 of~~ the titling fee to the department for deposit in the state general fund.

(5) Upon the recording of the statement of intent and the receipt of surrender, the manufactured home may not be physically removed without the consent of all persons who have an interest in the manufactured home.

(6) A manufactured home that has been declared an improvement to real property in accordance with this section must be treated by the department and by lending institutions in the same manner as any other residence that is classified as an improvement."

Section 4. Section 15-1-121, MCA, is amended to read:

"15-1-121. Entitlement share payment — appropriation. (1) The amount calculated pursuant to this subsection is each local government's base entitlement share. The department shall estimate the total amount of revenue that each local government received from the following sources for the fiscal year ending June 30, 2001:

(a) personal property tax reimbursements pursuant to sections 167(1) through (5) and 169(6), Chapter 584, Laws of 1999;

(2) (a) From the amounts estimated in subsection (1) for each county government, the department shall deduct fiscal year 2001 county government expenditures for district courts, less reimbursements for district court expenses, and fiscal year 2001 county government expenditures for public welfare programs to be assumed by the state in fiscal year 2002.

(b) The amount estimated pursuant to subsections (1) and (2)(a) is each local government's base year component. (3) (a) Beginning with fiscal year 2002 and in each succeeding fiscal year, the base year entitlement share pool must be increased annually by a growth rate as provided for in this subsection (3). (i) Before applying the growth rate for fiscal year 2004 to determine the fiscal year 2004 entitlement share pool, the department shall add to the fiscal year 2003 entitlement share pool the fiscal year 2003 amount of revenue actually distributed to the county from the 25-cent marriage license fee in 50-15-301 and the probation and parole fee in 46-23-1031(2)(b).

(A) the last 4 calendar years for which the information has been published; and

(B) the 4 calendar years beginning with the year before the first year in the period referred to in subsection ~~(3)(a)(i)(A)~~ *(3)(a)(ii)(A)*.

~~(ii)~~*(iii)* The department shall calculate the average annual growth rate of Montana personal income, as published by the bureau of economic analysis of the United States department of commerce, for the following periods:

(A) the last 4 calendar years for which the information has been published; and

(B) the 4 calendar years beginning with the year before the first year in the period referred to in subsection ~~(3)(a)(ii)(A)~~ *(3)(a)(iii)(A)*.

(b) (i) For fiscal year 2004 and subsequent fiscal years, the entitlement share pool growth rate for the first year of the biennium must be the following percentage of the average of the growth rates calculated in subsections ~~(3)(a)(i)(B)~~ *(3)(a)(ii)(B)* and ~~(3)(a)(ii)(B)~~ *(3)(a)(iii)(B)*:

(A) for counties, 54%;

(B) for consolidated local governments, 62%; and

(C) for incorporated cities and towns, 70%.

(ii) The entitlement share pool growth rate for the second year of the biennium must be the following percentage of the average of the growth rates calculated in subsections ~~(3)(a)(i)(A)~~ *(3)(a)(ii)(A)* and ~~(3)(a)(ii)(A)~~ *(3)(a)(iii)(A)*:

(A) for counties, 54%;

(B) for consolidated local governments, 62%; and

(C) for incorporated cities and towns, 70%.

(4) As used in this section, "local government" means a county, a consolidated local government, an incorporated city, and an incorporated town. A local government does not include a tax increment financing district provided for in subsection (6). For purposes of calculating the base year component for a county or consolidated local government, the department shall include the

revenue listed in subsection (1) for all special districts within the county or consolidated local government. The county or consolidated local government is responsible for making an allocation from the county's or consolidated local government's share of the entitlement share pool to each special district within the county or consolidated local government in a manner that reasonably reflects each special district's loss of revenue sources listed in subsection (1).

(5) (a) The entitlement share pools calculated in this section and the block grants provided for in subsection (6) are statutorily appropriated, as provided in 17-7-502, from the general fund to the department for distribution to local governments. Each local government is entitled to a pro rata share of each year's entitlement share pool based on the local government's base component in relation to the base year entitlement share pool. The distributions must be made on a quarterly basis beginning September 15, 2001.

(b) (i) For fiscal year 2002, the growth amount is the difference between the fiscal year 2002 entitlement share pool and the base year entitlement share pool. *For fiscal year 2002, a county may have a negative base year component.* For fiscal year 2003 and each succeeding fiscal year, the growth amount is the difference between the entitlement share pool in the current fiscal year and the entitlement share pool in the previous fiscal year. *For the purposes of subsection (5)(b)(ii)(A), a county with a negative base year component has a base year component of zero.* The growth factor in the entitlement share must be calculated separately for:

(A) counties;

(B) consolidated local governments; and

(C) incorporated cities and towns.

(ii) In each fiscal year, the growth amount for counties must be allocated as follows:

(A) 50% of the growth amount must be allocated based upon each county's percentage of the base year entitlement share pool for all counties; and

(B) 50% of the growth amount must be allocated based upon the percentage that each county's population bears to the state population not residing within consolidated local governments as determined by the latest interim year population estimates from the Montana department of commerce as supplied by the United States bureau of the census.

(iii) In each fiscal year, the growth amount for consolidated local governments must be allocated as follows:

(A) 50% of the growth amount must be allocated based upon each consolidated local government's percentage of the base year entitlement share pool for all consolidated local governments; and

(B) 50% of the growth amount must be allocated based upon the percentage that each consolidated local government's population bears to the state's total population residing within consolidated local governments as determined by the latest interim year population estimates from the Montana department of commerce as supplied by the United States bureau of the census.

(iv) In each fiscal year, the growth amount for incorporated cities and towns must be allocated as follows:

(A) 50% of the growth amount must be allocated based upon each incorporated city's or town's percentage of the base year entitlement share pool for all incorporated cities and towns; and

(B) 50% of the growth amount must be allocated based upon the percentage that each city's or town's population bears to the state's total population residing within incorporated cities and towns as determined by the latest interim year population estimates from the Montana department of commerce as supplied by the United States bureau of the census.

(v) In each fiscal year, the amount of the entitlement share pool not represented by the growth amount is distributed to each local government in the same manner as the entitlement share pool was distributed in the prior fiscal year.

(vi) For fiscal year 2002, an amount equal to the district court costs identified in subsection (2) must be added to each county government's distribution from the entitlement share pool.

(vii) For fiscal year 2002, an amount equal to the district court fees identified in subsection (1)(d) must be subtracted from each county government's distribution from the entitlement share pool.

(6) (a) If a tax increment financing district was not in existence during the fiscal year ending June 30, 2000, then the tax increment financing district is not entitled to any block grant. If a tax increment financing district referred to in subsection (6)(b) terminates, then the block grant provided for in subsection (6)(b) terminates.

(b) One-half of the payments provided for in this subsection (6)(b) must be made by November 30 and the other half by May 31 of each year. Subject to subsection (6)(a), the entitlement share for tax increment financing districts is as follows:

(e) One-half of the payments provided for in subsection (6)(c) must be made by July 30, and the other half must be made in December of each year.

(7) The estimated base year entitlement share pool and any subsequent entitlement share pool for local governments do not include revenue received from countywide transportation block grants or from countywide retirement block grants.

(8) The estimates for the base year entitlement share pool in subsection (1) must be calculated as if the fees in Chapter 515, Laws of 1999, were in effect for all of fiscal year 2001.

(9) (a) If revenue that is included in the sources listed in subsections (1)(b) through (1)(p) is significantly reduced, except through legislative action, the department shall deduct the amount of revenue loss from the entitlement share pool beginning in the succeeding fiscal year and the department shall work with local governments to propose legislation to adjust the entitlement share pool to reflect an allocation of the loss of revenue.

(b) For the purposes of subsection (9)(a), a significant reduction is a loss that causes the amount of revenue received in the current year to be less than 95% of the amount of revenue received in the base year.

(10) A three-fifths vote of each house is required to reduce the amount of the entitlement share calculated pursuant to subsections (1) through (3).

(11) When there has been an underpayment of a local government's share of the entitlement share pool, the department shall distribute the difference between the underpayment and the correct amount of the entitlement share. When there has been an overpayment of a local government's entitlement share, the local government shall remit the overpaid amount to the department.

(12) A local government may appeal the department's estimation of the base year component, the entitlement share pool growth rate, or a local government's allocation of the entitlement share pool, according to the uniform dispute review procedure in 15-1-211."

(6) ~~Nothing in subsection~~ *Subsection* (5) ~~prevents~~ *does not prevent* a secured party from assigning ~~his~~ *the secured party's* interest in a motor vehicle registered under the provisions of this chapter to any other person without the consent of and without affecting the interest of the holder of the certificate of ownership and certificate of registration. Upon any assignment by a secured party of ~~his~~ *the secured party's* security interest in any motor vehicle registered under this chapter, a copy of the assignment must be filed with the department and a record of the assignment *must be* made ~~upon~~ *in* its records.

(7) The certificate of ownership is valid until canceled by the department upon a transfer of any interest shown in the certificate, and annual renewal is not needed.

(2) Registration under subsection (1)(a) must be with the probation office having supervision over the offender. The petition must be served on the county attorney in the county where the petition is filed. Prior to a hearing on the petition, the county attorney shall mail a copy of the petition to the victim of the last offense for which the offender was convicted if the victim's address is reasonably available. The court shall consider any written or oral statements of the victim. The court may grant the petition upon finding that:

(a) the offender has remained a law-abiding citizen; and

(b) continued registration is not necessary for public protection and that relief from registration is in the best interests of society.

(4) The offender may move that all or part of the proceedings in a hearing under subsection (3) be closed to the public, or the judge may close them on the judge's own motion. If a proceeding is closed to the public, the judge shall permit a victim of the offense to be present unless the judge determines that exclusion of the victim is necessary to protect the offender's right of privacy or the safety of the victim. evaluators of the risk of a repeat offense and the threat that an offender poses to the public safety.

(2) Prior to sentencing of a person convicted of a sexual offense, the department or a sexual offender evaluator shall provide the court with a sexual offender evaluation report recommending one of the following levels of designation for the offender:

(a) level 1, the risk of a repeat sexual offense is low;

(b) level 2, the risk of a repeat sexual offense is moderate;

(c) level 3, the risk of a repeat sexual offense is high, there is a threat to public safety, and the sexual offender evaluator believes that the offender is a sexually violent predator.

(3) Upon sentencing the offender, the court shall:

(a) review the sexual offender evaluation report, any statement by a victim, and any statement by the offender;

(b) designate the offender as level 1, 2, or 3; and

(c) designate a level 3 offender as a sexually violent predator.

(4) An offender designated as a level 2 ~~or level 3~~ offender may petition the sentencing court to change the offender's designation if the offender has enrolled in and successfully completed the treatment phase of either the prison's sexual offender program or of an equivalent program approved by the department. After considering the petition, the court may change the offender's risk level designation if the court finds by clear and convincing evidence that the offender's risk of committing a repeat sexual offense has changed since the time sentence was imposed. The court shall impose one of the three risk levels specified in this section.

(5) If, at the time of sentencing, the sentencing judge did not apply a level designation to a sexual offender who is required to register under this part, the department shall designate the offender as level 1, 2, or 3 when the offender is released from confinement."

CHAPTER NO. 23

[HB 2]

AN ACT AMENDING THE GENERAL APPROPRIATIONS ACT OF 2001; AMENDING CHAPTER 572, LAWS OF 2001; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. Chapter 572, Laws of 2001, is amended to read:

"**Section 1. Short title.** [This act] may be cited as "The General Appropriations Act of 2001".

Section 2. First level expenditures. The agency and program appropriation tables in the legislative fiscal analyst narrative accompanying

~~this bill~~ *Chapter 572, Laws of 2001,* showing first level expenditures and *changes in [this act] to* funding for the 2003 biennium, are adopted as legislative intent.

Section 3. Severability. If any section, subsection, sentence, clause, or phrase of [this act] is for any reason held unconstitutional, the decision does not affect the validity of the remaining portions of [this act].

Section 4. Appropriation control. An appropriation item designated as "Biennial" may be spent in either year of the biennium. An appropriation item designated "Restricted" may be used during the biennium only for the purpose designated by its title and as presented to the legislature. An appropriation item designated "One Time Only" or "OTO" may not be included in the present law base for the 2005 biennium. The office of budget and program planning shall establish a separate appropriation on the statewide budgeting and accounting system for any item designated as "Biennial", "Restricted", "One Time Only", or "OTO". The office of budget and program planning shall establish at least one appropriation on the statewide budgeting and accounting system for any appropriation that appears as a separate line item in [this act].

Section 5. Program definition. As used in [this act], "program" has the same meaning as defined in 17-7-102, is consistent with the management and accountability structure established on the statewide budgeting and accounting system, and is identified as a major subdivision of an agency ordinally numbered with an arabic numeral.

Section 6. Personal services funding — 2005 biennium. (1) Except as provided in subsection (2), present law and new proposal funding budget requests for the 2005 biennium submitted under Title 17, chapter 7, part 1, by each executive, judicial, and legislative branch agency must include funding of first level personal services separate from funding of other expenditures. The funding of first level personal services by accounting entity or equivalent for each fiscal year must be shown at the fourth reporting level or equivalent in the budget request for the 2005 biennium submitted by October 30 to the legislative fiscal analyst by the office of budget and program planning.

(2) The provisions of subsection (1) do not apply to the Montana university system.

Section 7. Personal services line item. Funds appropriated for personal services or indicated in legislative intent as having been appropriated for personal services may not be expended under any other category except for contract services (expenditure account 62102) or for the early return to work program. Any transfer of funds from personal services to contract services is to be used to directly substitute for use of personal services. Any transfer for either contract services or for the early return to work program must be reported in writing to the legislative finance committee. The provisions of this section do not apply to the Montana university system *or to the disability services division in the department of public health and human services for the purposes of adjusting the disabled population between institution and residential settings*.

Section 8. Vacancy savings analysis. The legislature is concerned about the use of the concept of vacancy savings in establishing funding for personal services. It is the intent of the legislature that an analysis of vacancy savings be completed prior to the 2003 legislative session to include the consideration of alternative options for funding of personal services at an appropriate level. The legislative finance committee is requested to include this analysis as part of the House Bill No. 613 personal services study if House Bill No. 613 is passed and approved or to include the analysis in the committee work plan for the

legislative fiscal division. The legislative finance committee is encouraged to work cooperatively with the governor's budget director in completing this analysis.

Section 9. FTE reduction. The number of FTE has been reduced for all positions in the executive branch (excluding the university system) that have been identified by the legislature as vacant for over 7 months and that are not seasonal, already filled, or newly classified . The reduction is inclusive in the number of FTE shown in the agency and program tables in the legislative fiscal analyst narrative accompanying this bill. The eliminated positions are not to be funded in the present law base budget submitted by the governor for the 2005 biennium. The Legislative Fiscal Division Fiscal Report shall include a table listing the position numbers of the FTE that are eliminated. The number of FTE eliminated by agency is as follows:

Department of Transportation	49.27
Department of Revenue	2.03
Department of Administration	4.84
Department of Public Health and Human Services	9.26

Each department, the Montana university system, and, when appropriate, each division of each department shall place their respective specific and measurable goals, benchmarks, and objectives for each year of the 2003 biennium on their respective internet websites or, when appropriate, on the state's internet website. On July 1, 2001, and again on July 1, 2002, each department and the Montana university system shall report progress on the appropriate website in meeting the goals, benchmarks, and objectives and what changes, if any, were made to ensure that those goals, benchmarks, and objectives are attained. *On October 1, 2002, each department and the Montana university system shall report to the legislative finance committee and on their respective websites their revised goals, benchmarks, and objectives to reflect specific actions taken and changes made to implement the reductions in expenditures ordered by the governor under the authority of 17-7-140 on June 28, 2002, and all budget reduction actions taken by the legislature in the August 2002 Special Session. Revised performance measures must:*

(1) include a specific list of what programs, services, or procedures are being revised, reduced, or eliminated from current levels of operation because of budget reductions and the reasons for the change;

(2) clearly state which programs or services are the highest priority and should be maintained and why they are the highest priority;

(3) clearly state which programs or services are the least critical and why they are a lower priority;

(4) clearly state the criteria used to prioritize programs in view of budget reductions; and

(5) clearly state the specific management actions taken to implement these budget reductions and program or service revisions.

Section 11. Report from governor's office on energy management efforts. The governor's office, in cooperation with the commissioner of higher education, shall provide a report to the 58th legislature that details the efforts of state agencies to address energy costs. The report must include but is not limited to energy management activities of the department of environmental quality, the department of administration, and the Montana university system. The report should enumerate data, activities, and recommendations in the following areas:

(1) projected savings and other benefits from the state building energy conservation program, including building commissioning projects;

(2) potential changes to the conservation program that would encourage agency participation;

(3) other energy conservation efforts of state agencies;

(5) other energy conservation options and funding proposals;

(6) progress on the utility bill monitoring pilot project and potential benefits coming from the project;

(7) state government efforts to more efficiently purchase natural gas and electricity, including any plans to include more state facilities under the natural gas term contract and efforts to aggregate state agency electricity demand; and

(8) other recommendations to the legislature that would improve state government energy management efforts.

Section 12. Accruals analysis — 2005 biennium. The legislative fiscal division shall include an analysis of accruals for budget base year fiscal year 2002 and shall include a summary table and narrative in the Legislative Fiscal Division 2005 Biennium Budget Analysis that provides a listing by agency of total accruals and the amount that is recommended to be removed from the base budget.

Section 13. Energy costs reserve. A total of $3.2 million must be set aside in the general fund for contingencies related to cost increases in electricity and natural gas expenditures by state government significantly above the amounts appropriated for this purpose in [this act] or to support litigation to secure affordable electricity or natural gas. The amount is classified as unreserved, designated general fund balance.

Section 14. Totals not appropriations. The totals shown in [this act] are for informational purposes only and are not appropriations.

(2) entry level and average hourly wage and benefit rates paid by community providers for direct care workers and group home employees.

The information must specify how the data was gathered and whether and how the department verified the data and must be presented to allow evaluation among comparable services and jobs.

~~Funds appropriated for grants or benefits and claims or indicated in legislative intent as having been appropriated for grants or benefits and claims may be expended only as grants or benefits and claims. The office of budget and program planning may authorize a transfer of appropriation authority from grants or benefits and claims to another category of expenditure under one of the following conditions:~~

~~(1) the department certifies to the office of budget and program planning that federal law or regulations require that funds appropriated in grants or benefits and claims must be expended in a different category of expenditure; or~~

~~(2) the department certifies to the office of budget and program planning that there will be savings if funds appropriated in grants or benefits and claims are transferred and expended in another category of expenditure~~.

~~The office of budget and program planning shall report to the legislative finance committee on transfers approved subject to these two conditions.~~

The department shall report to the legislative finance committee and the children, families, health, and human services interim committee at every meeting of each committee:

(1) the actual amount of federal temporary assistance for needy families (TANF) block grant funds expended in the current biennium;

	Fiscal 2002						Fiscal 2003					
General Fund	State Special Revenue	Federal Special Revenue	Proprietary	Other	Total	General Fund	State Special Revenue	Federal Special Revenue	Proprietary	Other	Total

(2) the actual amount of TANF block grant maintenance of effort funds that have been expended in the current biennium;

(3) the balance of previous fiscal years' TANF block grant funds that remain unexpended; and

(4) the balance of the current fiscal year federal TANF block grant funds that remain unexpended.

The department shall use unexpended previous year federal TANF block grant funds to provide benefits and services that meet the federal definition of assistance. Current year federal TANF block grant funds must be used to fund benefits and services that meet the federal definition of assistance only after all available previous years' federal TANF block grant funds have been expended.

The office of budget and program planning may proportionally reduce the funding in items 1a through *1k. items 1m* through 1t. and item 1v if any of the following conditions exist:

(1) the department certifies to the office of budget and program planning that the balance of unexpended TANF funds on June 30, 2001, is less than $30 million;

(2) actual or projected cash assistance expenditures are greater than $24,067,328 in fiscal year 2002 or $23,763,854 in fiscal year 2003;

(3) the amount of TANF grant funds awarded to Montana by congress is reduced below the level anticipated by the legislature; or

(4) the department certifies to the office of budget and program planning that the reduction is necessary in order to maintain public assistance programs that were supported by federal TANF and state TANF maintenance of effort funds in fiscal year 2001.

If the TANF block grant funds report given at the March 2002 legislative finance committee meeting indicates that there are FAIM phase II R dollars unexpended and no plan is in place to expend the remaining dollars, there is appropriated up to $1.5 million of these unexpended funds for the summer youth employment program in the 2003 biennium.

Item 1 includes increases of $3,852,988 of general fund money in fiscal year 2002 and of $4,006,121 of general fund money in fiscal year 2003 and reductions of $3,356,606 of state special revenue in fiscal year 2002 and of $3,376,187 of state special revenue in fiscal year 2003 that are contingent upon passage and approval of House Bill No. 124.

Funds in item 1 include $68,422 in fiscal year 2002 and $69,606 in fiscal year 2003 that the department shall use to reimburse the Montana department of corrections, Montana correctional enterprises, for costs incurred to operate the Montana food bank network canning and wild game processing facility.

Funds included in items 1b and 1e may be used only to fund tribal projects and to provide nontraditional job training to an enrolled tribal member of a federally recognized tribe whose reservation lies within the exterior boundaries of the Montana reservations and to the Little Shell band of Chippewa if the Little Shell band of Chippewa becomes a federally recognized tribe.

Funds in item 1b may be used to fund head start services for tribal members. Tribal members may not access services supported by funds in item 1r because funding for tribal head start projects has been included in item 1b.

The department shall transfer funds in item 1l to the Montana board of housing revolving loan account to fund eligible activities under the federal TANF block grant. The timing and amount of the transfer must comply with federal regulations governing the expenditure and transfer of TANF funds.

Funds included in item 1t may be used only to develop programs for high-wage and high-skill training for single parents, persons who are economically disadvantaged, and displaced homemakers.

Funds included in item 1u may be used only to provide adult basic education services.

The department shall transfer funds in item 1v to the children's trust fund to fund eligible child abuse and neglect prevention activities.

Projects funded in items 1a, 1d, 1f, 1g, 1h, 1i, 1j, 1k, 1l, 1m, 1n, 1o, 1p, 1q, 1r, 1s, 1t, and 1u are considered approved special projects related to welfare reform for the purpose of implementation of 53-4-210. Prior to the expenditure of these funds, the department shall provide notice both verbally and in writing to tribes that have implemented a federally approved tribal family assistance plan that funding for special projects is available. Tribes that operate a tribal family assistance plan may receive the funds in these items, and the department may award all or a portion of these funds to tribes that operate tribal family assistance plans as allowable within federal regulations.

Funds included in item 1w may be used only to provide TANF WoRC contracts and supportive services and child-care services.

Item 2 includes increases of $2,206,194 of general fund money in fiscal year 2002 and of $2,241,893 of general fund money in fiscal year 2003 and reductions of $2,172,078 of state special revenue in fiscal year 2002 and of $2,135,314 of state special revenue in fiscal year 2003 that are contingent upon passage and approval of House Bill No. 124.

Funds in item 2d may be used only to support the costs of in-home services for families in the child welfare system. The department estimates that 25 families or 50 children will be served with this funding and that 80% of the families served will not enter the foster care system. If the department achieves this goal, the estimated increase in the foster care caseload will decrease from 3% to 2%. Any savings realized because of a lower than anticipated caseload increase may be used by the department to expand the provision of in-home services or other services within the child welfare system.

Item 3 includes $1,482,291 in fiscal year 2002 and $1,482,748 in fiscal year 2003 for the tobacco prevention and control program. It is the intent of the legislature that the interagency coordinating council on prevention administer the tobacco control and prevention program.

Item 3 includes increases of $93,333 of general fund money in fiscal year 2002 and of $96,915 of general fund money in fiscal year 2003 and reductions of $90,463 of state special revenue in fiscal year 2002 and of $91,028 of state special revenue in fiscal year 2003 that are contingent upon passage and approval of House Bill No. 124.

Item 3 includes funding for 5 FTE above the level funded by the 2001 legislature for the purpose of establishing a department-wide refinancing unit. The cost of the FTE and any supporting contracting efforts must be supported from anticipated savings from the refinancing of social worker case management services and maximizing of federal funding in the child and family services division. The department shall report on the progress of its refinancing efforts periodically to the office of budget and program planning, legislative finance committee, and the 2003 legislature.

It is the intent of the legislature that up to $3 million of funds that the department receives because of refinancing general fund costs with federal special revenue be used to offset the across-the-board general fund reductions included in item 7.

Funds in item 3a may be used only to fund a deputy director position within the department.

Funds included in item 4c may be used only to support costs for the completion of a financial institution data match.

Funds included in item 4d may be used only to support the costs incurred to complete a study of the costs of raising a child in Montana.

Items 5, 9, and 10 include appropriations of state special revenue for provider rate increases funded from the interest income on the tobacco settlement trust fund provided for in Article XII, section 4, of the Montana constitution. If the interest income on the tobacco settlement trust fund provided for in Article XII, section 4, of the Montana constitution is insufficient to fully fund the state special revenue appropriations in items 5, 9, and 10, the legislature intends that the department find alternative funding sources to fully fund the provider rate increases. Alternative sources may include but are not limited to enhanced medicaid intergovernmental transfer programs and transfers of general fund money from other appropriations.

Item 5 includes increases of $6,717,000 of general fund money in fiscal year 2002 and of $6,862,000 of general fund money in fiscal year 2003 and reductions of $6,717,000 of state special revenue in fiscal year 2002 and of $6,862,000 of state special revenue in fiscal year 2003 that are contingent upon passage and approval of House Bill No. 124.

The health policy and services division is authorized to pursue up to $1.5 million in federal special revenue each year of the biennium in item 5 to enhance or improve division services or programs to public schools. This additional federal special revenue may be expended on services by the division as long as those actions do not require or commit the state to additional general fund expenditures beyond the amount appropriated by the legislature to the division.

Item 5a must be spent on services to assist Montanans who have been exposed to asbestos. Funds in item 5a may not be expended for any other purpose.

Implementation of the resource-based relative value scale (RBRVS) provider rate system must continue to be phased in over the 2003 biennium. The department shall use funds in item 5b to raise rates paid to those current procedural terminology (CPT) codes paid the lowest percentage of medicare reimbursement

that were restricted to 145% of the level of the state fiscal year 1997 reimbursement in state fiscal year 1999. The department may not change reimbursement for CPT codes, which were paid at 80% of the level of the state fiscal year 1997 reimbursement in state fiscal year 1999.

Item 5c includes funds for 3.5 FTE. Funds for the FTE may not be included in the adjusted base budget for the 2005 biennium unless federal funds or private revenue is available to fund the position.

Funds in item 5d may be used only to purchase equipment to transmit or to facilitate the transmission of medical images and x-rays from rural hospitals to medical specialists. The funds may be granted only to rural hospitals or groups of rural hospitals to purchase the equipment.

The department shall provide to the legislative finance committee each year of the biennium an analysis of the number of medicaid hospital projects completed and associated cost savings because of funding for claims adjudication specialists as approved by the 2001 legislature.

Item 6 includes increases of $211,082 of general fund money in fiscal year 2002 and of $218,916 of general fund money in fiscal year 2003 and reductions of $204,359 of state special revenue in fiscal year 2002 and of $205,400 of state special revenue in fiscal year 2003 that are contingent upon passage and approval of House Bill No. 124.

Item 7 includes increases of $1,044,768 of general fund money in fiscal year 2002 and of $1,070,319 of general fund money in fiscal year 2003 and reductions of $1,037,443 of state special revenue in fiscal year 2002 and of $1,055,626 of state special revenue in fiscal year 2003 that are contingent upon passage and approval of House Bill No. 124.

Item 7 includes a reduction in general fund money of $158,038 in fiscal year 2002 and $158,038 in fiscal year 2003. This reduction is the equivalent of a 15% reduction in fiscal 2000 base budget travel expenses. The department may reallocate this reduction in funding among divisions when developing 2003 biennium operating plans.

Item 7 includes a reduction in fiscal year 2003 of $107,796 in general fund money and represents the equivalent of 25% of office supplies expenditures funded with general fund money in fiscal year 2002. The department may reallocate this reduction in funding among programs when developing fiscal year 2003 operating plans.

Item 7 includes a reduction of $257,261 in fiscal year 2003 of general fund money. This reduction is the equivalent of a 66.67% reduction in the fiscal year 2003 budget for equipment expenses. The agency may reallocate this reduction in funding among programs in its fiscal year 2003 operating plans.

Item 7 includes a reduction of $1.46 million of general fund money in fiscal year 2003. This reduction is the equivalent of a 0.68% reduction in the fiscal year 2003 general fund appropriation for the agency. The agency may reallocate this reduction in funding among programs in its fiscal year 2003 operating plans.

Item 7 includes a reduction of $542,660 in fiscal year 2002 and $544,550 in fiscal year 2003 of general fund money. The department may reallocate this reduction in funding among divisions when developing 2003 biennium operating plans. The office of budget and program planning shall provide a report that details reallocation to the legislative finance committee by October 15 of each fiscal year.

The department shall make every effort to achieve an unqualified opinion in the financial compliance audit issued by the legislative audit division for the 2 years ending June 30, 2003. The legislature expects the department to take action to ensure that this achievement occurs, including exempting the fiscal bureau from vacancy savings requirements, exempting the fiscal bureau from reductions in staffing, establishing clear and appropriate fiscal policies and processes, and any other management actions that may reasonably be expected to result in the achievement of an unqualified audit opinion.

The developmental disability program is directed to use existing general fund appropriations within the developmental disabilities program budget to refinance services, if possible. General fund money made available through refinancing efforts may be used to:

(1) reduce the developmental disability program waiting list;

(2) improve wages paid by community providers to direct care workers;

(3) provide a provider rate increase to community services providers; and

(4) fund existing plans of care for individuals waiting for residential services.

The developmental disabilities program will report to the legislative fiscal division semiannually in January and July:

(1) the amount of general fund money that was made available through refinancing efforts;

(2) the amount, scope, and nature of services provided by funds made available through refinancing;

(3) the number of consumers, providers, and direct care worker staff benefiting from initiatives funded through refinancing efforts; and

(4) the amount of additional state special and federal funds obtained through refinancing efforts.

Item 8 includes a $1,965,199 general fund decrease in fiscal year 2003 for the disability services division replaced by a like amount of employment security account state special revenue funds administered by the department of labor and industry.

Item 8c includes $3,996,613 in general fund money and $3,861,209 in federal funds to begin equalization of wages paid to direct care workers employed by developmental disability community providers with direct care worker wages paid to employees at Eastmont human services center and the Montana developmental center.

The disability services division shall complete a report on the impact that applying income criteria to determine eligibility for developmental disabilities program services and benefits would have on individuals, the waiting list for services, and the budget for the developmental disabilities program. The report must be presented to the legislative finance committee by June 30, 2002. The report to the legislative finance committee should include by age group (0-3, 4-5, 6-18, 18-21, and over 21 years of age) and by residential setting (recipient home, group home, institution, etc.):

(1) the number of nonmedicaid-eligible recipients and the value of services, by funding source, provided to individuals and families with income at or below 200% of the federal poverty level; and

(2) the number of nonmedicaid-eligible recipients and the value of services, by funding source, provided to individuals and families with income at or below 150% of the federal poverty level.

The fiscal year 2003 funds in items 8, 8a, and 8b may not be expended until the report has been presented to the legislative finance committee.

Included in item 8b is general fund money of $1,400,277 in fiscal year 2002 and $1,400,224 in fiscal year 2003. This funding is one time only. The combined population at the two institutions (Eastmont human services center and Montana developmental center) may not exceed 88 individuals at the end of the 2003 biennium. If the disability services division has a population of more than 88 individuals at the two institutions at the end of the 2003 biennium, the division shall certify that a community residential setting was not available for the individuals remaining in the two institutions.

Funds in item 9a may be used only to make one-time payments to nursing homes based on the number of medicaid services provided. State special revenue in item 9a may be expended only after the office of budget and program planning has certified that the department has received $2 million each year from counties participating in the intergovernmental transfer program for nursing homes.

The department shall distribute funds in items 8c and 9c in a way that provides reasonable assurance that the funds are used solely for direct care wage and benefit increases. Not all providers or types of direct care workers must receive the same rate increase for the biennium. Funds appropriated in items 8c and 9c may be used only for direct care worker wage increases. Funds in items 8c and 9c may not be used to fund other programs. In the event that the department finds it necessary to institute program reductions, it is the intent of the legislature that funds in items 8c and 9c be the last items eliminated.

The senior and long-term care division is authorized to pursue up to $2 million in federal special revenue in item 9d over the biennium to enhance or improve division services or programs. This additional federal special revenue may be expended by the division on services as long as those actions do not require or commit the state to additional general fund expenditures beyond the amount appropriated for the 2003 biennium by the legislature to the division in [this act].

Pursuant to 17-7-140, item 9e is exempt from spending reductions because of a projected general fund budget deficit.

The department shall post on the senior and long-term care division website the staffing levels provided in Montana nursing facilities.

The department shall require that area agencies on aging provide a written assessment of the need for increased funding in their nutrition program prior to expending the additional Title III of the Older Americans Act of 1965 grant funds appropriated in [this act].

The appropriation in item 10 is contingent on the department developing a management plan to:

(1) ensure that the department staff tracking the census of residential treatment of children in Montana communicate in-state service availability to appropriate staff; and

(2) negotiate or issue requests for proposals in compliance with 52-2-306 and 52-2-307 for placement of children with in-state providers in lieu of placing the child in out-of-state treatment. The department shall submit the plan to the children, families, health, and human services interim committee and the legislative finance committee by July 1, 2001.

Item 10 is contingent on the department maintaining $3,539,842 of federal block grant contracts to state-approved chemical dependency programs for treatment and rehabilitation each year of the 2003 biennium.

Item 10 includes $559,560 in general fund money in fiscal year 2002 and $713,907 in fiscal year 2003 that must be used to fund mental health services for persons eligible for the mental health services plan. At least $480,000 of these general fund appropriations must be used for grants to one or more local children's mental health provider coalitions to prevent placement of emotionally disturbed children in out-of-home services.

Item 10 must be increased by $1 million in general fund money and must be reduced by $1 million in state special revenue in fiscal year 2003 unless Senate Bill No. 1, August 2002 Special Session, is passed and approved in a form that:

(1) maintains at least a $1 million distribution to state-approved chemical dependency programs to provide treatment, rehabilitation, and prevention of chemical dependency pursuant to 53-24-208; and

(2) requires the department to distribute in the same proportion as provided in 53-24-206(3)(b) at least $730,000 of the $1 million in funds referenced in item 1 to the state-approved chemical dependency programs.

Funds in item 10a must be used to fund services at Montana state hospital and for staff and utilization review activities to reduce the use of institutional services. Any funds not spent for staff and utilization review activities must be used to fund community services, which will reduce the need for inpatient and institutional care. The funds may not be used for any other purpose.

Funds in item 10b must be used to fund mental health services for low-income children. Funds in item 10b may not be used for any other purpose or transferred to any other program.

Funds in item 10d must be used to contract with the Montana consensus council.

Funds in item 10e must be used to pay one-time increases in reimbursement for services provided in frontier counties by county-funded mental health medicaid service providers.

Item 10f includes $26,000 in contracted services in fiscal year 2003 funded equally from state special revenue and federal special revenue.

Funds in item 10g must be used for:

(1) activities related to training and educating law enforcement personnel, judicial personnel, and persons instrumental to the commitment process in recognizing serious mental illness and appropriate approaches to and treatment for persons who exhibit symptoms of mental illness; and

(2) development of screening tools to help identify whether a person may be mentally ill.

Item 10j is contingent upon passage and approval of Senate Bill No. 26, August 2002 Special Session.

Item 10k is contingent upon passage and approval of Senate Bill No. 26, August 2002 Special Session.

The appropriations for legislative contract authority are subject to all of the following provisions:

	Fiscal 2002					Fiscal 2003				
General Fund	State Special Revenue	Federal Special Revenue	Proprietary	Other	Total	General Fund	State Special Revenue	Federal Special Revenue	Proprietary	Other	Total

(1) Legislative contract authority applies only to federal and private funds.

(2) Legislative contract authority expenditures must be reported on the state accounting records and kept separate from present law operations. In preparing the 2005 biennium executive budget, the office of budget and program planning may not include expenditures from this item in the present law base.

(3) A report must be submitted by the department to the legislative fiscal analyst following the end of each fiscal year, listing legislative contract authority grants received and the amount of expenditures and FTE for each grant.

The legislature recognizes that the costs associated with litigation in which the legal services division is required to provide representation to the state of Montana may exceed the appropriation provided. In that event, the department will need to request a supplemental appropriation from the 2003 legislature to adequately represent the state.

Item 1 includes a reduction in fiscal year 2003 of $40,008 in general fund money and represents the reductions ordered by the governor pursuant to 17-7-140.

Item 1c is contingent upon passage and approval of House Bill No. 419.

The appropriation for the gambling control division contains funding for the automated accounting and reporting system (AARS). The general fund appropriation of $380,000 in each year of the 2003 biennium reflects continuation of a 5-year general fund commitment for this project through the 2005 biennium. It is the intent of the legislature that an annual general fund commitment of $236,250 be continued in each year of the 2007 biennium. If the long-range building program committee bill, to use intercap funding for AARS implementation, is passed by the 2001 legislature, a portion of these appropriations may be used to make debt service payments.

The department is appropriated up to $2,800,000 for the biennium from state special revenue funds for the purchase of system interface boards to be used for the implementation of the AARS.

Item 2 includes a reduction in fiscal year 2003 of $38,000 in general fund money and represents the reductions ordered by the governor pursuant to 17-7-140.

Item 2 includes a reduction of $567,203 in general fund money in fiscal year 2002 and $569,866 in fiscal year 2003 and an increase in proprietary funds of $611,103 in fiscal year 2002 and $613,766 in fiscal year 2003. These reductions and increases are contingent upon passage and approval of House Bill No. 399.

Item 3 includes a reduction in general fund money of $31,502 in fiscal year 2002 and $31,502 in fiscal year 2003. This reduction is the equivalent of a 10% reduction in fiscal year 2000 base budget travel expenses. The department may reallocate this reduction in funding among divisions when developing 2003 biennium operating plans.

Item 3 includes $5,738 of general fund money in fiscal year 2002 that is contingent upon passage and approval of House Bill No. 124.

(1) debt service payments or repayment of any loan incurred for the creation of a new information technology system for motor vehicles; or

(2) payment of costs directly incurred in the creation and support of the new motor vehicle information technology system.

Item 4 includes a reduction in fiscal year 2003 of $32,646 in general fund money and represents the reductions ordered by the governor pursuant to 17-7-140.

Item 4a is contingent upon passage and approval of Senate Bill No. 358.

Item 4b is contingent upon passage and approval of House Bill No. 256.

There is appropriated from the highway patrol retirement clearing account for payments to the Montana highway patrol pension fund the amount required for this transfer, not to exceed $1,500,000 for each fiscal year.

Item 5 includes a reduction in fiscal year 2003 of $200,197 in general fund money and represents the reductions ordered by the governor pursuant to 17-7-140.

It is the intent of the legislature that the agency not use general fund money in item 5 for the purchase of new or replacement automobiles unless an existing vehicle becomes inoperable to the point at which replacement is warranted.

Item 6 includes a reduction in fiscal year 2003 of $60,000 in general fund money and represents the reductions ordered by the governor pursuant to 17-7-140.

Item 9 includes a reduction of $127,892 in fiscal year 2002 and $128,336 in fiscal year 2003 of general fund money. The department may reallocate this reduction in funding among divisions when developing 2003 biennium operating plans. This reduction is the equivalent of a 66.67% reduction in the fiscal year 2003 budget for equipment expenses in all divisions of the department except the forensic sciences division. The agency may reallocate this reduction in funding among programs in its fiscal year 2003 operating plans.

Item 9 includes a reduction of $151,846 in fiscal year 2003 of general fund money. This reduction is the equivalent of a 1% reduction in the fiscal year 2003 budget for the agency. The agency may reallocate this reduction in funding among programs in its fiscal year 2003 operating plans.

In addition, if Senate Bill No. 328 is not passed and approved, the amendment to the reference copy of [this act] striking the language accompanying the extradition and transportation of prisoners program in the department of justice is void.

Item 10 includes $12,000 in general fund money for fiscal year 2002 for lab accreditation. The use of the funds for accreditation is contingent on passage of a federal requirement that a lab needs to be accredited to receive federal funds.

Because the percentage of American Indians in our state's correctional system ranges from 17% in the men's prison to up to 40% in the women's prison, it is important that the department maintain open communications and liaisons with the Montana tribes. Therefore, the department shall designate one of its current full-time equivalent employees in the administration and support services division to have included as a part of the employee's job responsibilities the duty to serve as a liaison with the Montana tribes and the department regarding American Indian inmate issues and concerns in all correctional facilities, including contracted bed facilities.

The department is encouraged to use telemedicine technology to the fullest extent possible to effect savings within the department.

The legislature encourages the department to use the authority that it possesses under current statute to allow early discharge of offenders subject to the jurisdiction of the department for the purpose of relieving the projected cost overrun caused by high prison populations.

Item 1 includes a reduction of $401,402 in fiscal year 2002 and $402,801 in fiscal year 2003 of general fund money. COMPILED BY MONTANA
LEGISLATIVE SERVICES DIVISION

House Joint Resolution

HOUSE JOINT RESOLUTION NO. 1

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA ESTABLISHING AN OFFICIAL ESTIMATE OF THE STATE'S ANTICIPATED GENERAL FUND REVENUE FOR THE 2002-03 BIENNIUM FOR THE PURPOSE OF ACHIEVING A BALANCED BUDGET; ACCEPTING THE JUNE 30, 2002, GENERAL FUND BALANCE THAT WAS ESTABLISHED BASED ON GENERALLY ACCEPTED ACCOUNTING PRINCIPLES; AND REQUESTING THE GOVERNOR'S OFFICE OF BUDGET AND PROGRAM PLANNING TO USE THE FIGURES CONTAINED IN THE RESOLUTION AS THE OFFICIAL REVENUE TOTALS FOR FISCAL YEAR 2002 AND THE OFFICIAL REVENUE ESTIMATES FOR FISCAL YEAR 2003.

WHEREAS, Article VI, section 9, of the Montana Constitution requires the Governor to submit to the Legislature a budget for the ensuing fiscal period, containing in detail the estimated revenue of the state; and

WHEREAS, Article VIII, section 9, of the Montana Constitution prohibits the Legislature from appropriating funds in excess of the anticipated revenue of the state; and

WHEREAS, between the April 2001 adjournment of the 57th Legislature and October 2001, general fund revenue was exceeding expectations; and

WHEREAS, the 57th Legislature had estimated a projected general fund ending fund balance of $53.8 million by June 30, 2003; and

WHEREAS, at the end of fiscal year 2001, the general fund balance had increased $62.2 million, leaving a projected ending fund balance on June 30, 2003, of $116.5 million; and

WHEREAS, in December 2001, the Legislative Fiscal Division reported to the Revenue and Transportation Interim Committee that revenue collections from individual income taxes had begun to slow; and

WHEREAS, by May 2001, individual and corporate income tax revenue was well below projections while income tax refunds to taxpayers had increased; and

WHEREAS, the Legislative Fiscal Division has attributed the decline in revenue partly to the national economic recession, the September 11 terrorist attacks, and a marked decline in capital gains, which has resulted in corresponding reductions in individual and corporate income tax revenue; and

WHEREAS, section 17-7-140, MCA, requires the Governor to implement limited spending reductions in the event of a projected general fund budget deficit; and

WHEREAS, pursuant to section 17-7-140, MCA, the Governor's Budget Director recommended a 3.5% reduction in general fund expenditures and notified the Legislative Fiscal Analyst, the Legislative Finance Committee, and the Revenue and Transportation Interim Committee of this recommendation; and

WHEREAS, on June 13 and 14, the Legislative Finance Committee and the Revenue and Transportation Interim Committee met separately to examine the

proposed spending reductions, to review revised revenue estimates, and to make recommendations to the Governor; and

WHEREAS, revenue to the general fund has continued to decline and it was determined at the end of June that the 3.5% reduction in expenditures would be insufficient to avoid deficit spending;

WHEREAS, the Legislative Fiscal Division expects total general fund revenue for the 2003 biennium to be $114.6 million below the estimates adopted by the 57th Legislature in House Joint Resolution No. 2; and

WHEREAS, on June 28, the Governor issued a call for a special session of the 57th Legislature to begin August 5, 2002; and

WHEREAS, the Governor's call directed the Legislature to consider legislation that would approve fund balance transfers, reduce general fund expenditures, reduce nongeneral fund appropriations and nonbudgeted transfers, reduce the general fund shortfall, and provide for a guarantee account in the state special revenue fund; and

WHEREAS, given the magnitude of Montana's fiscal crisis and given the Legislature's constitutional responsibility to balance the budget, it is in the best interests of the state that revenue forecasts be discussed and determined in a public hearing at which all interested individuals may attend and participate; and

WHEREAS, actual revenue for fiscal year 2002 and revised revenue projections for fiscal year 2003 will be reviewed by the House and Senate Taxation Committees in a joint meeting prior to the commencement of the special session; and

WHEREAS, the revenue estimates contained in this resolution are intended to supersede the estimates contained in House Joint Resolution No. 2 of the 57th Legislature meeting in regular session.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the actual state general fund revenue for fiscal year 2002 be $1,265,711,000 and that the estimated general fund revenue for fiscal year 2003 be $1,259,027,000.

BE IT FURTHER RESOLVED, that the Legislature accept for budget purposes, the unreserved fiscal year 2002 fund balance of $84,105,211 for the general fund, prepared according to generally accepted accounting principles.

BE IT FURTHER RESOLVED, that the Governor's Office of Budget and Program Planning use, as contemplated in 5-18-107(2), the figures contained in this resolution as the official revenue totals for fiscal year 2002 and the official revenue estimates for fiscal year 2003.

GEN ERAL FUND REV E NUE

CHAPTER NO. 1

[HB 1]

AN ACT AMENDING CHAPTER 23, SPECIAL LAWS OF AUGUST 2002, FOR THE SOLE PURPOSE OF INSERTING AN IMMEDIATE EFFECTIVE DATE; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE AND A RETROACTIVE APPLICABILITY DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. Chapter 23, Special Laws of August 2002, is amended to read:

"**Section 1.** Chapter 572, Laws of 2001, is amended to read:

"**Section 1. Short title.** [This act] may be cited as "The General Appropriations Act of 2001".

Section 2. First level expenditures. The agency and program appropriation tables in the legislative fiscal analyst narrative accompanying ~~this bill~~ *Chapter 572, Laws of 2001*, showing first level expenditures and *changes in [this act] to* funding for the 2003 biennium, are adopted as legislative intent.

Section 3. Severability. If any section, subsection, sentence, clause, or phrase of [this act] is for any reason held unconstitutional, the decision does not affect the validity of the remaining portions of [this act].

Section 4. Appropriation control. An appropriation item designated as "Biennial" may be spent in either year of the biennium. An appropriation item designated "Restricted" may be used during the biennium only for the purpose designated by its title and as presented to the legislature. An appropriation item designated "One Time Only" or "OTO" may not be included in the present law base for the 2005 biennium. The office of budget and program planning shall establish a separate appropriation on the statewide budgeting and accounting system for any item designated as "Biennial", "Restricted", "One Time Only", or "OTO". The office of budget and program planning shall establish at least one appropriation on the statewide budgeting and accounting system for any appropriation that appears as a separate line item in [this act].

Section 5. Program definition. As used in [this act], "program" has the same meaning as defined in 17-7-102, is consistent with the management and accountability structure established on the statewide budgeting and accounting system, and is identified as a major subdivision of an agency ordinally numbered with an arabic numeral.

Section 6. Personal services funding — 2005 biennium. (1) Except as provided in subsection (2), present law and new proposal funding budget requests for the 2005 biennium submitted under Title 17, chapter 7, part 1, by each executive, judicial, and legislative branch agency must include funding of first level personal services separate from funding of other expenditures. The funding of first level personal services by accounting entity or equivalent for each fiscal year must be shown at the fourth reporting level or equivalent in the budget request for the 2005 biennium submitted by October 30 to the legislative fiscal analyst by the office of budget and program planning.

(2) The provisions of subsection (1) do not apply to the Montana university system.

Section 7. Personal services line item. Funds appropriated for personal services or indicated in legislative intent as having been appropriated for

personal services may not be expended under any other category except for contract services (expenditure account 62102) or for the early return to work program. Any transfer of funds from personal services to contract services is to be used to directly substitute for use of personal services. Any transfer for either contract services or for the early return to work program must be reported in writing to the legislative finance committee. The provisions of this section do not apply to the Montana university system *or to the disability services division in the department of public health and human services for the purposes of adjusting the disabled population between institution and residential settings*.

Section 8. Vacancy savings analysis. The legislature is concerned about the use of the concept of vacancy savings in establishing funding for personal services. It is the intent of the legislature that an analysis of vacancy savings be completed prior to the 2003 legislative session to include the consideration of alternative options for funding of personal services at an appropriate level. The legislative finance committee is requested to include this analysis as part of the House Bill No. 613 personal services study if House Bill No. 613 is passed and approved or to include the analysis in the committee work plan for the legislative fiscal division. The legislative finance committee is encouraged to work cooperatively with the governor's budget director in completing this analysis.

The number of FTE has been reduced for all positions in the executive branch (excluding the university system) that have been identified by the legislature as vacant for over 7 months and that are not seasonal, already filled, or newly classified . The reduction is inclusive in the number of FTE shown in the agency and program tables in the legislative fiscal analyst narrative accompanying this bill. The eliminated positions are not to be funded in the present law base budget submitted by the governor for the 2005 biennium. The Legislative Fiscal Division Fiscal Report shall include a table listing the position numbers of the FTE that are eliminated. The number of FTE eliminated by agency is as follows:

(6) progress on the utility bill monitoring pilot project and potential benefits coming from the project;

(7) state government efforts to more efficiently purchase natural gas and electricity, including any plans to include more state facilities under the natural gas term contract and efforts to aggregate state agency electricity demand; and

(8) other recommendations to the legislature that would improve state government energy management efforts.

Section 12. Accruals analysis — 2005 biennium. The legislative fiscal division shall include an analysis of accruals for budget base year fiscal year 2002 and shall include a summary table and narrative in the Legislative Fiscal

(1) rates paid by each program for comparable services; and

(2) entry level and average hourly wage and benefit rates paid by community providers for direct care workers and group home employees.

The information must specify how the data was gathered and whether and how the department verified the data and must be presented to allow evaluation among comparable services and jobs.

~~Funds appropriated for grants or benefits and claims or indicated in legislative intent as having been appropriated for grants or benefits and claims may be expended only as grants or benefits and claims. The office of budget and program planning may authorize a transfer of appropriation authority from grants or benefits and claims to another category of expenditure under one of the following conditions:~~

~~(1) the department certifies to the office of budget and program planning that federal law or regulation requires that funds appropriated in grants or benefits and claims must be expended in a different category of expenditure; or~~

~~(2) the department certifies to the office of budget and program planning that there will be savings if funds appropriated in grants or benefits and claims are transferred and expended in another category of expenditure~~.

~~The office of budget and program planning shall report to the legislative finance committee on transfers approved subject to these two conditions.~~

The department shall report to the legislative finance committee and the children, families, health, and human services interim committee at every meeting of each committee:

(1) the actual amount of federal temporary assistance for needy families (TANF) block grant funds expended in the current biennium;

(2) the actual amount of TANF block grant maintenance of effort funds that have been expended in the current biennium;

(3) the balance of previous fiscal years' TANF block grant funds that remain unexpended; and

(4) the balance of the current fiscal year federal TANF block grant funds that remain unexpended.

The department shall use unexpended previous year federal TANF block grant funds to provide benefits and services that meet the federal definition of assistance. Current year federal TANF block grant funds must be used to fund benefits and services that meet the federal definition of assistance only after all available previous years' federal TANF block grant funds have been expended.

The office of budget and program planning may proportionally reduce the funding in items 1a through *1k. items 1m* through 1t. and item 1v if any of the following conditions exist:

(1) the department certifies to the office of budget and program planning that the balance of unexpended TANF funds on June 30. 2001. is less than $30 million;

(2) actual or projected cash assistance expenditures are greater than $24.067.328 in fiscal year 2002 or $23.763.854 in fiscal year 2003;

(3) the amount of TANF grant funds awarded to Montana by congress is reduced below the level anticipated by the legislature; or

(4) the department certifies to the office of budget and program planning that the reduction is necessary in order to maintain public assistance programs that were supported by federal TANF and state TANF maintenance of effort funds in fiscal year 2001.

If the TANF block grant funds report given at the March 2002 legislative finance committee meeting indicates that there are FAIM phase II R dollars unexpended and no plan is in place to expend the remaining dollars. there is appropriated up to $1.5 million of these unexpended funds for the summer youth employment program in the 2003 biennium.

Item 1 includes increases of $3.852.988 of general fund money in fiscal year 2002 and of $4.006.121 of general fund money in fiscal year 2003 and reductions of $3.356.606 of state special revenue in fiscal year 2002 and of $3.376.187 of state special revenue in fiscal year 2003 that are contingent upon passage and approval of House Bill No. 124.

Funds included in items 1b and 1e may be used only to fund tribal projects and to provide nontraditional job training to an enrolled tribal member of a federally recognized tribe whose reservation lies within the exterior boundaries of the Montana reservations and to the Little Shell band of Chippewa if the Little Shell band of Chippewa becomes a federally recognized tribe.

Funds in item 1b may be used to fund head start services for tribal members. Tribal members may not access services supported by funds in item 1r because funding for tribal head start projects has been included in item 1b.

The department shall transfer funds in item 1l to the Montana board of housing revolving loan account to fund eligible activities under the federal TANF block grant. The timing and amount of the transfer must comply with federal regulations governing the expenditure and transfer of TANF funds.

Funds included in item 1t may be used only to develop programs for high-wage and high-skill training for single parents, persons who are economically disadvantaged, and displaced homemakers.

Funds included in item 1u may be used only to provide adult basic education services.

The department shall transfer funds in item 1v to the children's trust fund to fund eligible child abuse and neglect prevention activities.

Projects funded in items 1a, 1d, 1f, 1g, 1h, 1i, 1j, 1k, 1l, 1m, 1n, 1o, 1p, 1q, 1r, 1s, 1t, and 1u are considered approved special projects related to welfare reform for the purpose of implementation of 53-4-210. Prior to the expenditure of these funds, the department shall provide notice both verbally and in writing to tribes that have implemented a federally approved tribal family assistance plan that funding for special projects is available. Tribes that operate a tribal family assistance plan may receive the funds in these items, and the department may award all or a portion of these funds to tribes that operate tribal family assistance plans as allowable within federal regulations.

Funds included in item 1w may be used only to provide TANF WoRC contracts and supportive services and child-care services.

Item 2 includes increases of $2,206,194 of general fund money in fiscal year 2002 and of $2,241,893 of general fund money in fiscal year 2003 and reductions of $2,172,078 of state special revenue in fiscal year 2002 and of $2,135,314 of state special revenue in fiscal year 2003 that are contingent upon passage and approval of House Bill No. 124.

Funds in item 2d may be used only to support the costs of in-home services for families in the child welfare system. The department estimates that 25 families or 50 children will be served with this funding and that 80% of the families served will not enter the foster care system. If the department achieves this goal, the estimated increase in the foster care caseload will decrease from 3% to 2%. Any savings realized because of a lower than anticipated caseload increase may be used by the department to expand the provision of in-home services or other services within the child welfare system.

Item 3 includes $1,482,291 in fiscal year 2002 and $1,482,748 in fiscal year 2003 for the tobacco prevention and control program. It is the intent of the legislature that the interagency coordinating council on prevention administer the tobacco control and prevention program.

Item 3 includes increases of $93,333 of general fund money in fiscal year 2002 and of $96,915 of general fund money in fiscal year 2003 and reductions of $90,463 of state special revenue in fiscal year 2002 and of $91,028 of state special revenue in fiscal year 2003 that are contingent upon passage and approval of House Bill No. 124.

Item 3 includes funding for 5 FTE above the level funded by the 2001 legislature for the purpose of establishing a department-wide refinancing unit. The cost of the FTE and any supporting contracting efforts must be supported from anticipated savings from the refinancing of social worker case management services and maximizing of federal funding in the child and family services division. The department shall report on the progress of its refinancing efforts periodically to the office of budget and program planning, legislative finance committee, and the 2003 legislature.

It is the intent of the legislature that up to $3 million of funds that the department receives because of refinancing general fund costs with federal special revenue be used to offset the across-the-board general fund reductions included in item 7.

Funds in item 3a may be used only to fund a deputy director position within the department.

Funds included in item 4c may be used only to support costs for the completion of a financial institution data match.

Funds included in item 4d may be used only to support the costs incurred to complete a study of the costs of raising a child in Montana.

Items 5, 9, and 10 include appropriations of state special revenue for provider rate increases funded from the interest income on the tobacco settlement trust fund provided for in Article XII, section 4, of the Montana constitution. If the interest income on the tobacco settlement trust fund provided for in Article XII, section 4, of the Montana constitution is insufficient to fully fund the state special revenue appropriations in items 5, 9, and 10, the legislature intends that the department find alternative funding sources to fully fund the provider rate increases. Alternative sources may include but are not limited to enhanced medicaid intergovernmental transfer programs and transfers of general fund money from other appropriations.

Item 5 includes increases of $6,717,000 of general fund money in fiscal year 2002 and of $6,862,000 of general fund money in fiscal year 2003 and reductions of $6,717,000 of state special revenue in fiscal year 2002 and of $6,862,000 of state special revenue in fiscal year 2003 that are contingent upon passage and approval of House Bill No. 124.

The health policy and services division is authorized to pursue up to $1.5 million in federal special revenue each year of the biennium in item 5 to enhance or improve division services or programs to public schools. This additional federal special revenue may be expended on services by the division as long as those actions do not require or commit the state to additional general fund expenditures beyond the amount appropriated by the legislature to the division.

Item 5a must be spent on services to assist Montanans who have been exposed to asbestos. Funds in item 5a may not be expended for any other purpose.

Implementation of the resource-based relative value scale (RBRVS) provider rate system must continue to be phased in over the 2003 biennium. The department shall use funds in item 5b to raise rates paid to those current procedural terminology (CPT) codes paid the lowest percentage of medicare reimbursement

that were restricted to 145% of the level of the state fiscal year 1997 reimbursement in state fiscal year 1999. The department may not change reimbursement for CPT codes, which were paid at 80% of the level of the state fiscal year 1997 reimbursement in state fiscal year 1999.

Item 5c includes funds for 3.5 FTE. Funds for the FTE may not be included in the adjusted base budget for the 2005 biennium unless federal funds or private revenue is available to fund the position.

Funds in item 5d may be used only to purchase equipment to transmit or to facilitate the transmission of medical images and x-rays from rural hospitals to medical specialists. The funds may be granted only to rural hospitals or groups of rural hospitals to purchase the equipment.

The department shall provide to the legislative finance committee each year of the biennium an analysis of the number of medicaid hospital projects completed and associated cost savings because of funding for claims adjudication specialists as approved by the 2001 legislature.

Item 6 includes increases of $211,082 of general fund money in fiscal year 2002 and of $218,916 of general fund money in fiscal year 2003 and reductions of $204,359 of state special revenue in fiscal year 2002 and of $205,400 of state special revenue in fiscal year 2003 that are contingent upon passage and approval of House Bill No. 124.

Item 7 includes increases of $1,044,768 of general fund money in fiscal year 2002 and of $1,070,319 of general fund money in fiscal year 2003 and reductions of $1,037,443 of state special revenue in fiscal year 2002 and of $1,055,626 of state special revenue in fiscal year 2003 that are contingent upon passage and approval of House Bill No. 124.

Item 7 includes a reduction in general fund money of $158,038 in fiscal year 2002 and $158,038 in fiscal year 2003. This reduction is the equivalent of a 15% reduction in fiscal 2000 base budget travel expenses. The department may reallocate this reduction in funding among divisions when developing 2003 biennium operating plans.

Item 7 includes a reduction in fiscal year 2003 of $107,796 in general fund money and represents the equivalent of 25% of office supplies expenditures funded with general fund money in fiscal year 2002. The department may reallocate this reduction in funding among programs when developing fiscal year 2003 operating plans.

Item 7 includes a reduction of $257,261 in fiscal year 2003 of general fund money. This reduction is the equivalent of a 66.67% reduction in the fiscal year 2003 budget for equipment expenses. The agency may reallocate this reduction in funding among programs in its fiscal year 2003 operating plans.

Item 7 includes a reduction of $1.46 million of general fund money in fiscal year 2003. This reduction is the equivalent of a 0.65% reduction in the fiscal year 2003 general fund appropriation for the agency. The agency may reallocate this reduction in funding among programs in its fiscal year 2003 operating plans.

Item 7 includes a reduction of $542,660 in fiscal year 2002 and $544,550 in fiscal year 2003 of general fund money. The department may reallocate this reduction in funding among divisions when developing 2003 biennium operating plans. The office of budget and program planning shall provide a report that details reallocation to the legislative finance committee by October 15 of each fiscal year.

The department shall make every effort to achieve an unqualified opinion in the financial compliance audit issued by the legislative audit division for the 2 years ending June 30, 2003. The legislature expects the department to take action to ensure that this achievement occurs, including exempting the fiscal bureau from vacancy savings requirements, exempting the fiscal bureau from reductions in staffing, establishing clear and appropriate fiscal policies and processes, and any other management actions that may reasonably be expected to result in the achievement of an unqualified audit opinion.

The developmental disability program is directed to use existing general fund appropriations within the developmental disabilities program budget to refinance services, if possible. General fund money made available through refinancing efforts may be used to:

(1) reduce the developmental disability program waiting list;

(2) improve wages paid by community providers to direct care workers;

(3) provide a provider rate increase to community services providers; and

(4) fund existing plans of care for individuals waiting for residential services.

The developmental disabilities program will report to the legislative fiscal division semiannually in January and July:

(1) the amount of general fund money that was made available through refinancing efforts;

(2) the amount, scope, and nature of services provided by funds made available through refinancing;

(3) the number of consumers, providers, and direct care worker staff benefiting from initiatives funded through refinancing efforts; and

(4) the amount of additional state special and federal funds obtained through refinancing efforts.

Item 8 includes a $1,965,199 general fund decrease in fiscal year 2003 for the disability services division replaced by a like amount of employment security account state special revenue funds administered by the department of labor and industry.

Item 8c includes $3,996,613 in general fund money and $3,861,209 in federal funds to begin equalization of wages paid to direct care workers employed by developmental disability community providers with direct care worker wages paid to employees at Eastmont human services center and the Montana developmental center.

The disability services division shall complete a report on the impact that applying income criteria to determine eligibility for developmental disabilities program services and benefits would have on individuals, the waiting list for services, and the budget for the developmental disabilities program. The report must be presented to the legislative finance committee by June 30, 2002. The report to the legislative finance committee should include by age group (0-3, 4-5, 6-18, 18-21, and over 21 years of age) and by residential setting (recipient home, group home, institution, etc.):

(1) the number of nonmedicaid-eligible recipients and the value of services, by funding source, provided to individuals and families with income at or below 200% of the federal poverty level; and

(2) the number of nonmedicaid-eligible recipients and the value of services, by funding source, provided to individuals and families with income at or below 150% of the federal poverty level.

The fiscal year 2003 funds in items 8, 8a, and 8b may not be expended until the report has been presented to the legislative finance committee.

Included in item 8b is general fund money of $1,400,277 in fiscal year 2002 and $1,400,224 in fiscal year 2003. This funding is one time only. The combined population at the two institutions (Eastmont human services center and Montana developmental center) may not exceed 88 individuals at the end of the 2003 biennium. If the disability services division has a population of more than 88 individuals at the two institutions at the end of the 2003 biennium, the division shall certify that a community residential setting was not available for the individuals remaining in the two institutions.

Funds in item 9a may be used only to make one-time payments to nursing homes based on the number of medicaid services provided. State special revenue in item 9a may be expended only after the office of budget and program planning has certified that the department has received $2 million each year from counties participating in the intergovernmental transfer program for nursing homes.

The department shall distribute funds in items 8c and 9c in a way that provides reasonable assurance that the funds are used solely for direct care wage and benefit increases. Not all providers or types of direct care workers must receive the same rate increase for the biennium. Funds appropriated in items 8c and 9c may be used only for direct care worker wage increases. Funds in items 8c and 9c may not be used to fund other programs. In the event that the department finds it necessary to institute program reductions, it is the intent of the legislature that funds in items 8c and 9c be the last items eliminated.

The senior and long-term care division is authorized to pursue up to $2 million in federal special revenue in item 9d over the biennium to enhance or improve division services or programs. This additional federal special revenue may be expended by the division on services as long as those actions do not require or commit the state to additional general fund expenditures beyond the amount appropriated for the 2003 biennium by the legislature to the division in [this act].

Pursuant to 17-7-140, item 9e is exempt from spending reductions because of a projected general fund budget deficit.

The department shall post on the senior and long-term care division website the staffing levels provided in Montana nursing facilities.

The department shall require that area agencies on aging provide a written assessment of the need for increased funding in their nutrition program prior to expending the additional Title III of the Older Americans Act of 1965 grant funds appropriated in [this act].

The appropriation in item 10 is contingent on the department developing a management plan to:

(1) ensure that the department staff tracking the census of residential treatment of children in Montana communicate in-state service availability to appropriate staff; and

(2) negotiate or issue requests for proposals in compliance with 52-2-306 and 52-2-307 for placement of children with in-state providers in lieu of placing the child in out-of-state treatment. The department shall submit the plan to the children, families, health, and human services interim committee and the legislative finance committee by July 1, 2001.

Item 10 is contingent on the department maintaining $3,539,842 of federal block grant contracts to state-approved chemical dependency programs for treatment and rehabilitation each year of the 2003 biennium.

Item 10 includes $559,560 in general fund money in fiscal year 2002 and $713,907 in fiscal year 2003 that must be used to fund mental health services for persons eligible for the mental health services plan. At least $480,000 of these general fund appropriations must be used for grants to one or more local children's mental health provider coalitions to prevent placement of emotionally disturbed children in out-of-home services.

Item 10 must be increased by $1 million in general fund money and must be reduced by $1 million in state special revenue in fiscal year 2003 unless Senate Bill No. 1, August 2002 Special Session, is passed and approved in a form that:

(1) maintains at least a $1 million distribution to state-approved chemical dependency programs to provide treatment, rehabilitation, and prevention of chemical dependency pursuant to 53-24-208; and

(2) requires the department to distribute in the same proportion as provided in 53-24-206(3)(b) at least $730,000 of the $1 million in funds referenced in item 1 to the state-approved chemical dependency programs.

Funds in item 10a must be used to fund services at Montana state hospital and for staff and utilization review activities to reduce the use of institutional services. Any funds not spent for staff and utilization review activities must be used to fund community services, which will reduce the need for inpatient and institutional care. The funds may not be used for any other purpose.

Funds in item 10b must be used to fund mental health services for low-income children. Funds in item 10b may not be used for any other purpose or transferred to any other program.

Funds in item 10d must be used to contract with the Montana consensus council.

The appropriations for legislative contract authority are subject to all of the following provisions:

	Fiscal 2002						Fiscal 2003					
General Fund	State Special Revenue	Federal Special Revenue	Proprietary	Other	Total	General Fund	State Special Revenue	Federal Special Revenue	Proprietary	Other	Total

(1) Legislative contract authority applies only to federal funds.

(2) Legislative contract authority expenditures must be reported on the state's accounting system, and the records must be separate from present law operations. In preparing the 2005 biennium budget for legislative consideration, the office of budget and program planning may not include the expenditures from this item in the present law base.

(3) A report must be submitted by the department to the legislative fiscal division following the end of each fiscal year of the biennium. The report must include a list of projects with the related amount of expenditures and FTE for each project.

The department is to report to the natural resources and commerce appropriations subcommittee on the projects funded with federal Sikes Act money and state matching money. The report is to include an analysis of the viability for continuance of the program and a list of projects funded with the money.

If the department is required to adjust personal services expenditure costs between state and federal accounts, the approving authority shall adjust the state special revenue appropriation and the federal appropriation by like amounts. All transfers between fund types must be fully explained and justified on budget documents submitted to the office of budget and program planning.

The department shall determine and quantify any efficiencies generated as a result of incorporating the Smith River drawing process into the automated license system and report its findings to the 2003 legislature.

Item 1b legislative contract authority (LCA) is subject to all LCA provisions stated in the agency's language. LCA is restricted and a one-time-only item in [this act] and must be requested as a new proposal to be continued into the 2003 biennium. LCA applies only to federal funds.

The department may reallocate this reduction in funding among divisions when developing 2003 biennium operating plans.

Item 4a contains a biennial appropriation of $96,000 for game farm environmental assessment/environmental impact statements.

The appropriations for legislative contract authority are subject to all of the following provisions:

	Fiscal 2002						Fiscal 2003					
General Fund	State Special Revenue	Federal Special Revenue	Proprietary	Other	Total	General Fund	State Special Revenue	Federal Special Revenue	Proprietary	Other	Total

(1) Legislative contract authority applies only to federal and private funds.

(2) Legislative contract authority expenditures must be reported on the state accounting records and kept separate from present law operations. In preparing the 2005 biennium executive budget, the office of budget and program planning may not include expenditures from this item in the present law base.

(3) A report must be submitted by the department to the legislative fiscal analyst following the end of each fiscal year, listing legislative contract authority grants received and the amount of expenditures and FTE for each grant.

The legislature recognizes that the costs associated with litigation in which the legal services division is required to provide representation to the state of Montana may exceed the appropriation provided. In that event, the department will need to request a supplemental appropriation from the 2003 legislature to adequately represent the state.

Item 1 includes a reduction in fiscal year 2003 of $40,008 in general fund money and represents the reductions ordered by the governor pursuant to 17-7-140.

Item 1c is contingent upon passage and approval of House Bill No. 419.

The appropriation for the gambling control division contains funding for the automated accounting and reporting system (AARS). The general fund appropriation of $380,000 in each year of the 2003 biennium reflects continuation of a 5-year general fund commitment for this project through the 2005 biennium. It is the intent of the legislature that an annual general fund commitment of $236,250 be continued in each year of the 2007 biennium. If the long-range building program committee bill, to use intercap funding for AARS implementation, is passed by the 2001 legislature, a portion of these appropriations may be used to make debt service payments.

The department is appropriated up to $2,800,000 for the biennium from state special revenue funds for the purchase of system interface boards to be used for the implementation of the AARS.

Item 2 includes a reduction in fiscal year 2003 of $38,000 in general fund money and represents the reductions ordered by the governor pursuant to 17-7-140.

Item 2 includes a reduction of $567,203 in general fund money in fiscal year 2002 and $569,866 in fiscal year 2003 and an increase in proprietary funds of $611,103 in fiscal year 2002 and $613,766 in fiscal year 2003. These reductions and increases are contingent upon passage and approval of House Bill No. 399.

Item 3 includes a reduction in general fund money of $31,502 in fiscal year 2002 and $31,502 in fiscal year 2003. This reduction is the equivalent of a 10% reduction in fiscal year 2000 base budget travel expenses. The department may reallocate this reduction in funding among divisions when developing 2003 biennium operating plans.

Item 3 includes $5,738 of general fund money in fiscal year 2002 that is contingent upon passage and approval of House Bill No. 124.

In addition, if Senate Bill No. 328 is not passed and approved, the amendment to the reference copy of [this act] striking the language accompanying the extradition and transportation of prisoners program in the department of justice is void.

Item 10 includes $12,000 in general fund money for fiscal year 2002 for lab accreditation. The use of the funds for accreditation is contingent on passage of a federal requirement that a lab needs to be accredited to receive federal funds.
